JR Anderson

An Introduction to Animals and Visual Culture R. Malamud, 2012-05-30 A fascinating exploration of the way in which animals are 'framed' - contextualized, decontextualized - in contemporary visual culture. Written in a highly engaging style, this book challenges the field, dealing with some highly controversial aspects of animal exploitation and boldly examines material that is seldom discussed within animal studies.

Controversial Images Feona Attwood, Vincent Campbell, I.Q. Hunter, Sharon Lockyer, 2015-12-26 Offering a series of case studies of recent media controversies, this collection draws on new perspectives in cultural studies to consider a wide variety of images. The book suggest how we might achieve a more subtle understanding of controversial images and negotiate the difficult terrain of the new media landscape.

Elementary Biology, Plant, Animal, Human James Edward Peabody, Arthur Ellsworth Hunt, 1912

Body Gothic Xavier Aldana Reyes, 2014 *Body Gothic* assesses the role and relevance of corporeal transgression in literature and film of the last three decades, from splatterpunk and body horror to torture porn and surgical horror.

A Cultural History of Animals: In the modern age Linda Kalof, Brigitte Pohl-Resl, 2007 Choice Outstanding Academic Title, 2008 HARDBACK SET A Cultural History of Animals is a multi-volume project on the history of human-animal relations from ancient times to the present. The set of six volumes covers 4500 years of human-animal interaction. Volume 1: Antiquity to the Dark Ages (2500BC - 1000AD) Volume 2: The Medieval Age (1000-1400) Volume 3: The Renaissance (1400-1600) Volume 4: The Enlightenment (1600-1800) Volume 5: The Age of Empire (1800-1920) Volume 6: The Modern Age (1920-2000, including a discussion of animals of the future) As the same issues are central to animal-human relations throughout history, each volume shares the same structure, with chapters in each volume analysing the same issues and themes. In this way each volume can be read individually to cover a specific period and individual chapters can be read across volumes to follow a theme across history. Each volume explores: the sacred and the symbolic (totem, sacrifice, status and popular beliefs), hunting; domestication (taming, breeding, labour and companionship); entertainment and exhibitions (the menagerie, zoos, circuses and carnivals); science and specimens (research, education, collections and museums); philosophical beliefs; and artistic representations. The full six volume set combines to present the most authoritative and comprehensive survey available on animals through history. INDIVIDUAL VOLUMES AVAILABLE

Blood In The Cage L. Jon Wertheim,2024-02-27 Based on unique access to the Ultimate Fighting Championship (UFC) and its rival organizations, Blood in the Cage peers through the chain-link Octagon into the frighteningly seductive world of mixed martial arts, which has exploded in popularity despite resistance. Wertheim focuses on Pat Miletich, who runs the most famous MMA training school in the world. Single-handedly Miletich has transformed a gritty town on the Mississippi into an unlikely hotbed for his sport. He has also transformed many an average Joe into a walking weapon of destruction. Wertheim intertwines Miletich's own life story, by turns tragic and triumphant, with the larger story of the unholy rise of the UFC, from its controversial, back alley roots to the fastest-growing sports enterprise in America. Blood in the Cage takes readers behind the scenes, right down to the mat, from a punch in the kidney to the ping of the cash register, as Wertheim brilliantly exposes the no-holds-barred reality of the blood sport for a new generation.
