

The Electroherbalism Frequency Lists

Judith Lee Dew

The Electroherbalism Frequency Lists Brian McInturff, 2006-11-10 The Electroherbalism Frequency Lists, Third Edition, contains frequencies that people use for electrotherapy instruments such as EMEMs, Rife machines, Rife-Bare devices, function generator pad devices, Hulda Clark function generators, Tesla therapy devices, and other alternative bioelectronic instruments. This compilation includes the Consolidated Annotated Frequency List and the Non-Consolidated Frequency List, also known as the CAFL and NCFL, and the newly revised CAFL Cross Reference List (CAFL XREF) as well as the chapters Introduction to Alternative Bioelectronic Therapy Devices, Electrical and Frequency Effects on Pathogens, and James Bare's Understanding Our Frequencies Through Harmonic Associations. The Electroherbalism frequency lists are some of the most-used references for frequency researchers the world over.

Waking Up from the Cancer Trance Judith Lee Dew, 2019-02-01 The author studied the works of early doctors, scientists and genius laypeople who spent years studying different theories about the nature of cancer. Many of them had high success rates with patients who'd been sent home to die after being exposed to conventional therapies. Then, she found doctors who have studied the work of these early (and later) cancer pioneers who have high success rates in their cancer practices now. When cancer is not a mystery, it does not have to be a death sentence.
