Nostradamus Jack Manuelian,1996 According to the author, who has spent many years translating the original works of the most famous seer of all time, humankind could soon find itself plunging headlong into a holocaust whose destruction could well be of planetary proportions. Manuelian believes that the present situation in the world -- Nationalism vis a vis Globalism; the resurgence of neo-Fascism and Imperialism; the rise of Islamic Fundamentalism; the prevalent economic woes all over the world; ethnic conflicts and regional wars -- are all reminders of a precarious world that is teetering and tottering dangerously and that the coming years until the turn of the century could be the most critical in the overall life of the planet.

**The Survival Imperative** William E. Burrows,2007-07-10 A daring new vision of our future in space from an internationally renowned science journalist.

2012: Extinction or Utopia J. Allan Danelek,2010-09-08 Is 2012 the end of the world as we know it? From 2012 to global warming to worldwide pandemics, doomsday scenarios play an increasingly large role in our lives. Do any of these apocalyptic scenarios pose a real, urgent risk? Why does our modern culture continue to embrace these bleak beliefs, and

how are they affecting our world? Separating hype from truth, J. Allan Danelek scrutinizes the ancient Mayan calendar's end date of 2012 and takes a hard look at whether it spells the end of the world—or a new beginning. Danelek also delves into other doomsday beliefs past and present, from biblical end-times prophecies to biological warfare, and discusses the predictions of world-famous prophets such as Nostradamus and Edgar Cayce. With piercing logic, Danelek objectively explores the apocalyptic threats that have captured our imagination . . . and reveals startling insights about what kind of future—dire or dazzling—awaits humanity.

Important Prophecies of the Future Martin K. Ettington, There are many Prophecies and Premonitions from the past which still might happen. This book looks at the most important from a variety of sources and attempts to analyze what will really happen and when. Being an Engineer and a Clairvoyant has led me to analyze my prophecy experiences and given me a better understanding of how they exist and work. My major experiences are reviewed in Chapter 2.0 along with my explanations of how prophecy really works. In the rest of this book we will explore many prophecies from the past which have yet to occur, as well as forecasts by current prophets and great thinkers about our future. Then we get into a few prophecies by those who had Near Death Experiences (NDEs) who are therefore closer to their spirit which increases prophetic validity. Next I make a few of my own prophecies about our future from looking ahead with my intuition to see “what feels right”. Lastly, is an analysis of the prophecies in this book and what we can learn from them.

The Nostradamus Code Michael Rathford, Truth Revealed Publishing, 2008 Knowing the power that his prophecies contained, and wary of this power falling into the wrong hands, Michel de Nostradamus scrambled both the meaning and the order of his quatrains. He made sure humanity would not be able to use them until we had become sophisticated enough to decode them. That time has finally arrived. Using cutting-edge data mining techniques, Dr. Michael Rathford sifted this large, complex word puzzle searching for significant patterns and relationships. Almost immediately, he came up with a predictive model known as the Nostradamus Code. When the secret prophecies-within-the prophecies are decoded, the hidden timeline of World War III is revealed. You will read about Osama bin Laden, Saddam Hussein, the overthrow of moderate Islamic governments in nations like Turkey and Pakistan, the nuclear destruction of Rome and other cities, the relocation of the Papacy, and of course, great detail on the timing and the course of World War III.

**Fictional Presidential Films** Sarah Miles Bolam & Thomas J. Bolam, 2011-07-01 Fictional Presidential Films Hollywood's manner of making films, its conventions, applies especially to fictional presidential films, allowing filmmakers to express their ideas that could not be done in traditional historical films. Fictional Presidential Films offers a complete filmography of these two-hundred-plus films decade by decade since 1930. The main body of the work provides a brief summary of each decade along with a summary on the overall nature of films in which a fictional President appeared. Each relevant film is then discussed with credits, plot summary, description of the presidential appearance, and, when possible, an

assessment of the presidential portrayal included.

Research Anthology on Fake News, Political Warfare, and Combatting the Spread of Misinformation Management Association, Information Resources, 2020-10-30 With recent headlines around fake news from world leaders and around presidential elections, Twitter and other social media platforms being pressured to detect and label misinformation posted on their platforms, as well as misinformation around COVID-19 and its vaccine, the world has seen an increase in protests, policy changes, and even chaos surrounding this information. This spread of misinformation, when left unchecked, can turn fiction into fact and result in a mass misconception of the truth that shapes opinions, creates false narratives, and impacts multiple facets of society in potentially detrimental ways, indicating a need for the latest research on how the devastating impacts of this trend, how to discern facts from misinformation, as well as more information on technological advancements in fake news detection The Research Anthology on Fake News, Political Warfare, and Combatting the Spread of Misinformation is a compilation of the most comprehensive, previously published, and highly cited research from prestigious institutions including Columbia University and Stanford University, USA, which focuses on understanding fake news, how it spreads, its negative effects, and current solutions being investigated. While highlighting topics such as fake news, trending conspiracy theories, media distrust, political warfare, and detection methods, this book is ideally intended for practitioners, stakeholders, researchers, academicians, and students interested in the continuing surge of fake news and its, at times, dangerous results.

**TIME AND SPACE** Ricky Lucio, 2010-10-12 Do you believe that the world will end on December 21, 2012? Neither did astrophysics professor Ivan Peterson until he saw the irrefutable evidence before him. What started out as an ordinary day for Dr. Peterson quickly turned into a challenge to save the world. With heart-pounding intensity and challenges at every corner, Dr. Peterson must work with the U.S. Military, the President of the United States, a couple of friends, and a visitor from the future to try to save the Earth from destruction. With only days to go before December 21, 2012, and with no clear strategy to save the world from the myriad of possible destructive forces, Professor Peterson must try to prevent a catastrophe. Nothing is as it seems, and everything seems to happen at once. Ivan's extensive education was no preparation for what he and the others must now face. Which force will destroy the Earth and its people first: a hostile alien race or the increasingly tense nuclear countries of the world, all with their weapons ready to fire at a moment's notice?
