

Obreros Cualificados Y Especializados

G Psacharopoulos

La sociedad credencialista Randall Collins, 1989-10-06 Entre las múltiples respuestas al dominio ejercido, durante los años cincuenta y sesenta, en la sociología en general, por la teoría funcionalista y, en la sociología de la educación, por ésta y por la teoría del capital humano, el enfoque credencialista representa uno de los intentos más brillantes de restituir al análisis social la perspectiva del conflicto. El libro de Randall Collins, que es ya casi un clásico, representa la formulación más sistemática del enfoque credencialista en sociología de la educación y de las ocupaciones y, en un sentido más amplio, en el análisis de las clases y los grupos sociales y sus relaciones recíprocas.

La distinción Pierre Bourdieu, 2016-07-14 El libro más emblemático de Bourdieu, gran figura de la sociología e intelectual de referencia en el debate internacional. «Los gustos son, ante todo, disgustos, vienen del horror o la intolerancia visceral hacia los gustos de los demás.» Con este libro emblemático, considerado uno de los textos de sociología más importantes del siglo XX, Pierre Bourdieu cuestionó, como nunca antes se había hecho, las categorías de belleza, arte y cultura. Para explorar las causas de las preferencias estéticas de las personas, emprendió un ingente trabajo de investigación empírica y de crítica teórica entre 1963 y 1968. Concluyó que lo que las determina es, en parte, el «capital cultural», es decir, el nivel de formación, y por otra, el «capital económico», es decir la situación social. En nuestro día a día, hacemos constantemente elecciones entre lo que encontramos estéticamente agradable y lo que consideramos vulgar, una mera moda o antiestético. Pero ningún criterio del gusto es puro e inocente. Bourdieu demuestra que nuestras diferentes elecciones estéticas se hacen por oposición a las de otras clases, es decir que nos distinguen de estas. Este fascinante trabajo argumenta que el mundo social funciona simultáneamente como un sistema de relaciones de poder y como un sistema simbólico en el cual las distinciones minuciosas del gusto se convierten en la base del juicio social. La crítica ha dicho: «La distinción es un libro que lleva al lector a implicarse, a remitirse a sí mismo, a su vida y a su relación con los demás, a situarse. [...] Todo lo vivido en solitario, la incomodidad, la vergüenza de no saber expresarse, comportarse, todo aquello que nos achacamos a nosotros mismos como una falta de personalidad, deja de ser un estigma individual.» Annie Ernaux «Pierre Bourdieu mostraba cómo lo indiscutible -el sagrado terreno del gusto- era el campo de batalla de una disputa simbólica en la cual podía descubrirse toda la estructura social de la división de clases [...]. Nadie como él fue capaz de hacer eso que es tan difícil, tan molesto y tan necesario: enseñarnos cuál es el juego al que estamos jugando.» José Luis Pardo, El País «Bourdieu

ha pasado a ser el nombre de un proyecto de investigación colectiva que traspasa las fronteras de las disciplinas y de los países.» Loïc Wacquant «La herencia de Bourdieu rebasa con creces el ámbito académico. Es ante todo un legado científico que sigue irrigando numerosas ramas de las ciencias sociales.» Le Monde

Cuadernos de información económica ,1965

Tesaurus ISOC de economía/ ISOC Thesaurus of Economics Angel Villagrà Rubio, Valentín Edo Hernández, 2008 La tercera edición de este “Tesaurus”, nacido en 1986, responde a la necesidad de actualizar su universo terminológico según los usos más implantados en la literatura económica más reciente. Tiene como notas diferenciales respecto a la anterior edición: la reestructuración del esquema organizativo general para acercarlo a la cosmovisión de la disciplina que generalmente tienen los economistas y hacerlo compatible con otros esquemas académicos; la reducción y sustitución de descriptores y la introducción de nuevos conceptos o la nueva formulación de otros ya existentes.

La corrosión del carácter Richard Sennett, 2006-04-18 En el «nuevo capitalismo», la concepción del trabajo ha cambiado radicalmente. En lugar de una rutina estable, de una carrera predecible, de la adhesión a una empresa a la que se era leal y que a cambio ofrecía un puesto de trabajo estable, los trabajadores se enfrentan ahora a un mercado laboral flexible, a empresas estructuralmente dinámicas con periódicos e imprevisibles reajustes de plantilla, a exigencias de movilidad absoluta. En la actualidad vivimos en un ámbito laboral nuevo, de transitoriedad, innovación y proyectos a corto plazo. Pero en la sociedad occidental, en la que «somos lo que hacemos» y el trabajo siempre ha sido considerado un factor fundamental para la formación del carácter y la constitución de nuestra identidad, este nuevo escenario laboral, a pesar de propiciar una economía más dinámica, puede afectarnos profundamente, al atacar las nociones de permanencia, confianza en los otros, integridad y compromiso, que hacían que hasta el trabajo más rutinario fuera un elemento organizador fundamental en la vida de los individuos y, por consiguiente, en su inserción en la comunidad. Mediante entrevistas con ejecutivos de IBM despedidos en la gran remodelación de esta compañía en los años noventa; el seguimiento de la trayectoria de un padre y de su hijo, asalariado toda su vida el primero y asesor forzosamente independiente el segundo; y de dos generaciones de trabajadores de la misma empresa panificadora de Boston, Sennett analiza con notable penetración y cuantiosa información el contraste entre dos ámbitos de trabajo radicalmente distintos: el antiguo, en vías de desaparición, un mundo de organizaciones jerárquicas rígidas, donde se esperaba de los trabajadores una identidad firme, una personalidad formada, y el nuevo mundo de empresas en permanente crecimiento y cambio, un mundo de riesgo, de extrema flexibilidad y objetivos a corto plazo, donde se exigen individuos capaces de reinventarse a sí mismos sobre la marcha. «Una notable síntesis de inteligente observación empírica y seria reflexión ética... Sennett sostiene con argumentos convincentes que la creciente inseguridad experimentada por los trabajadores hace que sea imposible para ellos lograr una identidad moral» (Richard Rorty). «Este libro hermoso y conmovedor, de uno de nuestros mejores sociólogos, alerta a Europa sobre lo

que puede pasar si sigue el camino que han tomado los Estados Unidos y en alguna medida Gran Bretaña» (Eric Hobsbawm). «Un libro excepcional, una combinación de erudición histórica, sabiduría literaria y agilidad periodística» (The New York Times Book Review). «Muy bien escrito e inteligentemente argumentado. Sennett desafía al lector a decidir si la flexibilidad del capitalismo moderno ofrece un contexto mejor para el crecimiento personal, o es simplemente una nueva forma de opresión» (Publishers Weekly).

Historia de la Unión General de Trabajadores en Aragón Enrique Bernad Royo, Carlos Forcadell, 2000

Integraciones diferenciadas Carlota Solé, Antonio Izquierdo, 2005 Se analiza si la tradición histórica migratoria, el contexto socioeconómico, las reivindicaciones identitarias culturales y políticas influyen en generar una capacidad integradora común o bien procesos de integración sociocultural diferenciados de los inmigrantes.
