

The Apocryphal New Testament

William Hone

The Apocryphal New Testament J. K. Elliott, 2005-10-27 This collection of apocryphal writings supersedes the best-selling edition by M. R. James, first published in 1924. Since then, several new works have come to light, and the textual base for some of the works previously translated by James is now more secure. In this volume, J. K. Elliott presents new translations of the texts into modern English, together with a short introduction and bibliography for each of them. The collection is designed to give readers the most important and famous non-canonical Christian writings, many of them popular legends with an enormous influence on later, particularly medieval, art and literature, as well as on later beliefs and practices of the Church.

The Apocryphal New Testament William Hone, 2010-01-20 The Apocryphal New Testament, being all the gospels, epistles, and other pieces now extant, attributed in the first four centuries to Jesus Christ, His Apostles, and their companions and not included in the New Testament. The New Testament apocrypha are a number of writings by early Christians that give accounts of Jesus and his teachings, the nature of God, or the teachings of his apostles and of their lives. These writings often have links with those books which are regarded as canonical. Not every branch of the Christian church is in agreement as to which writings are to be regarded as canonical and which are apocryphal.

The Apocryphal Gospels Jens Schroter, 2021-11-19 The New Testament contains four accounts of the life of Jesus. To some people in antiquity, four was too many. Disagreements in the Gospels over what Jesus said and did triggered debate between insiders and drew criticism from outsiders. To other people, four was not enough. As early as the first century, Christians wrote additional gospels, each with their own portrayal of Jesus and depictions of his relationships with his family, his followers, and his Father. While these gospels were not included in the New Testament canon, many continued to be important for Christian thought and practice; all these texts, moreover, are significant for the study of emergent Christianity. This short, accessible introduction draws on current scholarship on the various noncanonical (or apocryphal) gospels to present this fascinating literature to readers eager to learn more about their origins, contents, and meaning. The book begins with a discussion of the distinction between gospels that became canonical and those that came to be regarded as apocryphal. Then, the gospels are presented in chapters arranged according to Jesus' ministry: from Infancy Gospels to texts about Jesus' earthly career to his passion, resurrection, and postresurrection appearances. This book demonstrates how early

Christians confronted crises in their communities through story, crafting new accounts of Jesus' life that expanded upon and sometimes challenged the Gospels that became canonical. The apocryphal gospels are not Scripture, but they are no less valuable for understanding Christianity in its formative centuries and beyond.

The Apocryphal Gospels Hans-Josef Klauck, 2003-01-01 In this book Hans-Josef Klauck provides a comprehensive introduction to the apocryphal gospels - the biblical and related writings which do not form part of the accepted canon of Scripture. Klauck classifies the material in various helpful ways: Agrapha (isolated sayings of Jesus), Fragments, Jewish Christian Gospels, Two Gospels of the Egyptians, Infancy Gospels, Gospels about Jesus' Death and Resurrection, Gospels from Nag Hammadi, Conversations with the Risen Jesus, Dialogues of Jesus with No Location, Legends about the Death of Mary, Lost Gospels, the Toledot Jeshu (an anti-gospel). Each section is accompanied by a carefully related bibliography. This highly readable introduction takes account of all the latest international scholarship on the apocrypha and will be an invaluable resource for all scholars and students in the field.

The Apocryphal Gospels Simon Gathercole, 2021-04-22 A new translation of the oldest non-canonical Christian gospels. In the early years of Christianity, several groups produced 'hidden' or 'apocryphal' gospels, alternative versions of the story of Christ. Sometimes these texts complemented the four canonical gospels of the New Testament, sometimes they subverted them and often they were completely different. Here, in the widest selection of non-canonical gospels gathered in one volume - which also includes two modern forgeries - we see the young Jesus making live birds from clay, hear his secret words of wisdom, discover gnostic cosmologies and witness the Harrowing of Hell. Preserved by their readers and attacked by their detractors, these gospels shine a fascinating light on the early Christian Church. Translated with an Introduction by Simon Gathercole

The Apocryphal Gospels Bart Ehrman, Zlatko Pleše, 2011-07-21 The Apocryphal Gospels is a collection of texts and new translations of the gospels that were not included in the New Testament. Bart D. Ehrman and Zlatko Pleše, leading scholars of early Christianity of the University of North Carolina, have compiled 42 English translations of texts and textual fragments from the original Greek, Latin, and Coptic. For the first time, this book includes non-canonical Gospels from the early centuries of the church in an original-text and facing-page-translation edition. This will be a pivotal source of reference for scholars and graduate students of the New Testament, early church history, antiquity and late antiquity, and ancient Greek, Latin, and Coptic languages.

The Apocryphal New Testament ,2010-08-12 Collected by the radical journalist William Hone, this collection is of the Greek New Testament Apocrypha and other first century writings.

The Apocryphal Gospels Charles River Charles River Editors,Gustavo Vazquez Lozano,2017-01-24 *Includes pictures *Includes excerpts from the apocrypha *Includes a list of the apocrypha, online resources, and a bibliography for further reading Between 50 and 90 CE, the various writings that comprise the New Testament were written, including the Four Gospels, the Acts of the Apostles, the Epistles of Paul, and other letters to more general communities of the early Church. But what is recognized as the 26 books of the New Testament today, in literally hundreds of English translations, actually took several more centuries to be determined as canonical by the Church. In fact, it was not until a synod in Rome in 382 that the Church in the West formally adopted a list of the canonical books of the New Testament. For the intervening three centuries, there was much discussion among different writers over the many manuscripts circulating among the early Christian communities. Many of the manuscripts were anonymously authored by members of early heretical groups of Christians who shaped supposedly inspired writings to provide support for their doctrinal positions. Many more had the veneer of inspired texts because they were attributed to one of the Twelve Apostles or Mary, the mother of Jesus; they claimed to offer details of Jesus' life not covered in depth in the Four Gospels (such as his infancy and childhood), or the activities of the named apostle, or doctrinal teachings. The process of determining the Canon of the New Testament was a long one. It involved numerous scholars directed by the teachings of the Church sifting through numerous manuscripts with various attributed authorships. The 29 that made it into the canon were those that passed muster in terms of apostolic authorship and conformity to orthodox Church teaching. Most of those that did not make it in failed on those two accounts. Others were not included because they were judged not to have been written under the inspiration of the Holy Spirit. Whatever the reason they were excluded, the writings that comprise the New Testament Apocrypha, while not inspired Scripture, do show something of the context in which the early Church developed its doctrines and its writings. Even today, not every branch of the Christian church agrees on which writings should be regarded as canonical and which are apocryphal, even though some apocryphal texts often have noticeable links with books regarded as canonical. Regardless, the New Testament Apocrypha refers to texts written by early Christians that were not included in the Bible used by the main branches of Christianity today. These texts vary in subject matter, with some being accounts of Jesus, others being about the nature of God, and still others being accounts and teachings of Jesus' apostles. What makes them fascinating is not just the history behind why they are considered non-canonical, but what they tell us about the early Church and early Christianity. Moreover, they offer insight into what sources were used to write them, and whether they shared the same sources as the texts that comprise the Bible today. Given their historical and religious importance, there is still a fierce debate over the authenticity of many of these texts. The Apocryphal Gospels: The History of the New Testament Apocrypha Not Included in the Bible looks at some of the

famous texts that were kept out of the Bible. Along with pictures of important people, places, and events, you will learn about the apocryphal books like never before.

Art and the Christian Apocrypha David R. Cartlidge,J. Keith Elliot,2013-10-23 The Christian canon of scripture, known as the New Testament, excluded many of the Church's traditional stories about its origins. Although not in the Bible, these popular stories have had a powerful influence on the Church's traditions and theology, and a particularly marked effect on visual representations of Christian belief. This book provides a lucid introduction to the relationship between the apocryphal texts and the paintings, mosaics, and sculpture in which they are frequently paralleled, and which have been so significant in transmitting these non-Biblical stories to generations of churchgoers.
