

Black Eagle Trust Fund

Yan Bai

The Nazi Hydra in America Glen Yeadon, 2008 This book exposes how US plutocrats launched Hitler, then recouped Nazi assets to lay the post-war foundations of a modern police state. Fascists won WWII because they ran both sides. Lays bare the tenacious roots of US fascism from robber baron days to Reichstag fire to the WTC atrocity and Homeland Security, with a blow-by-blow account of the fascist take-over of America's media.

Gold Warriors Peggy Seagrave, Sterling Seagrave, 2020-05-05 In 1945, US intelligence officers in Manila discovered that the Japanese had hidden large quantities of gold bullion and other looted treasure in the Philippines. President Truman decided to recover the gold but to keep its riches secret. These, combined with Japanese treasure recovered during the US occupation, and with recovered Nazi loot, would create a worldwide American political action fund to fight communism. This 'Black Gold' gave Washington virtually limitless, unaccountable funds, providing an asset base to reinforce the treasuries of America's allies, to bribe political and military leaders, and to manipulate elections in foreign countries for more than fifty years.

The Great Gold Swindle: Yamashita's Gold Phoenix Powers,

Interlock Patricia Goldstone, 2015-10-01 In the fateful month of March 2000, shortly after opening a hugely successful show in New York that unveiled the more nefarious financial connections of Presidential candidate George W. Bush, the hugely ambitious Conceptual artist Mark Lombardi was found hanged in his studio, an apparent suicide. With museums lining up to buy his work, and the fame he had sought relentlessly at last within his reach, speculation about whether his death was suicide or murder has titillated the art world ever since. Lombardi was an enigma who was at once a compulsive truth-teller and a cunning player of the art game, a political operative and a stubborn independent, a serious artist and a Merry Prankster, a metaphysicist if not a scientist. Lombardi's spidery, elusive diagrams describing the evolution of the shadow-banking industry from a decades-old alliances between intelligence agencies, banking, government and organized crime, may have made him unique in art history as the only artist whose primary subject, the CIA, has turned around and studied him and his art work. Exhaustively researched, this is the first comprehensive biography of this immensely contradictory and brilliantly original artist whose pervasive influence in not only the art world, but also in the world of computer science and cyber-security is only now coming to light.
