Posttraumatic Culture in Spanish and Latin American Theater Henry James Morello,2025-01-18 In the twentieth century, Argentina, Chile, and Spain suffered dictatorships marked by disappearances, torture, and murder, which left wounds that, in some cases, have yet to heal. Moving these public wounds into the realm of performance, many playwrights sought to address these national traumas by creating what I call “posttraumatic theater.” This book argues that these plays attempt to represent national crises by taking on stylistic features that mimic the symptoms of posttraumatic stress disorder. Drawing on trauma studies, clinical psychology, and neuroscience, *Masking the Past* examines the commonalities in posttraumatic theater to create a coherent theoretical foundation by which we can explore other cultural products that arise in response to traumatic events.

The New Grove Dictionary of Music and Musicians: Borowski to Canobbio Stanley Sadie,John Tyrrell,2001 This reference classic has approximately doubled in size since its last publication 20 years ago, and the expansion involves more than the thorough revision and addition of articles about music of the past. More articles about 20th-century composers and

composer-performers have been added, as well as topical articles about the gender-related, multicultural, and interdisciplinary ways that music is now being studied. Add to these changes that New Grove is also available online, making it a source that would have made its many-faceted creator Sir George Grove proud--Outstanding reference sources, American Libraries, May 2002.
