Magical Elements of The Periodic Table: Presented Alphabetically by The Metal Horn Unicorns Sybrina

Durant, 2023-02-03 Get this book in soft cover print to experience it fully. Metals and all the other elements from the periodic table make everything seem magical. You can see it everywhere... in buildings. . . transportation... communications. . . medicines and even in the food you eat! All technology and everything that makes life modern come from the magical elements in the earth, water and the air. Think of it like this, "No Metal - No Magic...and No Technology." You can learn about all about it in The Magical Elements of the Periodic Table Presented Alphabetically by The Metal Horn Unicorns. 26 techno-magical elements are presented from A to Z by the magical metal horn unicorn tribe from Unimaise. Every element page shows you 1. Where the featured element comes from. 2. When it was discovered. 3. Scientific info about the element. 4. Everyday uses for it. 5. Plus a bunch of interesting facts! 6. Last but not least, each element is represented by a unicorn who wields its magical powers. The theme of "No Metal, No Magic" flows throughout the entire book. Ultimately, if there's no metal, there can be no magic. Any metal-horned unicorn will tell you that. Without metal and all the other elements of the periodic table there would be no technology for us modern people, either. Now, that's "Techno-Magical!" The book also has an amazing unicorn themed periodic table plus special pages featuring elemental compounds and alloys. Trading cards representing each of the 26 unicorns and their elements plus fun lesson cards and more are also available as printable downloads. Kids will have fun singing along with the No Metal, No Magic song, too. Learn more about all the elements in this book at <https://www.sybrina.com/muapt>

How to Write Lyrics Rikky Rooksby, 2021-09-15 Lyrics sheds light on all aspects of writing lyrics for music and will make lyricists and songwriters feel more confident and creative when they tackle lyrics. It's perfect for all songwriters: those who don't like their own lyrics and find lyrics difficult to write, experienced writers looking for a creative edge, and those offering lyrics to set to music in a partnership. The book discusses channeling personal experiences into lyrics, overcoming writer's block, the right lyrics for a bridge, the separation between lyrics and poetry, exploring imagery and metaphor, avoiding clichés, and more. It also offers tips on the various styles of lyrics, from protests, spirituals, and confessionals to narratives and comic songs. New to this edition are artist and song references throughout to reflect musical history to date. Also, a new section provides examples of taking lyric ideas right through the drafting process, illustrating development and re-drafting and using a handful of contrasting approaches.

Pinhead Timothy Bazzett,2008-03 That Reed City Boy is back! Fresh out of the army in the fall of '65, Tim Bazzett feels like he has fallen behind his former friends from high school, many of whom are already married and working, or nearly finished with college. Older than most of his fellow freshmen at Ferris State, Tim feels out of step and flounders about trying to find his proper place as he immerses himself in a work-study routine which only leaves him more isolated and lonely. Then, in his sophomore year, he joins the Ferris Vet's Club and re-enters that world of rough camaraderie of the shared military experience. Tim's social life improves, but his grades slide, until he meets the girl, and starts straightening out his act and turning his life around. The Ferris State campus and the sixties from a small-town perspective are vividly evoked throughout this alternately hilarious and poignant narrative. Sex, booze, rock and roll, and spring break on the Florida beaches - it's all here, along with first cars, making new friends, scrub crew shenanigans, grassers and the excitement of first kisses and coppin' that first feel. An eloquent and irreverent paean to the joys and uncertainties of lookin' for love - and finding it - Pinhead will take you back to a simpler and more innocent time of life. So dig out your favorite old albums and set the needle in the groove. Pour yourself a tall cool one, kick back, open up this book and get ready to remember.

Real Reading, Real Writing Donna Topping,Roberta McManus,2002 Two seasoned veterans recount their 23-year collaboration to find ways to get students to improve their learning in their content area subjects. The two teachers, one an elementary-trained reading specialist and the other a secondary-trained science teacher, begin by telling of their mission to find what will work for them, rejecting and tiring of bandwagon movements and quick-fix promises, and finding the power of collaboration. In their subsequent chapters, they discuss practices and strategies for helping students read and become actively involved with books, lectures, and videos. Then they flesh out activities to help students write more effectively in the content areas. Every teaching strategy is one that they have used successfully with real students. And they have tracked improved grades and secured students' feedback about which strategies helped them the most.
