The Sense of Injustice Robert G. Folger,2012-12-06 The importance of justice cannot be overstated. As one author has put it, A better understanding of how justice concerns develop and function in people's lives should enable us to plan more effectively for institutional and other social change to deal with the problems that confront humankind (S. C. Lerner, 1981, p. 466). The volume in which that statement appeared-an earlier one in this same series-was devoted to exploring the impact that dwindling resources and an increasing rate of change have had upon people's concern for justice. In contrast, the present volume places greater emphasis on the word under standing, as it was used in the context of the preceding quotation, than upon effective planning, social change, and ways of dealing with human problems. Nothing in that statement of purpose is meant to belittle the urgency of translating understanding into action, because the social significance of justice concerns is a major factor that has prompted the authors of the chapters in this book to do research in the area. Rather, this volume receives its emphasis from Kurt Lewin's famous dictum there is nothing so practical as a good theory. The need for good theory is ongoing, and these pages are dedicated to a search for new pathways toward better theory.

Conflict Management and Mediation Martin C. Euwema,Ellen Giebels,2024-05-02 This textbook explores the complex nature of conflict and provides concrete tools for how it can be managed. Specially designed for practical use, it integrates theories and models of conflict with cutting-edge practical research and outlines the diverse skills and strategies necessary for competent conflict management.

Essentials of Cross-Cultural Counseling Lawrence H. Gerstein,P. Paul Heppner,Stefania Aegisdottir,Seung-Ming A. Leung,2011-07-27 Essentials of International Cross-Cultural Counseling will be a brief, supplemental book (a derivative of the International Handbook of Cross-Cultural Counseling). The focus of this supplement is the first section of the handbook, which touches on issues, challenges, and opportunities for the counseling profession worldwide. It will be comprised of nine articles that discuss topics such as cross-cultural counseling, the counseling profession in- and outside of the United States, the theoretical and methodological issues when studying culture, and the future of cross-cultural counseling. Each article will include discussion questions and related web links to further student comprehension of the material.
