Summary of G. Edward Griffin's The Creature from Jekyll Island Everest Media, 2022-05-13T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The New Jersey railway station was bitterly cold that night in 1910. The name of Nelson Aldrich, senator from Rhode Island, was well known even in New Jersey. He was considered to be the political spokesman for big business. #2 The roster of the Aldrich car that night was Nelson W. Aldrich, Republican whip in the Senate and chairman of the National Monetary Commission, business associate of J. P. Morgan, father-in-law to John D. Rockefeller, Jr. #3 By 1913, the year that the Federal Reserve Act was passed, a subcommittee of the House Committee on Currency and Banking completed its investigation into the concentration of financial power in the United States. The report was devastating: the men who through their control over the funds of our railroad and industrial companies were able to direct where those funds were kept, were the ones who were in a position to tap those reservoirs for their ventures. #4 The seven men who gathered in secret that night and traveled in the luxury of Senator Aldrich's private car were largely responsible for the development of the practical and effective domination and control over our major financial, railroad, and industrial corporations.

Searching for the Spirit of the West Luigi Morelli, 2023-05-29 How can the West rediscover its authentic spirit? Exploring the period from 1899 to 1945 - from the end of the US frontier and the writing of The Wonderful Wizard of Oz to the conclusion of World War II and the dropping of the atom bomb - Luigi Morelli traces the events that led the United States to become the world's dominating imperial force. America, he demonstrates, is deeply connected to Britain, Germany and

Eastern Europe, particularly Russia. Yet despite their tragic collective histories, there is hope for the future – if only America can claim its true task. Searching for the Spirit of the West challenges many of the falsehoods that pass for mainstream history. Utilizing a wealth of documented evidence from the research of overlooked historians, economists, social and spiritual thinkers, the author takes a symptomatic view of the past, revealing hidden, longer-term trends. This approach offers a new understanding of events such as the rise of Nazism, the Great Depression, the new Deal, and even the roles of banking and clandestine 'brotherhoods' in world history. Morelli also appraises The Wonderful Wizard of Oz in parallel with America's cultural achievements. Through imagination, L. Frank Baum's contemporary fairy-tale enables us to intuit the true mission of the West and its potential contribution to world culture, now and in the future.

The Creature from Jekyll Island (summary) Kevin Edward Griffin, 2013

The First National Tee-Party Candidate James Ray Phipps, 2016-04-06 What I will share with you in this book is HOW you can earn more money in the profession of direct sales and social networking than most people working in high paying management positions for large corporations earn today. You have the option of believing what I will share with you or throwing this book into the trash can once you read it. However, until you can personally earn from a half million dollars to two million dollars per year, doing your thing, your way you will be wise to learn as much as possible about network marketing, social networking to tell others about what you do for a living and about what you have to share with the consumer public. I THANK GOD daily that I was shown the social networking concept for achieving success that I learned about during the early years of my adult lifetime. If I had waited on those in government to do what they are supposed to do to preserve personal and financial independence for the poor and middle class working people, I would have never achieved the American Dream of living an abundant lifestyle. The information within this book CAN set you financially free.

The Conscious Planet Neil M. Pine, 2013-07-16 The writing of this book was both a spiritual and intellectual journey. It took more than ten years to complete while having to be revised and updated constantly. This is no-holds-barred literature where the author says what he means and means what he says! He does not mintz his words. The Conscious Planet thinks outside the box and breaks all the rules of traditional thinking. Sometimes this information can be brutally honest or painfully real. This author is not trying to win any popularity contest. He tells it like it really is and doesnt care what anyone thinks! The Conscious Planet is what the government and big corporations who control it dont want you to know! It is the truth about the truth and nothing but the truth, so help me ! In the modern world, people only know what multinational corporations want them to know, not what they should know! And it is this tainted knowledge which is creating a society of pathetic drones, who like poor doomed sheep, are too busy just trying to survive to see that the wool is being pulled over their eyes while being led to slaughter! Because these corporate imperatives are being paid for at the expense of the future of mankind! Before you patronize any product, be conscious about what its doing to your health, to the earth, and how it will affect future

generations. Skeptics have warned the author that this book will receive nominal success, that it represents a small niche market, and not everyone would be interested in such literature. And in retort to this assertion, it should be acknowledged that yes, it is sadly true that not everyone would be interested in this book because the information herein may not pertain directly to their life or general well being. So in understanding, who would be interested in this book, lets narrow it down by eliminating the types of individual who would not directly benefit: x 1. People who are immortal: Yes, these people might not care about this book: heck, if you were immortal, you might eat Twinkies and cheese-burgers all day long. 2. People who have another planet to live on: This is true: why would they care if the world goes to hell in a hand basket? See Ya! Well, lucky them: however, for the other seven billion people who inhabit the planet earth who are not immortal, and who dont have another planet to live on then this book is absolutely the most important book they may ever read! Burning the May Tree: The Sacrifice of Jim Morrison Chris M. Balz,2019-04-01 Unlocks the history and significance of the rock band The Doors in terms of Jim Morrison's published poetry. The book gives us a window into an epic struggle for cultural change, and how it was suppressed. A great way to get started with Jim's poetry and Doors history. Every time I pick up the new edition of Burning The May Tree, I discover a thought or idea about Jim's poetry that strikes me as unique and insightful. Yours is the only book to shine a focused, intelligent and critical light on Morrison's writing. - Frank Lisciandro, co-editor of Wilderness and The American Night, books of Jim Morrison's posthumously published poetry.

Money Meltdown & Climate Change Bob Robertson,2010 Albert Einstein said: There are problems in today's world that cannot be solved by the level of thinking that created them. His words ring true as we face many worrying problems that our politicians and world leaders, predictably using the wrong level of thinking, are failing to solve. This book is the product of a refreshingly different level of thinking - outside of the box. It identifies and analyses the problems; reveals their origins; exposes the conspiracy of greed and power behind them and shows how they can be removed from our lives. It explains the flaws in the world's unsecured monetary system, warning of the dangers we face if we remain completely and utterly dependent upon it. It proposes a unique equitably shared monetary system, which will also enable us to combat the predicted consequences of global warming and climate change. It also proposes a bold and unifying social contract for the human race, using a modern interpretation of the words of Moses in Genesis 1: 28 as the foundation for its terms and conditions. The consequential lifestyle benefits for future generations will greatly exceed those of their ancestors. We dare not and must not fail them.

Buy Gold and Silver Safely Doug Eberhardt,2010-09-02 We Americans are never taught anything about gold and silver through our education system. That's why many gold dealers are able to easily rip off unsuspecting buyers of gold and silver. Financial advisors and journalists aren't giving you the truth either, as to how gold and silver fit into a properly

diversified portfolio. So naturally, people are looking for answers. Buy Gold and Silver Safely provides those answers by explaining why gold and silver need to be a part of everyone's portfolio, and helping people learn about buying or selling gold and silver... the safe way.
