*The Colors of Japan* Sadao Hibi, Kunio Fukuda, 2000 This is a photographic exploration of the characteristic colours of Japan that have appeared repeatedly throughout the centuries in everything from everyday utensils to works of high art. *The Colors of Japan* is a visually stunning look into the unique use of color in Japanese culture from prehistoric times to the present day. **Canals, Canines, and Curry** Michael I Rolfe, 2014-04-24 A new life on the English Waterways... An informative and humorous new boater's perspective of life on the Inland Waterways; charting their learning curve from calamitous collisions to confident competence, all fuelled by copious curries. Two humans, a dog the size of a small horse, petrol, gas, and curry, all in a confined space on a vessel we'd bought and only in theory knew how to operate. What could possibly go wrong? Dotted throughout is information on narrowboats, rivers, and canals, explored as we learn it on our own journeys, written in

easy-to-follow layman's terms.

Language, Identity and Cycling in the New Media Age Patrick Kiernan, 2017-09-21 This book examines how identities associated with cycling are evoked, narrated and negotiated in a media context dominated by digital environments. Arguing that the nature of identity is being impacted by the changing nature of the material and semiotic resources available for making meaning, the author introduces an approach to exploring such identity positioning through the interrelated frameworks of Systemic Functional Linguistics and Multimodal Analysis, and illustrates how this happens in practice. The book is divided into three parts, each of which focuses on a different aspect of identity and media environment. Part I considers celebrity identities in the conventional media of print and television. Part II investigates community and leisure / sporting identity through an online cycling forum, while Part III examines corporate identity realised through corporate websites, consumer reviews and Youtube channels. This unique volume will appeal to students and scholars of discourse analysis, applied linguistics and the world of cycling.
