ZOINKS! The Spooky Folklore Behind Scooby Doo Mark Norman,2024-09-13 This is Zoinks!, the critically-acclaimed book about Scooby-Doo by well-known folklorist and podcaster Mark Norman. Recognised internationally for his expertise in folklore and known by many for his Folklore Podcast, Mark is the perfect guide for a tour through the myths and legends that have inspired the iconic cartoon. For over half a century, a gang of teens - Fred, Daphne, Velma, Shaggy - and their dog, Scooby, have captivated audiences with their supernatural sleuthing, operating under the banner of Mystery Incorporated. Yet the stories that have inspired the gang's adventures are often much, much older. In this book, Mark Norman extensively explores the various myths and legends that the show's writers have drawn on to deliver the wealth of memorable villains we've seen over the years. With insights from a number of these writers, as well as producers and other contributors, we learn how real-world folklore has influenced the show's portrayals of ghosts, witches, monsters and more. The combination of both popular culture and the author's extensive knowledge of the kind of tales whispered about on dark nights is not only hugely entertaining but also utterly fascinating and will appeal to fans of the cartoon as well as anyone with an interest in the strange, the odd, the perplexing and the paranormal.

Edinburgh Critical Edition of the Selected Writings of Andrew Lang, Volume 1 Lang Andrew Lang,2015-05-22 The Selected Works of Andrew Lang: Volume 1 Anthropology: Fairy Tale, Folklore, the Origins of Religion, Psychological Research Edited by Andrew Teverson, Alexandra Warwick and Leigh Wilson This is the first critical edition of the works of Andrew Lang (1844-1912), the Scottish writer whose enormous output spanned the whole range of late-nineteenth century

intellectual culture. Neglected since his death, partly because of the diversity of his interests and the volume of his writing, his cultural centrality and the interdisciplinary nature of his work make him a vital figure for contemporary scholars. This volume covers Lang's wide and influential engagement with the central areas of late nineteenth-century anthropology. Lang made decisive interventions in debates around the meaning of folk tales and the origins of religion, as well as being an important figure in the investigation of spiritualist claims through psychical research. The work reproduced here includes journalism, essays, extracts from books and previously unpublished letters which together articulate and challenge some of the central ideas and discussions of the period, including evolution, the relation between modern and non-modern cultures, the nature of scientific claims to truth, and the consequences of materialism. The volume will provide new and illuminating ways of understanding and assessing the period for scholars across a range of disciplines, including those interested in the histories of the fairy story, of science, of the occult, of colonialism and of anthropology.
