Refeudalization and the Crisis of Civilization Olaf Kaltmeier,Edgardo Lander,2023-06-02 Discussing the civilizatory crisis and processes of refeudalization this volume brings into dialogue two of the most creative approaches, in Olaf Kaltmeier and Edgardo Lander, to rethink capitalism in the 21st century. In Part 1, Olaf Kaltmeier, takes issue with the state of social inequality in the region, highlighting the concentration of wealth within the upper 1% of society in Latin America. Comparing the current economic situation with the ancient regime, the discussion centers around the new phenomena like billionaires as president, increased luxury consumption, an emerging culture of distinction, and the intensification of land and spatial segregation. In Part 2, Lander urgently assesses the current state and political legacy of the Pink Tide governments in his essay Crisis of Civilization. Reviewing the past two decades of the new millennium, Lander critiques the failure of these governments to provide alternatives to extractivism and economic dependencies. Finally, Hans-Jürgen Burchardt connects the arguments through interviews where both authors sum their efforts to open the issues to future dialogue. Refeudalization in Latin America provides an accessible and thought-provoking political diagnosis from the Global South which departs from the oft idiosyncratic and cyclical debates of the Global North to offer new vocabulary for social change. It will interest scholars and students of global studies, sociology, and political science.

Elogi de la Nova Escola Pública Joan Domènech Francesch,2025-05-30 I si l'escola pogués canviar el món? L'autor fa una crida apassionada a docents compromesos amb l'educació pública: una proposta que sacseja consciències i encén l'esperança. En un món desencisat, aquest llibre recupera la força de la utopia com a motor d'acció educativa. Amb mirada crítica i visió transformadora, planteja una escola que allibera, que uneix, que humanitza. És una invitació valenta a repensar, a actuar, a somiar amb els peus a terra. Perquè potser sí: l'escola pot canviar el món.

ADENTRÁNDONOS EN LA LITERATURA CATALANA. EDAD MEDIA Julia Butiñá Jiménez,2013-06-12 Con el presente libro intentamos recuperar el texto en el marco de la enseñanza a distancia de la UNED. Lo hacemos centrando el objetivo de estudio en el comentario de fragmentos textuales suficientemente representativos de los momentos y períodos propios de la literatura catalana ¿en nuestro caso, de la medieval-. Y lo hacemos apoyando esa lectura con los mejores estudios literarios del momento, y orientándola y guiándola de la mano de quienes, con una generosidad encomiable, nos han querido acompañar en esta nueva aventura docente: Josep Antoni Aguilar (UCV), Marion Coderch (UB), Joan Miquel Ribera

(UCM), Lluís Ramon (UCV), Isabel de Riquer (UB).

Semiocapitalismo contra el clima Antonio Caro Almela ,2024-11-03 Semiocapitalismo contra el clima. Por una urgente e imprescindible movilización social analiza las repercusiones que la nueva fase capitalista, el semiocapitalismo, está generando en la presente crisis climática y medioambiental. De allí emerge la siguiente constatación: solo mediante la erradicación del modo de vida característico del semiocapitalismo es como será posible combatir desde su raíz esta emergencia. La tarea pendiente consiste en lo siguiente: generar un estado de conciencia colectiva que asuma la relación orgánica existente entre la presente fase semiocapitalista del sistema y la emergencia climática y medioambiental que padecemos; y poner en marcha un movimiento ciudadano que, partiendo de esa convicción e incidiendo en las tendencias que apuntan en la actualidad más allá del vigente sistema, abra la perspectiva de una organización colectiva de índole poscapitalista que las circunstancias presentes comienzan a hacer posible. Ello resulta posible porque, como se desarrolla y justifica en esta obra, la emergencia climática y medioambiental actual constituye el punto débil del vigente sistema semiocapitalista.

Argos al laberint Josep Gifreu,2025-10-20 Avui dia el gegant de cent ulls Argos ja no vigila la bella Io, sinó que s'ha transformat en una figura al·legòrica que simbolitza la missió del nou periodisme global. Sense vincles amb partits, governs i grups de pressió, investiga i posa a disposició del públic les veritats que els poderosos volen ocultar. I no és neutral davant la injustícia, la desigualtat, la vulneració dels drets humans, la violència contra les dones i els infants, els genocidis, la fam, el racisme, l'explotació laboral, els crims de guerra o la devastació ecològica. L'ètica de la veritat del periodisme honest, independent i de qualitat és una garantia per a la democràcia i la democratització de les societats del segle XXI. A Argos al laberint, Josep Gifreu cartografia les trajectòries de professionals que entren al laberint de laberints que és el món actual per practicar el perillós i fascinant periodisme d'investigació, i troba les claus per saber per què molts acaben assassinats. I arriba a demostrar que contra els sicaris, la llei del silenci imposat i les trames de corruptes i criminals, les organitzacions periodístiques han après a treballar amb èxit, col·laborativament, explotant les noves tecnologies, protegint els resultats de les investigació i divulgant-los per tot el món.

La gestión del patrimonio histórico como instrumento para un desarrollo sostenible: [Recurso electrónico: PDF] un caso práctico: el proyecto de desarrollo local «Os Ambientes do Ar» Ana María Barbero Franco,2011 La aparición de nuevas tecnologías, el desarrollo de nuevos campos para el ocio y el turismo, y la propia globalización, han desviado el debate relativo a los aspectos culturales hacia el papel que juegan, pueden o deben jugar la cultura y el patrimonio en estos contextos: territorial y global. En este sentido, dos de las discusiones fundamentales que se plantean son: Cómo integrar los proyectos de puesta en valor del patrimonio cultural y natural en las estrategias y las políticas de desarrollo sostenible; y de qué forma el uso social del patrimonio debe ser entendido como un recurso para el desarrollo de las comunidades que deben

ser incorporadas en los proyectos que formen parte de dichas estrategias. De esta forma, surge la necesidad de reflexionar sobre aspectos tales como los propios conceptos de cultura, desarrollo sostenible, globalización, comunidad, lugar, gestión... Una primera afirmación al estudiar dichos temas es que no existe una única definición que pueda ser aplicada de forma unívoca a dichos conceptos al igual que no existe un modelo único de puesta en valor del patrimonio. Al tradicional ciclo de gestión del patrimonio (investigar, documentar, conservar, divulgar) se le añaden ahora otras preocupaciones como la función que esa gestión debe jugar en nuestra sociedad y la forma en la puede favorecer al desarrollo endógeno y sostenible de una región (es decir, de que maneras contribuye al crecimiento económico sostenido, a la cohesión social y económica y a la conservación del medio ambiente a la vez que procura mejorar la calidad de vida de las personas). Así es como llegamos a nuestra hipótesis principal de trabajo, es decir, un proyecto de gestión del patrimonio cultural debe ser considerado un proyecto social de desarrollo comunitario.

¿Legitimidad o reconocimiento? Las investigadoras del SNI. Retos y propuestas, 2015-02-05 Este libro plantea una pregunta cuya respuesta implica ejercitar el pensamiento para la comprensión de lo que sucede en el ámbito de la investigación hecha por mujeres en México. La pregunta “¿legitimidad o reconocimiento?” sugiere la necesidad de construir espacios de oportunidad legítimos que promuevan la participación de las mujeres en el desarrollo de la ciencia y la innovación tecnológica mexicanas. ¿Es la legitimidad de la actividad investigadora de las mujeres en el marco del Sistema Nacional de Investigadores una batalla cultural que aún no concluye? ¿Falta abrir ventanas de visibilidad e inclusión para las propuestas de generación y aplicación del conocimiento diseñadas por las investigadoras? Tal parece que el carácter legítimo del quehacer investigador de las académicas y científicas nacionales exige una mayor equidad y el cambio cultural que propicie la inclusión de las mujeres investigadoras que rompa los muros de contención, derribe los techos de cristal y trascienda los pisos lodosos que impiden el desarrollo armónico de las mujeres.

El trabajo de cuidados Cristina Borderías, Teresa Torns, Cristina Carrasco Bengoa, 2018-07-16 El trabajo de cuidados: historia, teoría y políticas recupera y avanza en los debates en torno al trabajo de cuidados; un trabajo imprescindible para la reproducción social y el bienestar cotidiano de las personas, que continúa siendo responsabilidad casi exclusiva de las mujeres, pero que resulta de vital importancia para toda la sociedad. Desde hace casi cuarenta años, este interés ha ido aumentando progresivamente entre quienes se ocupan y preocupan del bienestar en las sociedades contemporáneas, especialmente en el pensamiento feminista, que ha mostrado que las tareas de atención y cuidado de la vida de las personas son labores imprescindibles para la reproducción social y el bienestar cotidiano. El libro recoge una selección de artículos de obligada referencia sobre la temática, escritos por destacadas especialistas en historia, sociología o economía. Se trata, así, desde una perspectiva interdisciplinar, el trabajo de cuidados en sus distintas dimensiones: remunerado o no, ofrecido desde el sector privado o público y en sus aspectos objetivos o más subjetivos.
