

King David Hotel Jerusalem Bombing

Christian G. Meyer

By Blood and Fire Thurston Clarke, 2016-01-12 On July 22, 1946 six members of the Irgun, a Jewish underground group headed by future Israeli Prime Minister Menachem Begin, entered the basement of Jerusalem's King David Hotel and planted seven milk churns filled with explosives underneath the wing housing the headquarters of the British Mandatory Government of Palestine. The ensuing explosion killed ninety-one Britons, Arabs, and Jews, in roughly equal numbers, at the time the greatest death toll in any single act of terrorism. The bombing was a pivotal moment in Israeli and Palestinian history, and was one of several dramatic attacks that eventually persuaded the British to leave Palestine. Clarke's minute-by-minute account of the attack is thrilling, and his narrative brings the perpetrators and victims vividly to life.

By Blood and Fire Thurston Clarke, 1981

Jerusalem in the Second World War Daphna Sharfman, 2023-12-28 This book is the first to present the unique story of the city of Jerusalem during the events of the Second World War and how it played a unique role in both the military and civilian aspects of the war. Whilst Jerusalem is usually known for topics such as religion, archaeology, or the politics of the Israeli-Arab conflict, this volume provides an in-depth analysis of this exceptional and temporary situation in Jerusalem, offering a perspective that is different from the usual political-strategic-military analysis. Although battles were raging in the nearby countries of Syria and Lebanon, and the war in Egypt and the Western Desert, the people who came to Jerusalem, as well as those who lived there, had different agendas and perspectives. Some were spies and intelligence officers, other were exiles or refugee immigrants from Europe who managed at the last moment to escape Nazi persecution. Journalists and writers described life in the city at this time. All were probably conscious of the fact that when the war came to an end, local rivalry and mounting conflict would take the centre stage again. This was a time of a special, magical drawn-out moment that may shed light on an alternative, more peaceful, kind of Jerusalem that unfortunately was not to be. This volume seeks to find an alternative approach and to contribute to the development of insightful research into life in an extraordinary city in an extraordinary situation. It will be of value to those interested in military history and the history of the Middle East.

Suicide Bombings in Israel and Palestinian Terrorism Michael V. Uschan, 2005-12-15 Discusses the rise of suicide bombers in the Middle East, the reasons behind many suicide bombings, and the history of the conflict between Palestinians and Israelis.

Global Crises, Global Solutions Bjørn Lomborg, 2009-07-09 In this book leading economists evaluate how the world can best spend money to combat the world's biggest problems.

Encyclopedia of Terrorism, Revised Edition Cindy C. Combs, Martin W. Slann, 2007 Presents a reference guide to terrorism throughout the world, including history, terrorist groups, and notorious acts of terrorism.

American Invasions Rocky M Mirza Ph D, 2010-08 American Invasions: Canada to Afghanistan, 1775 to 2010 is a thought-provoking analysis of the reasons for American invasions and warmongering over the last two centuries. Contrary to the views expressed by the Western media and Western historians the American Empire is not a force for the promotion of free thinking and democracy but instead a force for imperial conquests and imposed dictatorships through the use of a military-industrial complex, fed by the American Empire outspending the rest of the world combined, on weapons of mass destruction. The American Empire has used and will continue to use the most sophisticated weapons, from nuclear bombs to bunker-busting bombs to land mines to chemical and biological weapons, on defenseless men, women, and children to feed its insatiable appetite for warmongering and imperial expansion. It combines military bases around the world with military prisons used for torture and extraction of information. Its navy patrols every corner of the globe, and its planes can rain down bombs from the heavens on every civilian on the planet.

Encyclopedia of Terrorism, Third Edition Cindy Combs, Martin Slann, 2021-08-01 The ongoing conflicts in the Middle East and the bombings overseas have shown that—despite the War on Terror—terrorism is still very much a part of daily life for many individuals. *Encyclopedia of Terrorism, Third Edition* provides students, researchers, journalists, and policymakers with a complete survey of what seems to be an intractable problem. More than 330 entries organized in an easily accessible, A-to-Z format offer comprehensive treatments of the events, people, organizations, and places that have played a major role in international terrorism. Each entry is placed within its appropriate historical context to help readers understand the wide-ranging motivations behind terrorist actions. New and updated entries include: Islamic State mass shootings narco-terrorism Paris attacks Pulse nightclub terrorist attack right-wing terrorism San Bernardino attacks school site analysis siege of the U.S. Capitol Special Projects Team-Special Air Service (SAS) state-sponsored terrorism white supremacist groups

The SAGE Encyclopedia of Terrorism, Second Edition Gus Martin, 2011-06-15 Six years after publication of the first edition of the best-selling *Encyclopedia of Terrorism*, much has changed on the national security scene. Despite the dark promises of Osama bin Laden following the 9/11 attacks, the United States has not experienced any major domestic terror incidents. Al-Qaeda itself is believed to be a severely crippled organization. But while U.S. wars in Afghanistan and Iraq—not to mention the arrival of the Obama administration, a new balance of power within Congress, and an increasingly fragile economic picture—have significantly affected the national security picture, the threat of economic chaos and massive loss of life due to terror attacks has not abated. Indeed, in July 2008 analysts pointed out that even a relatively small terrorist

organization could present a dire threat, with some experts arguing that a biological, chemical, or even nuclear attack on a major U.S. city is all but inevitable. In this highly charged, rapidly shifting environment, we are pleased to present the The SAGE Encyclopedia of Terrorism, Second Edition, a thoroughly updated and expanded edition of the original, highly regarded reference work. Nearly 100,000 words of new material will be added, along with fully updated original entries, and expanded coverage. New introductory essays will explore the impact of terrorism on economics, public health, religion, and even pop culture. Ethical issues such as the role of torture in interrogations, competing notions of security versus liberty, and the debates over FISA legislation and Guantanamo Bay will also be covered. Two dozen entries on significant recent events—such as the London bombings, Chechen attacks on Russian interests, and the rescue of Ingrid Bettancourt—and some 60 additional new entries will restore the work as an up-to-the-minute, natural first-stop for researchers.

Let My People Go Jerry Grunor, 2005 As today's events unfold in the world we live in, we should learn and remember, and we shall overcome all of our enemies if not, forgive them. The people of Israel have made a commitment that no country shall ever succeed in enslaving them again. The lore of revolt and the spirit of freedom will sustain the people of Israel and their children, as they become their own enemies as well. This is the story of one country and its people, their life as a struggle; their death heroism; their sacrifice sacred; their memory eternal. Because Jewish history through the ages has a rich record of martyrs who willingly laid down their lives for the principles of right and justice. Many were those who made the ultimate sacrifice in the defense of the Jewish faith and of the Jewish homeland, including those in the second century BCE. Let My People Go is based on actual correspondence, some of which was presented by Prime Minister Menachem Begin about Dov Gruner. Dov is author Jerry Grunor's cousin, who fought with Mr. Begin in the early 1940s for the independence of Israel.

The English Girl Daniel Silva, 2013-07-16 Seven days. One girl. No second chances. Madeline Hart is a rising star in British government: beautiful, intelligent, driven to succeed by an impoverished childhood. But she also has a dark secret. She is the lover of the prime minister, Jonathan Lancaster. When she disappears on the island of Corsica, it's clear her kidnappers know about the affair and intend to make the PM pay dearly for his sins. Fearful of scandal that will destroy his career, Lancaster decides to handle the matter privately and not involve the police. Enter Gabriel Allon—assassin, art restorer and spy—who must find Madeline within seven days before she is executed. With the clock ticking, Allon is thrust into a deadly game of shadows in which nothing is what it seems—and where the only thing more dangerous than his enemies is the truth. Gabriel's mission takes him from the criminal underworld of Marseilles, to the stately corridors of power in London—and, finally, to a pulse-pounding climax in Moscow, a city of secrets and violence where there is a long list of men who want Gabriel dead . . .
