Global food security Great Britain: Parliament: House of Commons: International Development Committee, 2013-06-04 The International Development Committee calls for concerted action to curb food wastage in the UK and for expansion of DFID's bilateral nutrition programmes with a particular focus on pregnancy and early years, as part of wider efforts to improve global food security. There is scope for the Government to launch a national consumer campaign to reduce domestic food waste, also setting national targets to curb food waste within the UK food production and retail sectors. Agriculturally-produced biofuels are having a major detrimental impact on global food security by driving higher and more volatile food prices. EU targets requiring 10 per cent of transport energy to be drawn from renewable sources by 2020 are likely to cause dramatic food price increases, and the Government should revise its domestic Renewable Transport Fuel Obligation to specifically exclude agriculturally-produced biofuels. Looking at the impact of rising world population, the Committee praises DFID's significant efforts to meet the considerable unmet need for contraception in many developing nations and urges the UK government to maintain a keen focus on women's reproductive rights within its development assistance programmes. MPs also flag the longer term barriers to development posed by systematic undernutrition. The Committee expresses concern that large corporations are buying up large areas of land in many developing countries previously farmed by smallholders. UK-domiciled corporations should be required to be transparent about land deals. Lastly, MPs focus on the key role that smallholder farmers will play in feeding a growing global population and in reducing rural poverty.

The Hunger Games Trilogy Suzanne Collins, 2012-01-01 The Hunger Games takes place in an unidentified future time period after the destruction of North America, in a nation known as Panem. Panem consists of a rich Capitol and twelve surrounding, poorer districts. As punishment for a previous rebellion against the Capitol, every year one boy and one girl between the ages of 12 and 18 from each district are forced to participate in The Hunger Games, a televised event where the participants, or 'tributes', must fight to the death in a large outdoor arena until only one remains. The story follows fatherless 16-year-old Katniss Everdeen, a girl from District 12 who volunteers for the Games in place of her younger sister, Prim.

Innovation, Economic Development, and Intellectual Property in India and China Kung-Chung Liu, Uday S. Racherla, 2019-09-06 This open access book analyses intellectual property codification and innovation governance in the development of six key industries in India and China. These industries are reflective of the innovation and economic development of the two economies, or of vital importance to them: the IT Industry; the film industry; the pharmaceutical industry; plant varieties and food security; the automobile industry; and peer production and the sharing economy. The analysis extends beyond the domain of IP law, and includes economics and policy analysis. The overarching concern that cuts through all chapters is an inquiry into why certain industries have developed in one country and not in the other, including: the role that state innovation policy and/or IP policy played in such development; the nature of the state innovation policy/IP policy; and whether such policy has been causal, facilitating, crippling, co-relational, or simply irrelevant. The book asks what India and China can learn from each other, and whether there is any possibility of synergy. The book provides a real-life understanding of how IP laws interact with innovation and economic development in the six selected economic sectors in China and India. The reader can also draw lessons from the success or failure of these sectors.

Transient Mobility and Middle Class Identity Catherine Gomes, 2016-12-28 This book offers an understanding of the transient migration experience in the Asia-Pacific through the lens of communication and entertainment media. It examines the role played by digital technologies and uncovers how the combined wider field of entertainment media (films, television shows and music) are vital and helpful platforms that positively aid migrants through self and communal empowerment. This book specifically looks at the upwardly mobile middle class transient migrants studying and working in two of the Asia-Pacific's most desirable transient migration destinations - Australia and Singapore - providing a cutting edge study of the identities transient migrants create and maintain while overseas and the strategies they use to cope with life in transience.

The Hunger Games (Hunger Games, Book One) Suzanne Collins, 2009-09-01 This Special Edition of The Hunger Games includes the most extensive interview Suzanne Collins has given since the publication of The Hunger Games; an absorbing behind-the-scenes look at the creation of the series; and an engaging archival conversation between Suzanne

Collins and YA legend Walter Dean Myers on writing about war. The Special Edition answers many questions fans have had over the years, and gives great insight into the creation of this era-defining work. In the ruins of a place once known as North America lies the nation of Panem, a shining Capitol surrounded by twelve outlying districts. The Capitol keeps the districts in line by forcing them all to send one boy and one girl between the ages of twelve and eighteen to participate in the annual Hunger Games, a fight to the death on live TV. Sixteen-year-old Katniss Everdeen regards it as a death sentence when she steps forward to take her sister's place in the Games. But Katniss has been close to death before and survival, for her, is second nature. Still, if she is to win, she will have to start making choices that weigh survival against humanity and life against love.

ProQuest Statistical Abstract of the United States 2013 Bernan Press, ProQuest, 2012-12-21 Published annually by the Federal Government since 1878, The Statistical Abstract of the United States is the best-known statistical reference publication in the country, and perhaps, the world. You'll find it behind nearly every reference desk in U.S. libraries as the authoritative go-to source. Librarians value the Statistical Abstract as both an answer book and a guide to statistical sources. As a carefully selected collection of statistics on the social, political, and economic conditions of the United States, it is a snapshot of America and its people. In the spring of 2011, the Census Bureau announced that the edition that year would be the last one produced at government expense. Despite protests from librarians and journalists and despite petitions to Congress, the Census Bureau unit that published the Statistical Abstract was eliminated in November. Its elimination resulted not from a decline in the popularity or perceived value of statistical compilations, but from the need to reduce agency spending while supporting new and existing data collection efforts. ProQuest and Bernan have now taken on responsibility for updating and releasing this publication, the most used statistical reference tool in libraries. We bring to this task ProQuest's 35 years of experience acquiring, abstracting, and indexing Federal Government statistical publications and tables and Bernan's 60 years of providing libraries with essential government publications and quality service. The Statistical Abstract print edition resembles the Census version that users know and love, plus more with: Thousands of tables from hundreds of sources and valuable, detailed bibliographic documentation Updated introductory sections and back-of-the-book index 8 1/2" x 11" hardcover format to withstand heavy use 25% larger type for easier reading
