Aprender a programar: algoritmos y fundamentos de programación orientados a la ingeniería y ciencias Mario Rodríguez Rancel, 2013-04-01 Mucha gente quiere aprender a programar ordenadores y no sabe por dónde empezar. Este libro pretende ser una guía didáctica para que todo aquel interesado se inicie en la programación partiendo de sus fundamentos, explicados de una manera amena y sencilla, paso a paso y con decenas de ejercicios comentados y resueltos a fondo. Porque los fundamentos de la programación son la base para empezar a programar, antes incluso de elegir un lenguaje, el texto presenta una parte de contenidos generales que tratan de aportar los cimientos de conocimiento para poder llegar a ser buenos programadores. Progresivamente se van introduciendo los conceptos de programación estructurada, programación por módulos y programación orientada a objetos... ¿El objetivo? Más que conocer un lenguaje concreto, saber pensar como programadores. A todos los que se animen en esta aventura: ¡Adelante!

Escritura de Nuú Dzauí Maarten Evert Reinoud Gerard Nicolaas Jansen, Laura N. K. van Broekhoven, 2008 This book offers a comprehensive and in-depth analysis of the development of writing in the region of Nuú Dzauí (the Mixtec people in Southern Mexico) from its earliest manifestations up to the present. Specialist essays (mostly in English, some in Spanish) present new archeological data, contribute to the decipherment of precolonial pictorial manuscripts, and analyze historical documents written in Mesoamerican languages during the colonial period. From this diachronic perspective much attention

is given to the changing social contexts as well as to methodological and interpretive issues. In addition, contemporary projects are discussed, which register oral tradition, create space for native languages within the national school system, and produce new poetic works. The inclusion of two Mixtec documentary films on a inserted dvd provokes important comments on the representation of indigenous American cultures in general.
