New Urban Housing Hilary French, 2006 A revised addition to the Living In series shows and describes the gardens, boulevards, museums, monuments, and parks of Paris, and includes interiors of homes decorated in various styles.

Housing, Urban Renewal and Socio-Spatial Integration Xiaoxi Hui, 2013-02-07 This issue of A+BE addresses two critical urban issues China faces today: housing and urban renewal. In the recent two decades, the Chinese urban housing stock underwent a significant, if not extreme, transformation. From 1949 to 1998, the urban housing stock in China largely depended on the public sector, and a large amount of public housing areas were developed under the socialistic public housing system in Beijing and other Chinese cities. Yet in 1998, a radical housing reform stopped this housing system. Thus, most of the public housing stock was privatized and the urban housing provision was conferred to the market. The radical housing privatization and marketization did not really resolve but intensified the housing problem. Along with the high-speed urbanization, the alienated, capitalized and speculative housing stock caused a series of social and spatial problems. The Chinese government therefore attempted to reestablish the social housing system in 2007. However, the unbalanced structure of the Chinese urban housing stock has not been considerably optimized and the housing problem is still one of the most critical challenges in China.

Use of Timber in Tall Multi-Storey Buildings Ian Smith, Andrea Frangi, 2014-01-01 Since the dawn of civilization, timber has been a primary material for achieving great structural engineering feats. Yet during the late 19th century and most of the 20th century it lost currency as a preferred material for construction of large and tall multi-storey building superstructures. This Structural Engineering Document (SED) addresses a reawakening of interest in timber and timber-based products as primary construction materials for relatively tall, multi-storey buildings. Emphasis throughout is on holistically addressing various aspects of performance of complete systems, reflecting that major gaps in knowhow relate to design concepts rather than technical information about timber as a material. Special consideration is given to structural form, fire vulnerability, and durability aspects for attaining desired building performance over lifespans that can be centuries long.

best of Detail: Wohnen/Housing Christian Schittich, 2012-12-17 Wohnen ist individuell: Jeder hat andere Vorstellungen

und Wünsche vom Wohnen und durch die Art zu Wohnen äußert sich sein Lebensstil. Wohnen heißt „zu Hause“ sein, wo man sich im Idealfall wohlfühlt. Zum Thema Wohnen existieren zahlreiche Studien über Standards, Entwicklungen und Trends, die die Bedürfnisse von Menschen analysieren und vergleichen. Mit den Bedürfnissen aber wandeln sich im Laufe der Jahre auch die Standards und Trends. Und auch der globale und demografische Wandel unserer Gesellschaft ändert die Wohnformen, Flexibilität wird zu einem maßgeblichen Kriterium. Zum Thema Wohnen gehört aber auch die Einbindung in die Umgebung. Insbesondere in Städten leben viele Menschen auf engem Raum, es gibt wenig individuelle Freiflächen und viele gemeinschaftlich genutzte Zonen. Daher ist es umso wichtiger, dass Planer Ideen entwickeln, die dem Bedürfnis der Menschen nach einem ausgewogenen Maß von individuellem und gemeinschaftlichem Raum, auch hinsichtlich der Freiflächen, entsprechen. Die Publikation bündelt die Highlights aus DETAIL zum Thema Wohnen. Ein umfangreiches Werkverzeichnis gelungener Projektbeispiele rundet den Einblick in die verschiedenen Wohnformen ab und bietet neben dem theoretischen Unterbau vor allem Inspiration und nicht zuletzt jede Menge an konstruktiven Lösungen.

Sustainable Heritage Management - Design: Notions, Methods and Techniques Mar Loren-Méndez, Marta García-Casasola, Vladan Djokić, Ana Nikezić, Emanuela Sorbo, Maria Philokyprou, Konstantinos Sakantamis, 2025-08-16 This book is coordinated by the UNESCO Chair on Modern Urban heritage CREhAR (Creative Research and Education on heritage Assessment and Regeneration), at the School of Architecture, Universidad de Sevilla (USE), institutions and their research groups which constitute a benchmark for research on cultural heritage and sustainability. Developed in the context of a European network of five universities, University of Belgrade, Serbia; University of Seville, Spain; IUAV University of Venice, Italy; University of Cyprus, Cyprus; and Aristotle University of Thessaloniki, Greece- this consortium on heritage and sustainability have been collaborating closely, both as authors and editors. This book contributes to opening the way to managing heritage from a sustainable perspective, characterizing it from a holistic approach that includes environmental conservation and bioclimatic design. The central innovation of this contribution rests on combining the processes and methods of the heritage studies with those of the project within the field of Architecture and Urban Planning. The volume is structured into five sections: from the concepts, methods and tools, without forgetting the training in proper documental search and systematization, characterization and values identification, key to define criteria to design strategies and actions. Addressed in three transversal perspectives: education, practice, and research, it gives an integral and complete answer to students, practitioners, and researchers. Regarding its contribution to the literature in the field, this volume offers an international publication in the combined fields of heritage and sustainability, providing both conceptual and specific didactic contents and materials, for what is needed to deal with the complex process involved in heritage management. It looks for quality proceedings to project integrated actions on heritage assets, from a transdisciplinary perspective. This book promotes decision making on expert knowledge and cultural values; the proper use of methods, strategies and tools, and reaches

agreements through participation of the different agents involved.
