Igniting The Phoenix Alethea Stauron, 2023-11-15 In a war that captured his brothers, Lucius discovers weapons can manifest in various forms—a woman. During a secret intervention to save Lucius from himself, he is placed on a mission. His assignment is to hide within the general's daughter's home with interdimensional camouflage without her knowledge, to keep her innocence of the war around her. As he does, the intervention is initiated and he develops a crush for the general's daughter. Without her knowledge, Josephine is aware that an interdimensional warrior is failing his mission as she begins calling the shots with his emotions. Although the intervention is working to wake Lucius, the ignorance that once protected Josephine wanes in the balance of dimensional laws the more she perceives of him. When the opened doorway is exposed to the others, mind games of Lucius's enemies reach an entirely new level and forces him to make a decision about his secrecy. The shadows have finally found a key to their freedom, and they will break him.

Double or Nothing Kim Sherwood, 2023-04-11 "I spy ... a brilliant thriller! Double or Nothing is a clever and utterly compelling addition to the Bond canon." —Jeffery Deaver, author of *Carte Blanche*, a James Bond novel The start of a brand-new trilogy following MI6's Double O agents with a license to kill, that blows the world of James Bond wide open! James Bond is missing... 007 has been captured—and perhaps killed—by a sinister private military company. His status unknown. MI6 will do everything in their power to recover their most lethal agent. But in the meantime, the rest of the Double O division has a job to do. Meet the new generation of spies... Johanna Harwood, 003. Joseph Dryden, 004. Sid Bashir, 009. They represent the very best and brightest of MI6. Supremely skilled, ruthless, with a license to kill, they will do anything to protect their country. The fate of the world rests in their hands... Tech billionaire Sir Bertram Paradise claims he has developed new cutting-edge technology capable of reversing climate change and saving the planet. But can his ambitious promises be trusted, and are his motives as noble as they appear? The new spies must uncover the truth because the stakes could not be higher; for humanity... and for James Bond himself. Time is running out.
