Dr. Joe Dispenza

You Are the Placebo Dr. Joe Dispenza, 2015-09-08 Is it possible to heal by thought alone—without drugs or surgery? The truth is that it happens more often than you might expect. In *You Are the Placebo*, best-selling author, international speaker, chiropractor, and renowned researcher of epigenetics, quantum physics, & neuroscience, Dr. Joe Dispenza shares numerous documented cases of those who reversed cancer, heart disease, depression, crippling arthritis, and even the tremors of Parkinson's disease by believing in a placebo. Similarly, Dr. Joe tells of how others have gotten sick and even died the victims of a hex or voodoo curse—or after being misdiagnosed with a fatal illness. Belief can be so strong that pharmaceutical companies use double- and triple-blind randomized studies to try to exclude the power of the mind over the body when evaluating new drugs. "In his paradigm-altering book, *You Are the Placebo*, Dr. Joe Dispenza catapults us beyond thinking of the placebo effect as an anomaly. Through 12 concise chapters that read like a true-life scientific thriller, Dispenza gives us rock-solid reasons to accept the game-changer of our lives: that the placebo effect is actually us, proving to ourselves the greatest possibilities of healing, miracles, and longevity! I love this book and look forward to a world where the secret of the placebo is the foundation of everyday life." — Gregg Braden, New York Times best-selling author of *Deep Truth* and *The Divine Matrix* Chapters Include: Foreward by Dawson Church, Ph.D. Part I. Is It Possible? A Brief History of the Placebo The Placebo Effect in the Brain The Placebo Effect in the Body How Thoughts Change the Brain and the Body Suggestibility Attitudes, Beliefs, and Perceptions The Quantum Mind Three Stories of Personal Transformation Information to Transformation: Proof That You Are the Placebo Part II: Transformation Meditation Preparation Changing Beliefs and Perceptions Meditation Becoming Supernatural Dr. Joe does more than simply explore the history and the physiology of the placebo effect. He asks the question: Is it possible to teach the principles of the placebo, and without relying on any external substance, produce the same internal changes in a person's health and ultimately in his or her life? Then he shares scientific evidence (including color brain scans) of amazing healings from his workshops, in which participants learn his consciousness shifting model of personal transformation, based on practical applications of the so-called placebo effect. The book ends with a how-to calming meditation for changing limiting beliefs and mental perceptions that hold us back—the first step in healing. *You Are the Placebo* combines the latest research in neuroscience, biology, psychology, hypnosis, behavioral conditioning, and quantum physics to demystify the workings of the placebo effect . . . and show how the seemingly impossible can become

possible. “I discovered that if I could teach people the scientific model of transformation (bringing in a little quantum physics to help them understand the science of possibility); combine it with the latest information in neuroscience, neuroendocrinology, epigenetics, and psychoneuroimmunology; give them the right kind of instruction; and provide the opportunity to apply that information, then they would experience a transformation... This book is about: empowering you to realize that you have all the biological and neurological machinery to do exactly that. My goal is to demystify these concepts with the new science of the way things really are so that it is within the reach of more people to change their internal states in order to create positive changes in their health and in their external world.” — Dr. Joe Dispenza

No More Tears Gardiner Harris, 2025-04-08 NEW YORK TIMES BESTSELLER • An explosive, deeply reported exposé of Johnson & Johnson, one of America's oldest and most trusted pharmaceutical companies—from an award-winning investigative journalist “A page-turning drama that raises life-or-death questions about the world's largest healthcare conglomerate.”—Jonathan Eig, Pulitzer Prize-winning author of *King: A Life* One day in 2004, Gardiner Harris, a pharmaceutical reporter for The New York Times, was early for a flight and sat down at an airport bar. He struck up a conversation with the woman on the barstool next to him, who happened to be a drug sales rep for Johnson & Johnson. Her horrific story about unethical sales practices and the devastating impact they'd had on her family fundamentally changed the nature of how Harris would cover the company—and the entire pharmaceutical industry—for the Times. His subsequent investigations and ongoing research since that very first conversation led to this book—a blistering exposé of a trusted American institution and the largest healthcare conglomerate in the world. Harris takes us light-years away from the company's image as the child-friendly “baby company” as he uncovers reams of evidence showing decades of deceitful and dangerous corporate practices that have threatened the lives of millions. He covers multiple disasters: lies and cover-ups regarding the link of Johnson's Baby Powder to cancer, the surprising dangers of Tylenol, a criminal campaign to sell antipsychotics that have cost countless lives, a popular drug used to support cancer patients that actually increases the risk that cancer tumors will grow, and deceptive marketing that accelerated opioid addictions through their product Duragesic (fentanyl) that rival even those of the Sacklers and Purdue Pharma. Filled with shocking and infuriating but utterly necessary revelations, *No More Tears* is a landmark work of investigative journalism that lays bare the deeply rooted corruption behind the image of babies bathing with a smile.
