The Three Initiates

The Kybalion William Walker Atkinson, Three Initiates, Philip Deslippe, 2011-04-28 Here is the flagship edition of the most popular occult work of the past century, now published with a groundbreaking historical introduction that establishes its authentic authorship and a lost bonus work by the original author. It is one of the most mysterious and hotly debated occult works ever written-and without question the most popular and widely influential book of arcane philosophy of the twentieth century: The Kybalion has been credited only to the cryptic Three Initiates since its first appearance in 1908. Debate rages over the identity of the Three Initiates, the origin of the book's mysterious title and insights, and the nature of the Hermetic teachings on which it is thought to be based. Now the veil is parted. The Kybalion: The Definitive Edition presents the first full-scale analysis of this work of practical occult wisdom. It features the complete text of The Kybalion and the first-ever publication of Atkinson's previously unknown post-Kybalion work: The Seven Cosmic Laws. In an engaging introduction to this unique volume, religious scholar Philip Deslippe surveys the work's context, history, and impact (including as a source of spiritual insight to communities ranging from New Thought to Black Nationalism), and provides a biographical sketch of its elusive author, the New Thought pioneer William Walker Atkinson. As valuable to new fans as it is to longtime readers who crave more knowledge about Atkinson and his work, The Kybalion: The Definitive Edition illuminates the remarkable history of this long-cherished text.

The Kybalion: Hermetic Philosophy, originally published in 1908 under the pseudonym of the Three Initiates, is a book claiming to be the essence of the teachings of Hermes Trismegistus. Since 1908, it has served as a study of basic hermetic teachings that outline an ageless wisdom. In ancient times (and even today), these teachings were not understood by the lay person, but were readily understood by students after the axioms and principles had been explained and exemplified by the Hermetic Initiates and Masters to their Neophytes. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but

rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. -- The Kybalion

The Kybalion ,1908

The Kybalion William Walker Atkinson,2019-01-09 The Kybalion: Hermetic Philosophy is a book claiming to be the essence of the teachings of Hermes Trismegistus. We take great pleasure in presenting to the attention of students and investigators of the Secret Doctrines this little work based upon the world-old Hermetic Teachings. There has been so little written upon this subject, notwithstanding the countless references to the Teachings in the many works upon occultism, that the many earnest searchers after the Arcane Truths will doubtless welcome the appearance of this present volume. The purpose of this work is not the enunciation of any special philosophy or doctrine, but rather is to give to the students a statement of the Truth that will serve to reconcile the many bits of occult knowledge that they may have acquired, but which are apparently opposed to each other and which often serve to discourage and disgust the beginner in the study. Our intent is not to erect a new Temple of Knowledge, but rather to place in the hands of the student a Master-Key with which he may open the many inner doors in the Temple of Mystery through the main portals he has already entered. There is no portion of the occult teachings possessed by the world which have been so closely guarded as the fragments of the Hermetic Teachings which have come down to us over the tens of centuries which have elapsed since the lifetime of its great founder, Hermes Trismegistus, the scribe of the gods, who dwelt in old Egypt in the days when the present race of men was in its infancy. Contemporary with Abraham, and, if the legends be true, an instructor of that venerable sage, Hermes was, and is, the Great Central Sun of Occultism, whose rays have served to illumine the countless teachings which have been promulgated since his time. All the fundamental and basic teachings embedded in the esoteric teachings of every race may be traced back to Hermes. Even the most ancient teachings of India undoubtedly have their roots in the original Hermetic Teachings.

The Kybalion The Three Initiates, 2022-02-03 Seven Fundamental Principles That Could Change Your Life According to ancient Greek and Egyptian literature, Hermes Trismegistus, legendary father of the occult and ascribed founder of astrology, practiced a divinely inspired form of mental alchemy focused on transforming the mind rather than physical materials. In essence, he pursued a sort of spiritual ascension, a transmutation of the soul leading to a freeing of one's true self. For millennia, though, the foundational precepts of early Hermetic mysticism remained shrouded in secrecy, known only to a select few. The Kybalion, purportedly written by three anonymous initiates of Hermes' teaching, finally parts the obscuring fog and reveals clear and simple pathways to understanding and applying the transformative spiritual knowledge, regardless of one's religious tradition or belief system. This life-changing treatise outlines seven universal laws upon which the entire Hermetic Philosophy, and possibly even the nature of existence itself, are based. These seven key principles are: mentalism, correspondence, vibration, polarity, rhythm, cause and effect, and gender. With its lucid commentary on aphorisms from original source material, The Kybalion provides modern readers with invaluable insights for achieving

personal self-development and living the best life possible. It is also a vital resource for anyone seeking to deepen their understanding of paranormal philosophies, arcane truths, esoteric studies, magic, mysticism, the occult, the supernatural, or the wonders of the universe, or those simply seeking a deeper appreciation for the secret doctrines and powerful wisdom of the ancients.
