Modality and Mood in Romance Martin G. Becker, Eva-Maria Remberger, 2010 This collective volume contains a selection of research contributions, presented at the 30th Deutscher Romanistentag [German Conference on Romance languages and literatures] in 2007 in Vienna in the section Mood and Modality in Romance. The Romance languages studied here include Portuguese, Italian, Spanish, Romanian, Catalan and French. All contributions thematically explore the status and importance of modality and mood and their reciprocal relationships with reference to theoretical approaches.

Manual of Romance Morphosyntax and Syntax Andreas Dufter, Elisabeth Stark, 2017-09-25 This volume offers theoretically informed surveys of topics that have figured prominently in morphosyntactic and syntactic research into Romance languages and dialects. We define syntax as being the linguistic component that assembles linguistic units, such as roots or functional morphemes, into grammatical sentences, and morphosyntax as being an umbrella term for all morphological relations between these linguistic units, which either trigger morphological marking (e.g. explicit case morphemes) or are related to ordering issues (e.g. subjects precede finite verbs whenever there is number agreement between them). All 24 chapters adopt a comparative perspective on these two fields of research, highlighting cross-linguistic grammatical similarities and differences within the Romance language family. In addition, many chapters address issues related to variation observable within individual Romance languages, and grammatical change from Latin to Romance.

Diachronic and Typological Perspectives on Verbs Folke Josephson, Ingmar Söhrman, 2013-07-10 This volume applies a diachronic perspective to the verb and mainly deals with typological change affecting tense, aspect, mood and modality in a variety of Indo-European languages (Latin, Romance, Celtic, Germanic, Slavic, Indo-Iranian, Hittite, and Semitic) and the non-Indo-European Turkic, Amerindian and some Australian languages. The analyses of the structural changes and the interchange between the different grammatical categories that cause them which are presented in the chapters of this

volume yield astonishing results. The diachronic perspective combined with a comparative approach provides profound knowledge of the typology of the verb and other typological issues and will serve researchers, as well as advanced and beginning of linguistics students in a way that has rarely been encountered before.

Tense, aspect and discourse structure Jakob Egetenmeyer, Sarah Dessì Schmid, Martin G. Becker, 2024-09-23 Tense and aspect are crucial devices of sentence meaning. They interact with Aktionsart, but also with verb types and adverbs when indicating temporal relations and building temporal discourse structure. On the discourse level, they are co-determined by narrative functions, enhancing the complexity of their description. The volume depicts this vast field. It unites twelve contributions which elaborate on three thematic cores: 1) the context-sensitivity of tense and aspect and their relationships with neighbouring categories, 2) their interaction with adverbs, 3) their functioning in discourse. The volume advances our knowledge of the matters at hand in different respects. It discusses the onomasiological status of categories such temporality and aspectuality critically. It addresses the functioning of tense in discourse from various angles. A further focus is placed on the imperfective past tense-aspect form, its uses and meaning potentials. Its analysis ranges from marking evidentiality to indicating perspectives. The volume combines papers with various theoretical approaches and methodologies, notably, formally oriented linguistics and data-driven accounts. The multiplicity of subjects and methods may resonate beyond the field of Romance linguistics.

Aproximaciones culturales y didácticas: al hecho literario ,2024-11-28 La literatura es el arte que se vale del lenguaje natural como medio, al igual que el arte de la pintura usa pigmentos y el de la escultura la piedra. Puede ser también una forma de comunicación y de educación en los valores de una comunidad o un medio para apoyar o para denunciar determinadas situaciones socioeconómicas y políticas. El arte literario puede proporcionar placer y entretenimiento, pero también ansiedad y desasosiego; es capaz de despertar conciencias y suscitar rebeldías, pero igualmente puede manipular la realidad y adormecer, mediante la evasión, a las clases desfavorecidas. La literatura, como expresión artística de la comunidad humana, nace siempre de las condiciones materiales de una sociedad, pero al mismo tiempo constituye la expresión cultural más elevada de la espiritualidad humana. Otros seres animales son capaces de comunicar mensajes sobre la realidad, a veces incluso sofisticados, por diferentes medios, pero el ser humano es el único animal de la biosfera que ha convertido en un arte la comunicación verbal de mensajes ficticios. Cuando los rétores romanos distinguieron tres funciones principales para la literatura (instruir, deleitar y conmover) acertaron, pero al mismo tiempo se quedaron cortos.
