Where in the World is the Berlin Wall? Anna Kaminsky, 2014-11-09 A symbol of freedom, of the human strength of will and a relic of the Cold War. Countless pieces of the Berlin Wall were scattered around the globe after the Wall fell in 1989. These pieces of Wall embody the Berliners fight for freedom. More than 240 of these sections - each weighing tonnes - can be found in over 140 countries and on every continent. They have been located for this book. Amongst those who now own sections of the Wall are Japanese businessmen, famous art collectors and all US Presidents from the last century. There are some exciting and strange, but also tragic stories behind the pieces of the Wall. The stories in this book highlight the many ways in which the Wall has been used to commemorate the Berlin Wall and the Cold War.

The Mnemonic Warriors of the European Far Right Joanna Sondel-Cedarmas, Grzegorz Pożarlik, 2025-12-16 The Mnemonic Warriors of the European Far Right is a comparative analysis of the politics and policy of memory as seen through the conceptual lens of Pierre Nora's lieux de mémoire. More specifically, the research in this volume is carried out through the prism of national-populist and conservative-sovereignist narratives in the Western, Central, and Eastern European public sphere. The overall aim of this book is to examine how the European populist far right, both the governing elites and those operating on the fringes of mainstream politics, has adopted the instrumentalization of 20th-century authoritarian and totalitarian lieux de mémoire to boost their political legitimacy. The contributors to this volume explore critically the interplay between politics and collective memory, the role of historical myths in shaping collective consciousness, and the manipulation mechanisms of political communication aimed at monopolizing the "real" memory of the past. They explore how different and sometimes mutually exclusive narratives about "places of memory" interact in the public sphere of societies that have experienced non-democratic regimes in their history. This volume will be of interest to researchers of European history and politics, the far right, populism, and memory studies.

Comparative Central European Holocaust Studies Louise Olga Vasvári, Steven Tötösy de Zepetnek, 2009 The work presented in the volume in fields of the humanities and social sciences is based on 1) the notion of the existence and the describability and analysis of a culture (including, e.g., history, literature, society, the arts, etc.) specific of/to the region designated as Central Europe, 2) the relevance of a field designated as Central European Holocaust studies, and 3) the

relevance, in the study of culture, of the comparative and contextual approach designated as comparative cultural studies. Papers in the volume are by scholars working in Holocaust Studies in Australia, Germany, Hungary, Israel, Serbia, the United Kingdom, and the US.

Antisemitism in Eastern Europe Hans-Christian Petersen, Samuel Salzborn, 2010 Europe is expanding - and therewith remembers its historical basis, which was hidden beneath the shadow of the Cold War for a long time. This return of a common history which is mostly narrated as a history of success today, however contains the perception of transnational traditions at the same time which by contrast should give reason for a critical self-reflection. This volume gives an impulse through a comparative examination of the still highly actual forms of antisemitism in Europe. The focus will be on the developments in the countries from the Baltic States to South Eastern Europe, which usually are little known in Western Europe. At the same time, the specificities of antisemitism in Eastern Europe are incorporated in the theoretical insights of antisemitism research, thus filling a gap that has existed until now.
