Michelle Ann Abate

No Kids Allowed Michelle Ann Abate, 2020-10-13 Children's literature isn't just for children anymore. This original study explores the varied forms and roles of children's literature—when it's written for adults. What do Adam Mansbach's *Go the F**k to Sleep* and Barbara Park's *MA! There's Nothing to Do Here!* have in common? These large-format picture books are decidedly intended for parents rather than children. In *No Kids Allowed*, Michelle Ann Abate examines a constellation of books that form a paradoxical new genre: children's literature for adults. Distinguishing these books from YA and middle-grade fiction that appeals to adult readers, Abate argues that there is something unique about this phenomenon. Principally defined by its form and audience, children's literature, Abate demonstrates, engages with more than mere nostalgia when recast for grown-up readers. Abate examines how board books, coloring books, bedtime stories, and series detective fiction written and published specifically for adults question the boundaries of genre and challenge the assumption that adulthood and childhood are mutually exclusive.

Young Adult Literature and the Digital World Jennifer S. Dail,Shelbie Witte,Steven T. Bickmore,2018-04-26 This book considers the practical intersection between digital media and young adult texts. In these books, teachers and teacher educators offer practical examples for engaging students with crafting critical responses to young adult literature through digital spaces. It examines how teachers can use these spaces to help students encounter, evaluate, and engage in the world in which they live. Young adult literature offers a vehicle through which students can discuss and explore the world in a more removed manner, while digital media offers a paradigm for helping students craft multimodal responses that extend beyond the traditional literary essay. This intersection asks teachers to consider how they are asking students to interact with the texts they read. It asks them to invite students to enter and contribute to broader conversations through the production of their own texts. This book illustrates pedagogical principles in practice, showing what is possible in literature study in classrooms.
