**Force for Good** Craig Wilkinson, 2025-11-01 Force for Good is a bold and refreshingly balanced exploration of positive masculinity, written to inspire men to become powerful forces for good in a world that desperately needs them to step into this role. The book challenges the extremes that often define the discourse around masculinity – aggressive dominance on one side and passive disengagement on the other. It offers a vision of true and healthy masculinity that is both strong and gentle, fierce and safe, confident and humble. At its core is the conviction that men are made to be powerful forces, but only in service of what is good. Power, often misunderstood or negatively viewed, is essential. Without it, a man cannot fulfil his potential or meet the needs of those who depend on him. Power itself is neutral; how it is used determines whether it becomes a force for good or harm. The book is divided into three parts – Being Man, Becoming a Force, and Doing Good – and builds a compelling case for the value of healthy masculinity. It explores the internal and external battles men face, the journey from boyhood to manhood, and the sacred responsibility to grow in strength and purpose. Force for Good calls men to action, not against others but for the good of others. It is a timely, courageous invitation to be all that a man was made to be, because such a man will be a Force for Good.

**The Age of Capitalism, Consumer Culture, and the Collapse of Nature in the Anthropocene** Jack

Thornburg, 2024-10-02 The Age of Capitalism, Consumer Culture, and the Collapse of Nature in the Anthropocene argues that the stability of post-industrial, postmodern society is threatened by the convergence of three distinct, yet interrelated, crises: environmental degradation, capitalist economic development, and the primacy of consumption and self-absorption as the basis for economic development at the expense of community and social relationships. Jack Thornburg contrasts advanced modern society with indigenous cultures in terms of nature and conceptions of the communal self. The complex nature of capitalist-oriented society has influenced how individuals conceptualize themselves. The outcome, the author contends, is a competitive society in which individuals are alienated living in uncertain times. One consequence of these crises (all of which derive from the Enlightenment and the concomitant appearance and evolution of capitalism) has been the destruction of a worldview balancing and connecting well-being with prosperity of the natural world. Money and materialism cannot buy happiness as capitalist narrative asserts. Thornburg claims that the happiness sought by individuals seeking meaning through consumption can only be realized by reintegrating nature with the human spirit.

*Lying in State* Eric Alterman,2020-08-11 This definitive history of presidential lying reveals how our standards for truthfulness have eroded -- and why Trump's lies are especially dangerous. If there's one thing we know about Donald Trump, it's that he lies. But he's by no means the first president to do so. In *Lying in State*, Eric Alterman asks how we ended up with such a pathologically dishonest commander in chief, showing that, from early on, the United States has persistently expanded its power and hegemony on the basis of presidential lies. He also reveals the cumulative effect of this deception-each lie a president tells makes it more acceptable for subsequent presidents to lie-and the media's complicity in spreading misinformation. Donald Trump, then, represents not an aberration but the culmination of an age-old trend. Full of vivid historical examples and trenchant analysis, *Lying in State* is essential reading for anyone seeking to understand how we arrived in this age of alternative facts.
