Open Heart, Open Mind Tsoknyi Rinpoche,2012-04-03 In *Open Heart, Open Mind*, Tsoknyi Rinpoche—one of the most beloved of the contemporary generation of Tibetan Buddhist meditation masters—explains that a life free of fear, pain, insecurity, and doubt is not only possible, it's our birthright. We long for peace, for the ability to love and be loved openly and freely, and for the confidence and clarity to meet the various challenges we face in our daily lives. Within each of us resides a spark of unparalleled brilliance, an unlimited capacity for warmth, openness, and courage, which Rinpoche identifies as "essence love." Timeless and imperishable, essence love is often layered over by patterns of behavior and belief that urge us to seek happiness in conditions or situations that never quite live up to their promise. Drawing on rarely discussed teachings of Tibetan Buddhism, Rinpoche describes how such patterns evolve and offers a series of meditation exercises to help us unravel them and, in the process, reawaken an energy and exuberance that can not only bring lasting fulfillment to our lives but ultimately serve to enliven and inspire the entire world, as well. With great humor, intelligence, and candor, Tsoknyi Rinpoche also details his own struggles to reconnect with essence love. Identified at an early age as the incarnation of a renowned Tibetan master and subjected to a rigorous monastic training, he ultimately renounced his vows, married, and is now the father of two daughters. As he recounts his own efforts to strike a balance between the promptings of his heart and an obligation to preserve and protect the teachings of Tibetan Buddhism, Rinpoche provides a bridge between ancient wisdom and modern life, and encourages each of us to rediscover the openness, fearlessness, and love that is the essence of our own life.

To Call on His Name John Gill,2019-12-15 The first comprehensive study of the Jesus Prayer, and its origins and use, providing an overview of this ancient mystical prayer practice from the Christian East which is now also widely used in the Western Church.

The Daily Reader for Contemplative Living Thomas Keating,2013-01-31 This work brings together for each day of the year three prayer practices for contemplative living: first, a brief active prayer; second, spiritual reading; and, third, *Lectio Divina*. The brief introductory prayer sentences are from various sources - the Bible and traditional prayers of the church or of well-known spiritual writers. The spiritual readings come from eleven of Father Keating's books and one audiotope, with a month's worth of readings derived from each work. Each day's entry concludes with a brief selection from the Bible, or *Lectio Divina*.

The Alchemy of Addiction Stephen J. Costello,2024-08-01 Within this important book, Stephen J. Costello draws on Eastern philosophy, Western psychology, and wisdom traditions to offer an interpretation and answer to the

multidimensional problem of addiction. The nature of pleasure, pain, and attachment are discussed, together with stress as a key source of our suffering. Justifying and grounding the work is C. G. Jung's central insight that the solution to our disordered desires lies in cultivating a spiritual approach to life. As such, a detailed exploration of the Twelve Steps of recovery is elucidated from the threefold perspective of the philosophy of Advaita, the Enneagram system, and the Christian contemplations of Richard Rohr, John Main, and Thomas Keating, as well as St Ignatius of Loyola. The work concludes with a brief look at Platonic ethics, especially the virtue of temperance, St Benedict's spirituality of humility, and the law of dharma as a blueprint for purposeful non-addicted living. This book will appeal to a wide variety of readers such as mental health professionals in the counselling and psychotherapy professions, as well as students of depth psychology and philosophy.
