Eradicating Female Genital Mutilation Hilary Burrage, 2016-12-05 This ground-breaking handbook details the present situation with regard to female genital mutilation (FGM) in Britain, referring also to other Western nations where FGM occurs. It scrutinises current pathways to eradicating this dangerous, sometimes lethal, form of child abuse and gender-related violence. The cultural and belief systems giving rise to FGM are complex. Further, FGM is an intensely intimate matter often imposed on young and vulnerable children. Approaches to its eradication therefore demand considerable human insight and a competent grasp of inter-/cross-agency working. It is also vital that everyone concerned - whether in caring and parental, safeguarding or other roles - understands fully that, regardless of custom or belief, FGM is a serious crime. The vulnerabilities and need for protection of victims and potential victims are paramount, but these pressing priorities do not lessen the requirement that all aspects of FGM be dealt with straightforwardly in accordance with the law. This book makes the case urgently for developing a shared, coherent model - a multi-disciplinary paradigm articulated at the highest level - as the basis to achieve the eradication of FGM. The text will be required reading for health, legal, educational and social services professionals, as well as researchers, policy-makers, school governors, journalists and other concerned citizens.

Sexual Ethics and Islam Kecia Ali, 2016-01-07 Whether exploring the thorny issues of wives' sexual duties, divorce, homosexuality, or sex outside marriage, discussions of sexual ethics and Islam often spark heated conflict rather than reasoned argument. In this updated and expanded edition of her ground-breaking work, feminist Muslim scholar Dr Kecia Ali asks how one can determine what makes sex lawful and ethical in the sight of God. Drawing on both revealed and interpretative Muslim texts, Ali critiques medieval and contemporary commentators alike to produce a balanced and comprehensive study of a subject both sensitive and urgent, making this an invaluable resource for students, scholars, and interested readers.

Circumcision in Islam Abū Bakr 'Abd al-Razzāq, 1998

Male & Female Circumcision Sami Awad Aldeeb Abu-Sahlieh, 2001

Female Genital Mutilation Haseena Lockhat, 2004 Female Genital Mutilation describes how the UK has no effective procedure either to identify girls 'at risk' or those who have been taken away to be circumcised. In addition, there is no blanket training, information, or guidance to health professionals, and few support mechanisms for girls who have suffered

from their experience. Dr. Lockhat argues that there is a great opportunity for their work to be co-ordinated, for good practice to be shared, and a real difference to be made. From extensive interviews with circumcised women she details their experiences and recommends ways forward for all those who may be involved in their care.--BOOK JACKET.

To Mutilate in the Name of Jehovah Or Allah Sami Awad Aldeeb Abu-Sahlieh,1994 In deze studie wordt ingegaan op de religieuze argumenten t.a.v. zowel mannen- als vrouwenbesnijdenis. Tevens wordt er ingegaan op vragen over het recht om te oordelen, de verschillende vormen van vrouwenbesnijdenis enz.

Encyclopedia of Women & Islamic Cultures Suad Joseph,Afsāna Nağmābādī,2003 Family, Body, Sexuality and Health is Volume III of the Encyclopedia of Women & Islamic Cultures. In almost 200 well written entries it covers the broad field of family, body, sexuality and health and Islamic cultures.

Infibulation Esther Hicks,2018-01-16 Infibulation is the most extreme form of female circumci- sion. It plays an important role in the Islamic societies of northeastern Africa. Until now, the social significance and function of this practice has been poorly understood. In this volume, Hicks analyzes female circumcision as a cultural trait embedded in a historically traditional milieu and shows why it cannot be treated in isolation as a single issue destined for elimination.

Islamism vs. the West Daniel Pipes,2023-10-24 The war on terror, wars in Iraq and Afghanistan, the Arab-Israeli conflict—again and again in the twenty-first century, crises coming out of the Middle East confront and puzzle Americans. Daniel Pipes has, to much acclaim, been explaining the region since the 1960s. The Wall Street Journal considers him “an authoritative commentator on the Middle East” and the Washington Post deems him “perhaps the most prominent U.S. scholar on radical Islam.” The New York Times calls him “smart and well-informed.” In this volume, Daniel Pipes tackles many questions: Are Muslims truly fatalistic, as their reputation holds? Is radical Islam still on the rise or is it declining? Why are substantial numbers of Iranian-Muslims converting to Christianity? Which American city has emerged as a global center of criminality with female coverings as accessories? Why does tension exist between the Jews of Europe and Israel? How did it happen that Israel is the only country in the world that did not come into existence through conquest? Why are Muslim countries the hold-outs in eradicating polio? In the skilled hands of a leading Middle East authority, these topics come to life as Daniel Pipes explains much about the world’s most volatile region.

Infibulation Esther K. Hicks,2011-12-31 Infibulation is the most extreme form of female circumcision. It plays an important role in the Islamic societies of northeastern Africa. Until now, the social significance and function of this practice has been poorly understood. This has been no less true of Western commentators who have condemned the practice than of relevant governments that have attempted to curb it. In Infibulation, Esther K. Hicks analyzes female circumcision as a

cultural trait embedded in a historically traditional milieu and shows why it cannot be treated in isolation as a single issue destined for elimination. In its brief history it has been recognized as a pioneering piece of research with enormous consequences. As Hicks demonstrates, much of the popular resistance to official efforts to eradicate infibulation has actually come from women. Circumcision constitutes a rite of passage for female children. It initiates them into womanhood and makes them eligible for marriage. Often, this is the only positive status position available to women in traditional Islamic societies. Hicks points out that although female circumcision predates the introduction of Islam into the region, the religious culture has successfully codified infibulation into the structural nexus of marriage, family, and social honor at all socioeconomic levels.

Development Cooperation in Muslim Countries Elvira Ganter,2006 Culture and development cooperation are inextricably linked. For development cooperation to be both successful and sustainable, cultural concepts need to be taken into account. Against the background of an increasingly politicized discourse about Islam, GTZ has stressed positive potential elements in Muslim societies. Covering a broad range of topics from good governance and conflict resolution to gender and girls education as well as the conservation of natural resources, this book analyzes the limits and potentials of development cooperation in Muslim countries. Many examples from the field help to underline the theoretical analysis. Over and above that, the book is a reflection on the external influence on political, social, and institutional change that development cooperation always entails. The book also makes a contribution to a much needed dialogue with partner countries, and shows that development cooperation can be an important actor in furthering this dialogue.
