Post-Colonial Realism Hanna Samir Kassab, 2025-08-22 In Post-Colonial Realism, Hanna Samir Kassab develops a theoretical framework to explain, understand, and predict international conflict, placing culture at the center of international political analysis. Kassab contends that nationalism, a belief system, forms an intervening variable that shapes the foreign policy behavior of states. Studying food is central to understanding nationalist belief systems that shape international politics. By combining theories of nationalism with post-colonialist understandings of cultural revitalization, Kassab conceptualizes state motivation to understand how cultural symbols shape nationalist identities, to see the fault lines of civilization through food, and to appreciate the centrality of identity issues. Using ethnography to understand food ownership as part of nationalist conflict, Kassab examines neighboring states (Greece, North Macedonia, Turkey and Armenia) alongside India. In each country study chapter, he compares at least two nationalisms and views of cuisine ownership. He later maps out potential future flashpoints as the international system becomes increasingly competitive due to the changing structure of the international system: unipolarity to multipolarity. Post-Colonial Realism offers a more robust and flexible theory of international relations, concentrating not on abstractions but on individuals and their collective beliefs.

The Wolves at Evelyn Harold Rhenisch, 2011-02-01 At once a memoir, a work of philosophy, a story of European immigration to Canada's dark places of the earth, and an exploration of the roots and effects of colonialism, *The Wolves at Evelyn: Journeys Through a Dark Century* is a stylistic and rhetorical tour de force from one of Canada's master prose stylists. Dissident communists fleeing 1920s Germany, Harold Rhenisch's grandparents imagined that British Columbia's Interior was the end of the earth—a new world where they could fulfil their dreams of the land, freed from tyranny and from history itself. A generation later, in the wake of World War II, his father arrived, carrying many of the same ideas with him. What they found instead was a colonial culture as highly developed as Doris Lessing's Rhodesia. Rhenisch grew up at the nexus of these cultures: a Germany where Nazism simultaneously did and did not happen, a Canada in the process of shedding British colonialism for American, and a land—the Interior—that had no point of contact with any of them. With remarkable range and vision, Rhenisch turns in a bravura performance, sifting through the ashes of personal experience, family anecdotes, literature, art, history, and the land itself for clues to a great untold story. Rhenisch assembles a collage of images and ideas that becomes a whole much greater than the sum of its parts. The hidden history of a forgotten outpost of the Empire is laid open, shattering dearly held myths and exposing buried skeletons. How was the sunny, carefree Okanagan Valley fruit culture built on the back of King Leopold's Congolese slave trade? How does Margaret Atwood's garrison theory of literature reflect on Rhenisch family's hidden Nazi past? How did the Hudson's Bay Company Blanket act as both a cherished kitsch object for generations of Canadians and a tool of genocide? Alternating between light and darkness, great humour and sharp indignation, this is a disturbing, thought-provoking and important work from a masterful writer and cultural analyst.

How to Leave Erin Clune, 2018-10-09 An uproarious memoir and guide to leaving the big city So you escaped whatever humdrum little town you grew up in and moved to The Big City. Maybe it was New York. Maybe it was Seattle or Kansas City. Wherever it was, there was amazing stuff everywhere you turned: Ethiopian food! A movie theater that played documentaries! A hairstylist who knew what to do with frizz! You overlooked the crime rates (edgy!), the proximity of your kitchen to your bed (convenient!), and the fact that you had to take public transportation to see nature, then had to share it with millions of other cranky, naked mole-rat apartment dwellers (urban!). But then you got a job offer you couldn't refuse. Or you developed asthma. Or you got pregnant. Or you got pregnant for the second time and you couldn't use your closet as a

bedroom for two babies. And you decided you had to leave. When Frank Sinatra and Alicia Keys said that if you could make it in New York, you could make it anywhere, they probably weren't talking about the middle of nowhere or whatever suburb you used to make fun of. Because making it is really hard to do without world-class museums and gourmet food trucks. Erin Clune regales readers with priceless stories of her own experiences leaving New York for her hometown in Wisconsin, and provides a jocular but useful guide--for anyone leaving, or thinking about leaving, their own personal mecca--to finding contentment while staying true to yourself in a place far, far away from The City.

Southern Seen Larry T. McGehee,2005 While working at the University of Tennessee in the early 1980s, Larry T.McGehee was looking for a way to share the wealth of history, politics, art, and culture with the residents of the South's small towns. He hit upon the idea of a newspaper column that would run in the region's weekly papers. Through his stories, McGehee encouraged people to look at the people, places, and things around them with a fresh set of eyes. *Southern Seen* collects McGehee's numerous columns exploring the South's history, inhabitants, mannerisms, food, and foibles. The book is divided into eight categories: outdoors, place, education, people, conflict, food, play, and religion. His subjects range from the outdoors and the creatures that inhabit it to the Civil War and its battle sites to unique southern symbols and the South's particular culinary delicacies. The author celebrates the traditions and work of the harvest season and extols the beauty of migrating hummingbirds and the rare delight of a southern snowstorm. McGehee meditates on the drastic changes machines and inventions, such as air conditioning, have brought to the region, and he looks for lessons in the mighty floods that occur in the contemporary South. The columns, by turns funny and poignant, biting and sweet, celebrate the past and look to the future. The wild turkey, once common in the backcountry brush, is now an example of a vanishing forest population, and local farmers' markets strive to sustain the livelihood of embattled small family farmers. McGehee applies the legacy of the Hatfield-McCoy feuds to the regional and international strife of modern times and examines the sacrifice and contributions of the South's young men who served in the wars of the last century. He revels in the pride of each part of the region for its own unique barbecue and delights in the memories of the small-town drugstore, which offered everything from health advice to a cream soda. Through the stories of famous figures, local residents, and the folk traditions that shape everyday life, McGehee celebrates the diversity of life in the South and offers irreplaceable insights into what continues to make the region unique.
