The Japan/America Film Wars Abé Mark Nornes, Fukushima Yukio, 2021-11-21 With contributions from noted critics and film historians from both countries, this book, first published in 1994, examines some of the most innovative and disturbing propaganda ever created. It analyses the conflicting images of these films and their effectiveness in defining public perception of the enemy. It also offers pointed commentary on the power of visual imagery to enhance racial tensions and enforce both positive and negative stereotypes of the Other.

World War II in Asia and the Pacific and the War's Aftermath, with General Themes Loyd Lee, 1998-10-23 A companion to World War II in Europe, Africa, and the Americas, this volume reevaluates the most enduring literature on basic aspects of the war in Asia and the Pacific. It also covers themes pertaining to societies at war, culture, the arts, and science and technology as well as international relations and the postwar world. Included are not only grand strategy, military and naval campaigns, and matters of diplomacy, but also resistance, collaboration, prisoners of war, and broad topics of the home front, including chapters on gender issues, film, literature, popular culture, and propaganda. This volume and its companion provide the first comprehensive historiographic reference work on the war. Each chapter describes the state of knowledge on the topic, relating each bibliographic reference to the chapter's themes and issues, and concludes with a bibliography. Recent original scholarship is included when it aids new understanding, and older works of enduring value also find a place. The essays in this volume will interest scholars and college teachers as well as advanced students and serious amateurs seeking insight into the history of the war and its literature.

The Thought War Barak Kushner, 2005-10-31 A major contribution both to the study of Japan and propaganda in the twentieth century. Barak Kushner meticulously and convincingly reveals the full scope of what was assumed to not have existed; namely an organized, multifaceted, and disturbingly resilient system of Japanese propaganda. Based on an impressive array of primary sources, many only recently uncovered, *The Thought War* provides a fascinating assessment of the complex and often contradictory processes of Japanese propaganda in an imperial context. —Michael Baskett, professor of film studies, University of Kansas Barak Kushner has written a first-rate study of propaganda in Japan during the Second World War. In a work of painstaking research, he takes his readers into the heart of wartime Japan, building a compelling argument that Japanese propaganda was sophisticated and effective in rallying the population and, after the war, seamlessly

redirecting it to aid the transformation of Imperial Japan into the post-war democracy of today. The Thought War is a superbly competent piece of research that floods light into a place where only generalization, supposition, and stereotype had existed before. —Nicholas J. Cull, University of Southern California, editor, *Propaganda and Mass Persuasion: A Historical Encyclopedia, 1500–present* The Thought War is a unique and remarkable study. Barak Kushner reveals that Japanese propaganda during World War II was astonishingly sophisticated, diverse, and effective. What's more, the methods, messages, and makers of wartime propaganda proved just as successful at shaping public opinion in the wake of Japan's defeat as they earlier had been in mobilizing the nation for war. Kushner's insights on Japan's path from empire, through war, and into postwar reconstruction are provocative, compelling, and thoroughly convincing. —William M. Tsutsui, chair of the Department of Asian Studies, University of Kansas The Thought War is the first book in English to examine the full extent of Japan's wartime propaganda. Based on a wide range of archival material and sources in Japanese, Chinese, and English, it explores the propaganda programs of the Japanese government from 1931 to 1945, demonstrating the true scope of imperial propaganda and its pervasive influence, an influence that is still felt today. Contrary to popular postwar rhetoric, it was not emperor worship or military authoritarianism that led an entire nation to war. Rather, it was the creation of a powerful image of Japan as the leader of modern Asia and the belief that the Japanese could and would guide Asia to a new, glorious period of reform that appealed to imperial subjects. Kushner analyzes the role of the police and military in defining socially acceptable belief and behavior by using their influence to root out malcontents. His research is the first of its kind to treat propaganda as a profession in wartime Japan. He shows that the leadership was not confined to the crude tools of sloganeering and government-sponsored demonstrations but was able instead to appropriate the expertise of the nation's advertising firms to sell the image of Japan as Asia's leader and modernizer. In his exploration of the propaganda war in popular culture and the entertainment industry, Kushner discloses how entertainers sought to bolster their careers by adopting as their own pro-war messages that then filtered down into society and took hold. Japanese propaganda frequently conflicted with Chinese and American visions of empire, and Kushner reveals the reactions of these two nations to Japan's efforts and the meaning of their responses.

The Oxford Illustrated History of World War II R. J. Overy, 2015 World War Two re-assessed for a new generation, from the 1930s through to the beginnings of the Cold War. A stimulating and thought-provoking new interpretation of one of the most terrible episodes in world history.

Racial Stigma on the Hollywood Screen from World War II to the Present Brian Locke, 2009-11-23 Racial Stigma on the Hollywood Screen from WWII to the Present charts how the dominant white and black binary of American racial discourse influences Hollywood's representation of the Asian. The Orientalist buddy film draws a scenario in which two buddies, one white and one black, transcend an initial hatred for one another by joining forces against a foreign Asian

menace. Alongside an analysis of multiple genres of film, Brian Locke argues that this triangulated rendering of race ameliorates the longstanding historical contradiction between U.S. democratic ideals and white America's persistent domination over blacks.

Japanese Documentary Film Markus Nornes, 2003 Among Asian countries--where until recently documentary filmmaking was largely the domain of central governments--Japan was exceptional for the vigor of its nonfiction film industry. And yet, for all its aesthetic, historical, and political interest, the Japanese documentary remains little known and largely unstudied outside of Japan. This is the first English-language study of the subject, an enlightening close look at the first fifty years of documentary film theory and practice in Japan. Beginning with films made by foreigners in the nineteenth century and concluding with the first two films made after Japan's surrender in 1945, Abe Mark Nornes moves from a prehistory of the documentary, through innovations of the proletarian film movement, to the hardening of style and conventions that started with the Manchurian Incident films and continued through the Pacific War. Nornes draws on a wide variety of archival sources--including Japanese studio records, secret police reports, government memos, letters, military tribunal testimonies, and more--to chart shifts in documentary style against developments in the history of modern Japan.
