Paul McCartney Philip Norman, 2016-05-03 The definitive Paul McCartney biography, written with his approval by bestselling biographer Philip Norman. Since the age of twenty-one, Paul McCartney has lived one of the ultimate rock-n-roll lives played out on the most public of stages. Now, Paul's story is told by rock music's foremost biographer, with McCartney's consent and access to family members and close friends who have never spoken on the record before. Paul McCartney reveals the complex character behind the façade and sheds new light on his childhood -- blighted by his mother's death but redeemed by the father who introduced him to music. This is the first definitive account of Paul's often troubled partnership with John Lennon, his personal trauma after the Beatles' breakup, and his subsequent struggle to get back to the top with Wings -- which nearly got him murdered in Africa and brought him nine days in a Tokyo jail. Readers will learn about his marriage to Linda, including their much-criticized musical collaboration, and a moving account of her death. Packed with

new information and critical insights, Paul McCartney will be the definitive biography of a musical legend.

Pop Music Made in Småland Martin Knust,2025-03-21 Using interviews with and academic studies of the careers of internationally-famous music producers and music industry professionals from Småland, Sweden, this open access book studies the history and present state of pop music production and entrepreneurship. An exceptionally high number of established and emerging pop artists and producers from this region of Sweden have had significant success on the international stage. This book describes how the situation for music producers and artists from Småland has changed during the past 50 years or so, starting in the 1970s with the so-called 'Swedish music wonder' and ending with the situation contemporary artists and entrepreneurs are facing. The field has changed massively both in terms of technology (from analogue to digital), social production (from individual productions to collective projects), distribution and marketing (from selling concert tickets and LPs to creating "prosuming" fanbases and multipronged careers considering genres, venues and activities). This book will be of interest to students of and professionals in music production; music, economy and media scholars; readers active in creative industries; and fans of (Swedish) pop music.
