Remote Viewing Secrets Joseph McMoneagle, 2023-12-02 Remote viewing is not simply using psychic ability to obtain information. It is using scientific protocol to develop and extend that ability, so that ordinary people can learn to do what psychics do. This book teaches you how to teach yourself. Joseph McMoneagle learned remote viewing in the U.S. Army--he was Remote Viewer #001 in the Army's Stargate program--and was awarded the Legion of Merit for his contribution to various intelligence operations. In *Remote Viewing Secrets*, the author of *Mind Trek* and *The Ultimate Time Machine* uses examples, exercises, and anecdotes to share what he learned and how he learned it, and gives you everything you need to begin developing your own abilities. *Remote Viewing Secrets* is easily the most complete, authentic, and informative guide to remote viewing published to date.

Remote Viewing Courtney Brown, 2005 Remote viewing is the mental ability to perceive and describe places, persons, or events at distant locations in the past, present, and future. This book describes the science and theory of the remote-viewing phenomenon. The reality of the remote-viewing phenomenon is not in dispute among a large body of respected researchers ė both inside and outside of academia ė who have published an extensive collection of high-quality investigations over the past few decades. But profound mysteries remain. This volume breaks new ground by resolving some of remote-viewing's greatest enigmas. In these pages, new research and new theories explain why remote viewing works, and why it is scientifically possible. These investigations utilize remote-viewing methods that are derivative of those used for decades in well-documented U.S. government funded psi research sponsored by the Central Intelligence Agency (C.I.A.) and the Defense Intelligence Agency (D.I.A.). Filled with descriptions and analyses of highly original experiments, here is an investigation into the fascinating characteristics of time and physical reality using remote viewing as a tool of exploration, offering evidence that the past, present, and future truly exist simultaneously. The idea of differing future and past time lines is not just science fiction.

Exploring the Sub-conscious using New Technology Michael Gwyn Hocking, 2016-02-28 A rapid drug-free method for visual imagery, while wide awake, for those who can get no imagery with closed eyes, requiring easily-constructed low-cost circuitry. The simple device captures the user's attention due to its entertaining display of flashing lights, so no advanced ability of mind control techniques is required.

The Seasons of Change Carol L. McClelland, 1998-01-01 A wise, helpful book that provides practical tools for one of modern life's greatest challenges -- Change. True help for everyone -- no matter what difficult or exciting transition you are in! Provides a model based on the four seasons to help align you with natural forces. Using a simple questionnaire, you can discover where you are in your transition process, how to move forward, and how to not get off track. Includes advice for building a strong support network for times of change.

The Purpose of Life, Why are we Here M.G. Hocking, Professor of Materials Chemistry, University of London, 2016-02-19 There is much evidence that we have lived before, and our purpose is to progress to a more advanced state. The evidence also indicates that a 'God' must exist to cause such re-births - on other continents and hundreds of years later. The consequences of bad deeds done in previous lives explains present suffering, which seems otherwise unjust. Future lives lie before us and from available evidence these will be strongly influenced by our actions in our present life.

Dark Cognition David Vernon, 2020-10-01 *Winner of the Parapsychological Association Book Award 2021* Outlining the scientific evidence behind psi research, Dark Cognition expertly reveals that such anomalous phenomena clearly exist, highlighting that the prevailing view of consciousness, purely as a phenomenon of the brain, fails to account for the empirical findings. David Vernon provides essential coverage of information and evidence for a variety of anomalous psi phenomena,

calling for a paradigm shift in how we view consciousness: from seeing it as something solely reliant on the brain to something that is enigmatic, fundamental and all pervasive. The book examines the nature of psi research showing that, despite claims to the contrary, it is clearly a scientific endeavour. It explores evidence from telepathy and scopaesthesia, clairvoyance and remote viewing, precognition, psychokinesis, fields of consciousness, energy healing, out of body experiences, near-death experiences and post death phenomena, showing that not only do these phenomena exist, but that they have significant implications for our understanding of consciousness. Featuring discussion on scientific research methods, reflections on the fields of dark cognition and end-of-chapter questions that encourage critical thinking, this book is an essential text for those interested in parapsychology, consciousness and cognitive psychology.

Subtle Energy Work Synthia Andrews, 2025-09-12 If you've always known that there's more to you than you learned in Biology 101, but find yourself intimidated by the technical language of science, this is the beautiful book you've been waiting for! —Gregg Braden, New York Times bestselling author of *The Divine Matrix* Learning to consciously interact in the domain of subtle energy is the next step in personal and planetary transformation. *Subtle Energy Work* is a unique guide to principles, practices, and exercises to help you access your energy awareness and live a more empowered life. In the book are 13 meditations that activate patterns of light within your energy body to awaken specific abilities and levels of awareness. Each meditation includes benefits and purpose, step-by-step written directions augmented with line drawings, and an interpretive illustration of the completed energy pattern. There are also daily energy clearing and detoxification exercises. Subtle energy is more than life force; it is the substance of reality and the vehicle of consciousness. Your body is wired to navigate this domain. You are equipped with everything needed to engage the world of energy and creatively change your life. You simply need to remember how. *Subtle Energy Work* is a guide to living with expanded consciousness. Included are techniques that build energy awareness and use this skill to deepen your spiritual path, intimacy in relationships, align with earth energy, clear space, create protection, manifest goals, facilitate healing, and more. Previously published as *The Path of Energy* (ISBN 9781601631725), this edition contains updates, a new chapter, and foreword by Dannon Brinkley, author of *Secrets of the Light*.

The Essential Guide to Remote Viewing Paul H. Smith,2015-05-31 Written by one of the world's leading experts in the field, The Essential Guide to Remote Viewing is a basic introduction to the extraordinary extrasensory perceptual skill which was developed for the US military during the Cold War. This book describes what remote viewing is, how it came to be, what kinds of remote viewing there are, and counters skeptical arguments against remote viewing's legitimacy. Further, the book contains examples of successful remote viewing attempts, explains how remote viewing can be used for practical purposes, how ordinary civilians can themselves now learn to do it, and outlines experiments that readers can try for themselves. The ideal reader of The Essential Guide to Remote Viewing will be someone who knows little or nothing about remote viewing and wants an inexpensive source for credible information. Others who will be interested are those who are involved in remote viewing and want an easily-accessible introduction to give to friends or relatives who have questions about what this thing is their loved ones have gotten involved with. Finally, those who are already involved with remote viewing but feel the need to extend their basic knowledge will find this book both interesting and useful.
