Filmonomics André de Palma, Luc Leruth, 2025-04-08 What could movies as diverse as *The Last Samurai*, *Cléo* from 5 to 7, or *Dr. Strangelove* have in common? *Filmonomics* has a simple yet intriguing answer: economics as the main driving force of the plot or as the main motivation of the characters' actions. This book analyses how movie makers use economic and financial motives in their plots or to build their characters. Have they done it in line with economic theory? Or are they proposing a new angle, a new perspective, that economists should take note of? The authors here do not discuss wages in the film industry or the economics of movies. What interests them is the economic motivations underpinning the behaviour of fictional characters in their favourite films. They argue that credible movie characters can behave in irrational ways, and movie makers occasionally introduce new ideas that economists should take note of. A unique contribution, this book will be of interest to readers eager to discover what economists have to say about films and film directors. It will be indispensable for students and researchers of economics, media studies, film studies, and cultural studies.

Life, Liberty, and the Pursuit of Happiness, Version 4.0 Gordon Anderson, 2009-09 The American founders designed a Constitution for governance of the United States based on the idea that citizens are sovereign and that function of government is to protect their pursuit of life, liberty, and happiness. This book calls the original system version 3.0, and discusses five basic political principles required for a modern government to accomplish that function. These principles were either explicit or implicit at the founding. However, the United States has deviated from these principles over time, and today the federal government is doing many of the things the Constitution sought to protect against. Congress is in a position much like the programmers of a computer operating system that seek to increase the functionality of the system and to ward off attacks from viruses. However, not only have they passed laws that take away from the citizen's abilities to pursue life, liberty, and happiness, they have also introduced various viruses that threaten the existence of the entire system. This book describes how we can eliminate these viruses infecting the system and update the U.S. government to version 4.0, allowing U.S. citizens to pursue life, liberty, and happiness, thereby producing a solid foundation for a strong and durable society in which all can freely prosper. There are several conclusions that run against the current prevailing views. The most significant conclusion involves the relationship of the government to the economy. Several principles adopted as prevailing economic

wisdom in both the Republican and Democratic Parties are considered harmful to the pursuit of life, liberty, and happiness of citizens, and harmful to the society as a whole. There are many books on reforming the U.S. government, which a majority of Americans consider to be broken. However, there is no comprehensive systematic vision based on these core principles of government. Rather, most approaches are patches on symptoms produced by not adhering to these fundamental principles in the first place.

An Honest Answer to the We the People (WTP) Petition for Redress of Grievances, Form #08.029 Sovereignty Education and Defense Ministry (SEDM),2024-05-06 Describes a way forward to lawfully stop paying income taxes that is completely consistent with the evidence of government illegal tax enforcement presented at the We the People Truth in Taxation Hearing in 2002.

When Texas Prison Scams Religion Michael G. Maness,2023-05-22 When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that “buys faith with favor” from prisoners. The state veritably ordains the prisoner a “Field Minister” that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ’s executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his “100,000 Mothers’ 1% Certainty Parole Texas Constitutional Amendment,” which would revolutionize prison culture and save Texans millions of the dollars.

Atlas Shrugged Ayn Rand,1992 Ayn Rand's epochal novel, first published in1957, has been a bestseller for more than fourdecades as well as an intellectual landmark. Itis the story of a man who said that he wouldstop the motor of the world--

and did. Was he a destroyer or the greatest of liberators? Why did he have to fight his battle, not against his enemies but against those who needed him most--and his hardest battle against the woman he loved? What is the world's motor--and the motive power of every man? Tremendous in its scope, this novel presents an astounding panorama of human life--from the productive genius who becomes a worthless playboy...to the great steel industrialist who does not know that he is working for his own destruction...to the philosopher who becomes a pirate...to the woman who runs a transcontinental railroad...to the lowest trackworker in her Terminal tunnels. Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, *Atlas Shrugged* is Ayn Rand's masterpiece. It is a philosophical revolution told in the form of an action thriller.

The Power of Projections Arthur Jay Klinghoffer, 2006-04-30 Why is Europe at the top half of maps and Africa at the bottom? Although we are accustomed to that convention, it is, in fact, a politically motivated, almost entirely subjective way of depicting a ball spinning in space. As *The Power of Projections* teaches us, maps do not portray reality, only interpretations of it. To begin with, they are two-dimensional projections of a three-dimensional, spherical Earth. Add to that the fact that every map is made for a purpose and its design tends to reflect that purpose. Finally, a map is often a psychological projection of the historical, political, and cultural values of the cartographer—or of the nation, person or organization for which the map was created. In this fascinating book, Klinghoffer examines the world perceptions of various civilizations and the ways in which maps have been formulated to serve the agendas of cartographers and their patrons. He analyzes the recent decline of sovereignty, the spread of globalization, the reassertion of ethnic identity, and how these trends affect contemporary mapmaking.

Knowledge & Power in the Global Economy David Gabbard, 2008 The second edition of *Knowledge and Power in the Global Economy* examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools. It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management, teaching, and learning, as well as how they have transformed the external dynamics of education from a public

good or service offered to serve public interests to a private enterprise primarily serving private interests. In addition to information, critique, and analysis, multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines. The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s—critiquing its vocabulary, elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum, and introducing ideas associated with alternative and liberatory educational projects. Since its publication in 2000, policy developments, such as the No Child Left Behind Act of 2001 in the U.S. and others in the U.K. and other parts of the world, have nationalized and intensified these patterns, deepening the logic and extent of neoliberalism's hold over educational reforms. At the same time, it is impossible to understand the current crises in education solely in terms of neoliberalism; the impact of neoconservatism must also be considered. Hence this second edition has a new subtitle: *The Effects of School Reform in a Neoliberal/Neoconservative Age*. This edition is structured around five themes: *Political and Social Foundations; *Anti-Educational Foundations: The Set-Up; *Anti-Educational Foundations: The Trap; *Classroom Consequences; and *Democracy's Path. This volume will particularly interest scholars and professionals across the fields of educational foundations, curriculum theory, and educational policy, and is well suited as a text for courses in these areas.
