The Complete Poems of John Donne Robin Robbins, 2014-06-06 The Poems of John Donne is one volume paperback edition of the poems of John Donne (1572-1631) based on a comprehensive re-evaluation of his work from composition to circulation and reception. Donne's output is tremendously varied in style and form and demonstrates his ability to exercise his rhetorical capabilities according to context and occasion. This edition aims to present the text of all his known poems, from the epigrams, songs and satires written for fellow young men about town, to the more mature verse-epistles and memorial elegies written for his patrons. The Longman Annotated English Poets series traditionally aims to present poems in chronological order; in this edition, however, the principle has been observed only within generic sections. This organisation reproduces the manner in which Donne's original readers first encountered the poems in the various manuscripts of his elegies and satires that circulated in Donne's lifetime. Volume One contains the Epigrams, Verse Letters to Friends, Love Lyrics, Love Elegies and Satires; Volume Two contains the religious poems, Wedding Celebrations, Verse Epistles to Patronesses, Commemorations, and the Anniversaries. The lyrics have been arranged alphabetically for ease of reference and

because, in all but a few cases, precise date of composition is impossible to determine. Each poem has extensive editorial commentary designed to put the twenty-first century reader in possession of all that is necessary fully to appreciate Donne's work. A substantial headnote sets each poem in its historical and literary context, while the annotations give detailed guidance on the wealth of classical and religious allusions and give full representation to the literary, historical and philosophical culture out of which the poems grew. In keeping with the traditions of the series, Donne's own text has been modernised in punctuation and spelling except where to do so would alter or disrupt a rhyme.

The Poems of John Donne: Volume One Robin Robbins, 2014-09-11 John Donne (1572-1631) is firmly fixed in the canon of English literature. No man is an island and For whom the bell tolls are just two of his phrases known by virtually everyone. The Poems of John Donne is a two volume edition of Donnes poems based on a comprehensive re-evaluation of his work from composition to circulation and reception. Donnes output is tremendously varied in style and form and demonstrates his ability to change his writing according to context and occasion. This edition presents the text of all his known poems, from the epigrams, songs and satires written for fellow young men about town, to the more mature verse-epistles and memorial elegies written for his patrons. Volume One contains the Epigrams, Verse Letters to Friends, Love Lyrics, Love Elegies and Satires.

The Book of Lost Books Stuart Kelly, 2012-11-05 The Book of Lost Books is a book of stories involving kings, heretics, untimely interruptions and back room deals, falling tortoises and fairy princesses, train crashes and war atrocities, bravery, cowardice, rent boys, chamber maids, love, quests, puzzles and a crocodile. From Homer to Jane Austen, Shakespeare to Ernest Hemingway, this is an account of books destroyed, misplaced, never finished, or never even begun. With academic shaggy dog stories, swashbuckling historical fables, wry ironies and imaginative fantasia, The Book of Lost Books is the perfect read for all bibliophiles. Hilarious, insightful, endlessly fascinating, sometimes shocking - The Book of Lost Books is a wonderfully quirky but utterly romantic saga of our love affair with books.

The Hermetic Link Jacob Slavenburg, 2012-04-01 Hermes is the Greek god of the Word, of thought and magic, the swift-moving messenger of the Divine and guardian of souls in the Afterlife. In Ancient Egypt he was the majestic god Thoth, the Recorder, the lord of measurement and science, the brother/husband of Isis. In Rome, he was of course Mercury, flying through the Empyrean at the speed of idea by the aid of his winged helmet and boots. In this broad survey of the Hermetic arts, author Jacob Slavenburg brings an unparalleled depth of insight to the subject. He examines the historical Hermetic literature and details its relevance to modern occultism, from the symbolism of architecture and art to the mysteries of Freemasonry. The heavenly mysteries of astrology are explored as are the healing arts which derive from the spirit of scientific inquiry embodied by Thoth/Hermes. Slavenburg examines the magical writings of the Greek papyri and their development into the contemporary magical practices of modern adepts. He sheds light on the workings of alchemy and the esoteric philosophy to the world of modern chemistry and physics. He explores the origin of evil and the realm of the afterlife, and the Hermetic doctrines of reincarnation and karma. In addition, the author provides a wealth of biographical data on the magi of Hermeticism, from Ficino to Agrippa, John Dee to Giordano Bruno.
