Origins Derrick McCaron,2015-12-10 The creation story has been hijacked. The subtle deceptions of the Serpent have caused skeptics and even believers to look upon the opening chapters of Genesis with a cynical eye. As a result many believe that Earth is a cosmic accident and that humanity is merely a product of time, matter and chance. However, Derrick McCaron counters the critics of the Bible with powerful new evidence from the world of astronomy, microbiology and physics which all point to the undeniable fact that we are here by Divine design. In Origins you will be challenged with fascinating information that confirms Genesis 1:1 and following. Content Includes: Deep space discoveries which reveal the first moments of creation Wonders of the universe which point to a super-intelligent Creator The reason why evil and

suffering entered the world DNA the language of God The amazing ingenuity of Noah's Ark

School of the Supernatural Ryan Wyatt, 2011-04-19 Your spiritual glass is half empty if your Christian life consists only of good theology, good works, and just attending church without a truly supernatural lifestyle. Many believers, even those who are Spirit-filled, cannot claim to possess a fully supernatural life. Happy with an occasional taste of Heaven, they assume that such a goal is out of reach. In this well written and easy to understand manual, author Ryan Wyatt explains the interplay of the physical and spiritual worlds in a fresh way that shows you—beyond doubt—that a supernatural lifestyle is available to you as well.

III Minutes to XII Ed DesAutel, 2018-02-27 This book was not written to convince anyone to change their views or to take sides in any issue that may arise from any point of view stated by the Author, Ed DesAutel. Any relation to personal belief in science or religion is the author's own observations based on research and analysis of the bible and various books and science publications. Anyone may research the same information and come to their own conclusions as to what may be the true history of the Caucasian race in relation to the biblical story. Past and current scientific research have excavated old cities in various locations around the world that is uncovering western man's historical past that is directly and indirectly involved with the bible. This book, III Minutes to XII, will attempt to tell the untold story of our ancient and modern day ancestors, the Caucasian race, that existed before the great flood of the bible and after. This book will attempt to explain where modern Caucasian man had his beginning and where his technology came from, and where his destructive nature was born. I will try to explain some of the questions that modern man asks about the bible, his science, mythology, and what does science ($E=mc^2$) have to do with creation? Who are the sons of God that called themselves watchers in the book of Enoch? Who were the giants of the bible? Where did they go? What is the meaning of 666, the number of a man in Revelation 13:18? Many books have been written about what is going to happen to man because of his destructive nature? Should we be worried? Read this book with an open mind, and draw your own conclusions.
