Communicating with Quotes Joyce Penfield, 1983 The use of quotations or proverbs to convey a message is an important communication technique in the Igbo society of southeastern Nigeria. Penfield contends that there are few, if any,

satisfactory ethnographic investigations of where, why, how, and by whom or among whom proverbs are used, and the range of interactional situations in which they are used. Such a study, Penfield believes, would reveal the significant patterns and values of a particular society, and suggest concepts that would be useful in developing a general theory of quoting behavior and the use of proverbs.

Teaching Personal and Social Responsibility Through Physical Activity Don Hellison,2010-11-23 Teaching Personal and Social Responsibility Through Physical Activity, now entering its third edition, attests to author Don Hellison's ability to shape and develop character and responsibility in children. Perhaps the success of Hellison's book can be attributed to his status not only as a highly respected scholar-activist but as a teacher who worked in the trenches with inner-city kids. Kids in any situation will benefit from the thoroughly updated material in this edition, which presents practical, proven, easy-to-implement ideas for teaching personal and social responsibility (TPSR) in school, after school, and in alternative settings. It also supplies direction in teaching affective and social moral goals, an in-depth look into teaching character development and values, and a method for helping students develop personal and social responsibility. Teaching Personal and Social Responsibility Through Physical Activity offers much new material: • Strategies for alternative schools, afterschool programs, and the emerging youth development movement • Vignettes sprinkled throughout the chapters, written by TPSR instructors in various settings • Several chapters that have been completely overhauled • An expanded assessment chapter to help readers evaluate the impact of TPSR on their kids and apply the strategies • One new chapter on combining responsibility-based youth development with teacher preparation in physical education In addition, the book features "Kid Quotes" to help readers understand how kids respond to the TPSR approach, as well as forms and charts to help readers put the ideas and strategies to use. The result is a field-tested book that is the accepted curricular model in the field—and a resource that will enable teachers to help their students grow into solid citizens both personally and socially.

Interculturality Between East and West Fred Dervin,Sude,Mei Yuan,Ning Chen,2022-02-05 This book urges readers to develop a radical capacity to unthink and rethink interculturality, through multiple, pluri-perspectival and honest dialogues between the authors, and their students. This book does not give interculturality a normative scaffolding but envisages it differently by identifying some of its polyphonic textures. China's rich engagement with interculturality serves to support the importance of being curious about other ways of thinking about the notion beyond the 'West' only. As such, the issues of culture, identity, language, translation, intercultural competence and silent transformations (amongst others) are re-evaluated in a different light. This is a highly informative and carefully presented book, providing scientific insights for readers with an interest in interculturality.

Golden Rules and Silver Rules of Humanity Q. C. Terry,2004 The Golden/Silver Rule precepts and associated maxims are the pillars upon which most major religious and philosophical traditions, moral and legal codes, are founded, that also relate to science. Dating back almost to the beginnings of civilized culture in ancient Africa over 5,000 years ago, and elsewhere, the rules are among the earliest oral civil precepts/codes to be committed to print regarding appropriate social conduct across most situations. This wisdom inquiry offers, some background, an integrative theory for most of the versions of the precepts found amongst the worlds cultures, in addition to, some newly created reciprocity labels, and maxims, based on mutuality, generosity, altruism and ethical levels. A draft integration of some new mutuality rules, and interaction relations, for science, religion, and philosophy, are offered, along with some sample optimums for various life style types on an altruism-egoism ethics scale.

Respect Greatest Quotes - Quick, Short, Medium Or Long Quotes. Find the Perfect Respect Quotations for All Occasions - Spicing Up Letters, Speeches, and Everyday Conversations. Mia Odonnell,2016-02-08 This book is the outcome of an idea, and the idea is very simple. It is that the best way to understand the dramatic transformation any idea can bring and to successfully bring ideas across, is to think of them as profound insights and moments of clarity often disguised as wit, captured in one single Quote. Ideas and products and messages and behaviors spread faster when they carry your message in a single line or paragraph: a Quote. To feel the impact a Quote can have, here are three Respect Quotes from this book: 'There is no respect for others without humility in one's self. - Henri Frederic Amiel' 'The final test of a gentleman is his respect for those who can be of no possible service to him. - William Lyon Phelps' 'Respect is what we owe; love, what we give. - Philip James Bailey' Three characteristics-one, contagiousness; two, the fact that little words can have big effects; and three, that insight happens not gradually but at one dramatic moment, using the right profound words-are the same three principles that define how an idea takes off, or a product goes viral. Of the three, the third, profound, trait... is the most important, because it is the principle that makes sense of the first two and that permits the greatest insight into why some ideas stick, some changes last, some words leave an impression, and others don't. This book will give you the opportunity to find that right Quote that can change it all.
