Engaging with Social Work Christine Morley, Phillip Ablett, Selma Macfarlane, 2019-01-17 Equips students with a critical perspective and develops their understanding of social work practice.

Critical Multicultural Practice in Social Work Charlotte Williams, 2020-07-16 Critical multicultural practice, rather than being a specialism, is integral to Australian social work. Drawing on critical race theory, critical multiculturalism, intersectionality and critical reflection as practice theory, this major new edited collection challenges many of the dominant assumptions of cross-cultural social work and provides instead a new model of transformative engagement. Key concepts are considered, including identity, culture, diversity and superdiversity, how power and privilege shape everyday interactions and what is meant by citizenship in the contemporary context. Part One explores the changing nature of multicultural practice in Australia, including our society's changing demographic profile, the impact of asylum and refugee migrations, race and racism and cultural identity. Indigenous perspectives and the relationship with multicultural practice are examined, together with the ethical and legal basis for multicultural practice. This part concludes with an outline of the editors' framework for critical multicultural practice. Part Two draws on contributions from a range of practitioners and offers new perspectives on diverse fields, including child protection, mental health, disability, ageing, homelessness and rural and regional practice. Featuring case studies and insights drawn from across the spectrum of practice, this book is a vital resource for all social workers practising in Australia today. '[A] rich and nuanced analysis of what is happening at the interfaces of our work and the lives of Australian citizens, [it] articulates ways forward that are genuine, bold and empathetic.' From the foreword by Professor Kerry Arabena, The University of Melbourne

Code of Ethics & By-laws on Ethics Australian Association of Social Workers, 1994

Social Work and the Law Chris Maylea, 2019-12-04 This exciting new textbook introduces students to the key aspects of the law and legal frameworks essential for social work practice in Australia. Simple and easy to read, it communicates the complex legal concepts in practice in ways students can easily understand. With a focus on human rights and ethical conduct, it's both concept based, examining the ways of thinking and understanding law and social work interactions, and topic based, exploring the different specific areas of law which social workers are most likely to come into contact with. This is essential reading for any student taking a unit in Social Work Law. Specific to Australia, it accounts for Australian jurisdictions, and can be easily integrated into the classroom context, with case studies, questions for discussion and links to further resources, including interactive resources and a website to support further learning and provide updates to changes in the law between editions.

Social Work Education Annaline Caroline Sandra Keet, Carolyn Noble, 2025-01-02 This book addresses the critical question of whether social work as an universal discipline is able to respond to new social challenges that arise from a changing world that pose new sets of challenges for people in precarious situations and create calamitous psychological burden for populations. These require critical skills that need to be developed through social work education in an environment where local and global social work ethics are fused and interrogated in our classroom spaces. There is a need to address the disjuncture between curriculum content, language of text used for instruction and local realities. As a universal discipline, social work education must play a transformative role and create an enabling environment that produces graduates that are able to respond to life experiences in a global social order while also being purposeful about centering local knowledges. Transforming social work education for a new era does not rely on singular issues but demands engagement around a multitude of issues that, if addressed, enhances the responsiveness of the discipline in different contexts. The authors, who work and teach across various settings, countries, contexts and cultures, address the role that social work ought to play during and after global events like the COVID-19 pandemic, climate change, and war and conflict. It speaks to a social work that acknowledges our interconnectedness with nature, offering an educational framework that centers the politics of sustainable development. Social work students come from communities where they, themselves, have different levels of access to educational spaces. The book also looks at new ways of delivering education content, making social work training accessible to a broader population. Among the topics covered: Learning Social Accountability Through Social Work Field Education Online Teaching, eCourses and Innovative Programmes in Social Work Distance Education Teaching Reproductive Justice in Social Work Education Social Work Peace Studies Social Work Values and Education Social Work Education: Breaking New Grounds and Addressing New Challenges addresses a range of issues that social work education needs to craft in the future and is designed to support students and professionals for practice, in placement, and teaching and curricula practices.
