El lector tambien ver que ni los dioses, ni las divinas vrgenes paridoras de muchachitos, ni los poderes sobrenaturales existen. Adems, el lector ver que la historia del clavado Jesucristo es un embuste milenario. Igualmente, el lector podr ver varias explicaciones cientficas que demuestran que las creencias en los inexistentes dioses y en los poderes sobrenaturales son unas acciones sin sentido que, en muchas ocasiones, son demostrativas de enfermedades mentales. En definitiva, el que lea este libro se percatar de que las embrutecedoras religiones son fraudes legalizados.

The Reception of Positivism in Spain José Franco-Chasán,2023-11-24 Pedro Dorado Montero was one of Spain's most relevant authors. He contributed to modern Criminal law and Penology with a very unique theory: the Protective Law for Criminals. In a time when neoclassical penal theories and new positivist theories clashed, Dorado Montero's proposal served as a bridge between the criminal law conceptions of the 19th and 20th centuries. In order to explore his role in the introduction of positivism within Spain and the subsequent success of this trend, this book addresses several aspects. The first three analyzed are his scholarly career, the historical and international context in which he lived, and the various European and other international influences he was exposed to. On this basis, two major points are then discussed. Firstly, Dorado Montero has been traditionally included within the movement known as correccionalismo. However, his legal-philosophical and criminal thought indicates otherwise. It seems to lie closer to positivism than to neoclassical positions. This research aims at challenging the accuracy of the 'eclectic' label which traditional historiography has applied to him. In turn, Dorado Montero described a reality in which every moral value and legal representation was a mere product of mankind's

imagination. Man is responsible for the elaboration of morals, law and culture in his own mind. Thus, for him, there were as many moral and legal orders as there were human beings on the planet. Such a claim is polemic even today. Unsurprisingly, the author received criticism from both neoclassical and positivist schools. Thus, the existence of a 'Doradian positivism' is explored. Despite the growing interest in these topics over the last few decades, Dorado Montero has somehow been overlooked – even though his Derecho protector de los criminales described the criminal law of the future as well, one that will have to face the new neurological, medical, psychological and genetic challenges of our time.

Otras historias de procesalistas y del proceso. Manuel Cachón Cadenas,2022-08-05 Esta obra es complemento y continuación del libro del mismo autor Historias de procesalistas, universidades y una guerra civil (1900-1950) (Universidad Carlos III de Madrid/ed. Dykinson, Madrid, 2012), e incluye diversos trabajos elaborados en los últimos años y referidos a procesalistas del pasado más o menos reciente. A estos efectos, el concepto de procesalista se entiende en sentido amplio, que comprende no sólo a los juristas que se dedicaron profesionalmente a esta materia, sino también a otros juristas que, con reiteración o de forma ocasional, publicaron estudios de contenido procesal. En algunos de estos trabajos se ha procurado reconstruir la trayectoria vital, académica y científica de algún procesalista. Otros escritos se ocupan de hechos concretos concernientes a la vida de un procesalista determinado que han tenido una especial incidencia en la historia del Derecho Procesal. Asimismo, se insertan varios estudios en los que, sin hacer referencia a un concreto procesalista, se analizan diferentes cuestiones procesales que preocuparon a nuestros antepasados, contribuyeron a configurar el sistema procesal actual y pueden ayudar a entenderlo. El objetivo principal de la recopilación es facilitar la búsqueda de los trabajos compilados a aquellos lectores que puedan estar interesados en las cuestiones tratadas en los correspondientes escritos. En la Nota de edición que figura en la parte final del libro, se indican las publicaciones en las que vieron la luz los estudios reunidos en esta obra, manteniéndose íntegramente la versión con la que fueron publicados. Los trabajos compilados se atienen al orden cronológico de los hechos que se estudian en cada uno de ellos.

Researching Social Media with Children Antonio Silva Esquinas,Jorge Ramiro Pérez Suárez,Raquel Rebeca Cordero Verdugo,Julio Díaz Galán,2024-08-01 Reflecting on the methodological issues involved in researching digital spaces with children, this book shares good practices and delves into the ethics of such research. Social media has completely redefined how children and young people relate to each other, express themselves, and present their identities and sexualities. Yet researching social media can be a difficult and daunting task given the ephemerality of the content, its contextual hyperspecificity, the complex power relationships between users, celebrity culture, digital capitalism, and the ethical issues that arise from the reimagining of the public/private space. Using digital ethnography and creative digital storytelling

workshops with children and young people aged 13-15 and 13-18 on TikTok, Instagram, and Twitch, this book studies their interactions, language, codes, the risks they take, and the victimizations they suffer. Researching Social Media with Children will be of use to social scientists conducting online research, and to students and scholars of media studies, digital criminology, psychology, and sociology. [The authors draw on experiences from studies carried out in Spain on children and social media by the Knowledge-Research Group on Social Problems at Universidad Europea de Madrid.]

Modern Argentine Poetry Ben Bollig, 2011-06-15 This book is the first to focus specifically on the exile-poetry link in the case of Argentina since the 1950s. Throughout Argentina's history, authors and important political figures have lived and written in exile. Thus exile is both a vital theme and a practical condition for Argentine letters, yet conversely, contemporary Argentina is a nation of immigrants from Europe and the rest of Latin America. Poetry is often perceived as the least directly political of genres, yet political and other forms of exile have impinged equally on the lives of poets as on any group. This study concentrates on writers who both regarded themselves as in some way exiled and who wrote about exile. This selection includes poets who are influential and recognised, but in general have not enjoyed the detailed study that they deserve: Alejandra Pizarnik, Juan Gelman, Osvaldo Lamborghini, Nestor Perlongher, Sergio Raimondi, Cristian Aliaga, and Washington Cucurto.

Criptomonedas y Criminalidad , En la sociedad digital, las criptomonedas, especialmente Bitcoin, han emergido como una tecnología disruptiva que plantea retos significativos en el ámbito de la seguridad y la criminalidad. Inicialmente diseñadas como un sistema descentralizado y anónimo para garantizar la privacidad financiera, sus características técnicas también han facilitado su adopción en actividades ilícitas como el blanqueo de capitales, estafas, ataques ransomware y criminalidad organizada. A pesar de su notoriedad en el ámbito delictivo, todavía no se comprenden completamente las motivaciones que llevan a los delincuentes a utilizar estas herramientas, ni se ha establecido con claridad si su uso resulta indispensable para la comisión de determinados delitos. En esta obra se aborda el uso criminal de las criptomonedas desde una perspectiva criminológica, con el objetivo de ofrecer una visión integral del fenómeno. A través de una metodología mixta que combina enfoques cualitativos y cuantitativos, se desarrollan cuatro estudios específicos que analizan los perfiles de los autores, las características de las víctimas, los tipos de delitos implicados y las motivaciones subyacentes al uso de criptomonedas en actividades delictivas. Los hallazgos obtenidos evidencian cómo los delincuentes, desde grandes organizaciones hasta individuos autodidactas, han logrado adaptarse a las nuevas tecnologías para perfeccionar sus métodos y aprovechar las ventajas ofrecidas por las criptomonedas, tanto en delitos tradicionales como en aquellos ciberdependientes. Asimismo, se destaca que la elección de esta tecnología no siempre responde exclusivamente a su anonimato y descentralización, sino también a factores como la rentabilidad para el negocio criminal. En conjunto, este análisis proporciona una base para comprender mejor el papel de las criptomonedas en la criminalidad contemporánea y para guiar el desarrollo de estrategias

más efectivas de detección, persecución y prevención.

Literary Capitals in the Long Nineteenth Century Arunima Bhattacharya, Richard Hibbitt, Laura Scuriatti, 2022-12-13 This book develops our understanding of the global literary field in the long nineteenth century by discussing nine different places outside the established metropolises. It shows how different economic, geographical and political factors combined to give each place its own distinctive literary culture and symbolic capital. Taking a geocritical approach, the book shows how its different case studies can be seen as 'literary capitals' in terms of their role within the wider nation, region or empire. The volume is divided into three parts. Part One discusses Kolkata, Hong Kong and Buenos Aires. Part Two considers 'semi-peripheral' European cities: Pest-Buda (Budapest), Helsinki and Dublin. Part Three focuses on cities within Italy: Trieste, Florence and Rome. Drawing on a wide range of literary texts and different genres, the book reads the nineteenth-century literary field as a constellation where different connections can be plotted across various points on the map at different times.
