The Alchemy of Teaching David Sandles,2024-06-06 With an alchemical verve, educators have been shaping the very direction of students' lives since time immemorial. With millions of teachers currently serving in the K-12 sector and millions more serving in higher education spaces, the need for quality educator development is essential. For K-12 educators, while there are teacher preparation programs to help shape their teacher identities, the challenge of neatly integrating all the rich content provided into a set of actions is considerable. For college educators writ large, there is no conspicuous preparation for teaching, leaving many to flounder early in their careers. In addition, homeschooled students, whose population has nearly doubled in recent years, also need and deserve access to professional training. While chiefly focused on K-12 educators, *The Alchemy of Teaching* supplies support for educators in all sectors and covers an array of topics germane to educators everywhere. Accordingly, this work draws on the early notions of alchemy, which is the art of transforming

mundane metals into gold, to develop a template for educators to succeed while infusing essential, hard-earned wisdom along the way. Using the metals of alchemy as metaphors, the effective elements of teaching are parsed out in commonsensical and pragmatic ways, designed to give all those who educate students a template for strengthening their practice and the learning outcomes of their students. Written by highly experienced educators, this book is made up of three sections, with each detailing some of the prominent struggles educators regularly have in particular areas. Each author also elucidates the gold practices and provides techniques for avoiding some of the early pitfalls often experienced by educators. Each chapter of this book is dedicated to the practice of changing or transforming educator practices. It is a valuable tool for educators across the teaching spectrum to bring greater hope and success to their classrooms. Perfect for courses such as: Teacher Education; Classroom Management; Teacher Education; Education Psychology; Teacher Education; Social Justice; Foundational Courses in Teacher Education; Courses in Differentiation Methods Courses in Mathematics

*Creating an Authentic Platform and Transcending the Lower Matrix* Margaret Doner, 2016-07-08 What does it mean to build an authentic platform and transcend the lower matrix? Those of you who have already started the journey toward self-awareness might answer quickly, feeling confident that you know the answer. Others of you might hesitate. Enlightenment is a journey; not a destination. Growth happens. Beliefs come and go, to be replaced by newer ideas and concepts. Being rigid is easy, but being fluid, open, flexible, awake and aware requires tremendous emotional, spiritual, and mental strength and courage. The true Seeker welcomes the challenge of new ideas and knows that the experience is the gift. This book is designed to challenge and expand your ideas about yourself and your world. I call it a manual for the graduating class because when the soul reaches the mature or old soul age, it realizes that it is time to prepare for the journey back Home. The reintegration of our many selves, strewn by reincarnation through time/space, is an important step in the re-empowering of the present-day self. Through the process of conscious soul retrieval, we create a new authentic platform, and learn to trust the self.
