

The Face In The Frost

Ying-Ying Zheng

The Face in the Frost John Bellairs, 2014-04-01 A fantasy classic by the author of *The House with a Clock in Its Walls*—basis for the Jack Black movie—and “a writer who knows what wizardry is all about” (Ursula K. Le Guin). A richly imaginative story of wizards stymied by a power beyond their control, *A Face in the Frost* combines the thrills of a horror novel with the inventiveness of fairy tale-inspired fantasy. Prospero, a tall, skinny misfit of a wizard, lives in the South Kingdom—a patchwork of feuding duchies and small manors, all loosely loyal to one figurehead king. Along with his necromancer friend Roger Bacon, who has been on a quest to find a mysterious book, Prospero must flee his home to escape ominous pursuers. Thus begins an adventure that will lead him to a grove where his old rival, Melichus, is falsely rumored to be buried and to a less-than-hospitable inn in the town of Five Dials—and ultimately into a dangerous battle with origins in a magical glass paperweight. Lin Carter called *The Face in the Frost* one of “the best fantasy novels to appear since *The Lord of the Rings* . . . Absolutely first class.” With a unique blend of humor and darkness, it remains one of the most beloved tales by the Edgar Award-nominated author also known for the long-running *Lewis Barnavelt* series.

Face in the Frost John Bellairs, 1984-07-01 *The Face in the Frost* is a fantasy classic, defying categorization with its richly imaginative story of two separate kingdoms of wizards, stymied by a power that is beyond their control. A tall, skinny misfit of a wizard, named Prospero, lives in the Southern Kingdom -- a patchwork of feuding duchies and small manors, all loosely loyal to one figurehead king. Both he and an improbable adventurer named Roger Bacon look in mirrors to see different times and places, which greatly affects their personalities and mannerisms and leads them into a myriad of situations that are sometimes frightening and often hilarious. Hailed by critics as an extraordinary work, combining the thrills of a horror novel with the inventiveness of fantasy, *The Face in the Frost* is the debut novel that launched John Bellairs' reputation as one of the most influential voices in young adult fiction.

Boreal Forests in the Face of Climate Change Miguel Montoro Girona, Hubert Morin, Sylvie Gauthier, Yves

Bergeron,2023-03-01 This open access book explores a new conceptual framework for the sustainable management of the boreal forest in the face of climate change. The boreal forest is the second-largest terrestrial biome on Earth and covers a 14 million km² belt, representing about 25% of the Earth's forest area. Two-thirds of this forest biome is managed and supplies 37% of global wood production. These forests also provide a range of natural resources and ecosystem services essential to humanity. However, climate change is altering species distributions, natural disturbance regimes, and forest ecosystem structure and functioning. Although sustainable management is the main goal across the boreal biome, a novel framework is required to adapt forest strategies and practices to climate change. This collaborative effort draws upon 148 authors in summarizing the sustainable management of these forests and detailing the most recent experimental and observational results collected from across the boreal biome. It presents the state of sustainable management in boreal forests and highlights the critical importance of this biome in a context of global change because of these forests' key role in a range of natural processes, including carbon sequestration, nutrient cycling, and the maintaining of biodiversity. This book is an essential read for academics, students, and practitioners involved in boreal forest management. It outlines the challenges facing sustainable boreal forest management within the context of climate change and serves as a basis for establishing new research avenues, identifying future research trends, and developing climate-adapted forest management plans.
