Revelation Space Alastair Reynolds, 2002-05-28 The highly-acclaimed first novel in the Revelation Space universe—a debut that has redefined the space opera with a staggering journey across vast gulfs of time and space to confront the very nature of reality itself... “[A] TOUR DE FORCE... RAVISHINGLY INVENTIVE.”—Publishers Weekly Nine hundred thousand years ago, something annihilated the Amarantin civilization just as it was on the verge of discovering space flight. Now one scientist, Dan Sylveste, will stop at nothing to solve the Amarantin riddle before ancient history repeats itself. With no other resources at his disposal, Sylveste forges a dangerous alliance with the cyborg crew of the starship Nostalgia for Infinity. Because the Amarantins were destroyed for a reason—and if that reason is uncovered, the universe—and reality itself—could be irrevocably altered...

Revelation Space Alastair Reynolds, 2001 Science fiction-roman.

Redemption Ark Alastair Reynolds, 2004-05-25 Alastair Reynolds pushes the boundaries of science fiction and “confirms his place among the leaders of the hard-science space-opera renaissance” (Publishers Weekly) in this novel in his Revelation

Space universe. Late in the twenty-sixth century, the human race has advanced enough to accidentally trigger the Inhibitors—alien killing machines designed to detect intelligent life and destroy it. The only hope for humanity lies in the recovery of a secret cache of doomsday weapons—and a renegade named Clavain who is determined to find them. But other factions want the weapons for their own purposes—and the weapons themselves have another agenda altogether...

Absolution Gap Alastair Reynolds, 2005 In the epic conclusion of the Revelation Space trilogy, veteran Clavain and his desperate companions seek refuge on a remote moon, light-years away from the ancient killing machines wreaking havoc on the universe in an attempt to destroy all human life, only to discover that to defeat this horrific enemy, they must forge an uneasy alliance with an even more deadly ally. Reprint.

Chasm City Alastair Reynolds, 2020-04-21 Return to the dazzling world of Revelation Space with this British Science Fiction Award-winning space opera about a young man hell-bent on revenge on the surface of a twisted, disease-corrupted planet. The once-utopian Chasm City -- a domed human settlement on an otherwise inhospitable planet -- has been overrun by a virus known as the Melding Plague, capable of infecting any body, organic or computerized. Now, with the entire city corrupted -- from the people to the very buildings they inhabit -- only the most wretched sort of existence remains. For security operative Tanner Mirabel, it is the landscape of nightmares through which he searches for a lowlife postmortal killer. But the stakes are raised when his search brings him face to face with a centuries-old atrocity that history would rather forget. One of Locus and Science Fiction Chronicle's Best SF Novels of the Year

Mammoth Books presents Sleepover Alastair Reynolds, 2012-09-27 This story is not part of the Revelation Space series. It was developed from notes for an unwritten novel and maybe one day that novel will be completed, for we need to know the fate of the Earth. This story presents one of the more unusual apocalyptic ideas.

Inhibitor Phase Alastair Reynolds, 2021-10-12 A stellar new science fiction adventure from the author who redefined space opera, set in his bestselling Revelation Space universe. For thirty years a tiny band of humans has been sheltering in the caverns of an airless, crater-pocked world called Michaelmas. Beyond their solar system lie the ruins of human interstellar civilization, stalked by a ruthless, infinitely patient cybernetic entity determined to root out the last few bands of survivors. One man has guided the people of Michaelmas through the hardest of times, and given them hope against the wolves: Miguel de Ruyter. When a lone human ship blunders into their system, and threatens to lead the wolves to Michaelmas, de Ruyter embarks on a desperate, near-suicide mission to prevent catastrophe. But an encounter with a refugee from the ship—the enigmatic woman who calls herself only Glass—leads to de Ruyter's world being turned upside down.

The Revelation Space eBook Collection Alastair Reynolds, 2011-10-20 All seven books set in the REVELATION SPACE universe, now collected in one bundle Nine hundred thousand years ago, something wiped out the Amarantin. For the human

colonists now settling the Amarantin homeworld Resurgam, it's of little more than academic interest, even after the discovery of a long-hidden, almost perfect Amarantin city and a colossal statue of a winged Amarantin. For brilliant but ruthless scientist Dan Sylveste, it's more than merely intellectual curiosity - and he will stop at nothing to get at the truth. Even if the truth costs him everything. But the Amarantin were wiped out for a reason, and that danger is closer and greater than even Sylveste imagines ... Contains seven fantastic novels: REVELATION SPACE, CHASM CITY, REDEMPTION ARK, ABSOLUTION GAP, THE PREFECT, DIAMOND DOGS & TURQUOISE DAYS and GALACTIC NORTH

Terminal World Alastair Reynolds, 2021-12-21 In the last surviving human city, an ex-spy gets sucked into a dangerous quest that will take him beyond the city walls when a winged man turns up dead in his morgue in this innovative and original dystopian space adventure. Spearpoint, the last human city, is an enormous atmosphere-piercing spire. Clinging to its skin are the zones, a series of semi-autonomous city-states, each of which enjoys a different—and rigidly enforced—level of technology. Following an infiltration mission that went tragically wrong, Quillon has been living incognito, working as a pathologist in the district morgue. But when a near-dead angel drops onto his dissecting table, Quillon's world is wrenched apart one more time, for the angel is a winged posthuman from Spearpoint's Celestial Levels—and with the dying body comes bad news. If Quillon is to save his life, he must leave his home and journey into the cold and hostile lands beyond Spearpoint's base, starting an exile that will take him further than he could ever imagine. But there is far more at stake than just Quillon's own survival, for the limiting technologies of the zones are determined not by governments or police, but by the very nature of reality—and reality itself is showing worrying signs of instability . . .
