58 indicios sobre el cuerpo Jean-Luc Nancy, 2007

Estremecimientos de lo real: Ignacio Gárate Martínez, José-Miguel Marinas Herreras, Atxen Garmendia Guinea, Candela Zurro, Cosimo Santese, Jeannet Quiroz Bautista, Flor de María Gamboa Solís, Hada Soria Escalante, Ma. del Pilar Famoso Pérez, Ana Cecilia González, Begonya Saez Tajafuerce, Alfredo Emilio Huerta Arellano, Raúl Ernesto García Rodríguez, David Pavón Cuéllar, Laura Albarrán Díaz, Karla Aguirre, Martín Alcalá, 2012-12-31 Un poema me estremece, me estremece en el cuerpo con violencia. Supone lo fulminante y definitivo de todo acto de violencia. Es el poema de Federico García Lorca denominado "Suicidio". Dibuja la experiencia de ese adolescente que "con un hacha rompió el espejo. Al romperlo, un gran chorro de sombra, inundó la quimérica alcoba". La violencia en el cuerpo y el cuerpo sacudido por la violencia notifican la ruptura de espejos y palabras. Con estela de sangre y estela de sombras inundan nuestra cotidianidad, nuestros vínculos y nuestros sueños de convivencia interhumana. Frente al vendaval de la violencia, en su diversificación y espectro de horror, concebimos la asociación como táctica y la solidaridad como estrategia. Asociación preferentemente "libre", como la del método de la cura analítica para una praxis de la interpretación y solidaridad como ejercicio de auténtica responsabilidad social. Asociación en la perspectiva de la diferencia y la heterogeneidad y estrategia creativa y crítica. Paradigmáticamente, se asocian Freud y Einstein para reflexionar y debatir los argumentos políticos del odio ciego de la intolerancia como motivación bélica.

Jonathan Edwards Harold P. Simonson, 2020-06-08 Esta obra es un instrumento tremendamente útil que beneficiará tanto su intelecto como su espíritu. Habla de Jonathan Edwards, un teólogo norteamericano del siglo XVIII, un personaje que ha conformado en gran medida la vida intelectual y religiosa de muchas personas hasta nuestros tiempos, y que ha influido

en ella. En este estudio, el profesor Simonson se centra en diversas maneras esenciales para comprender y describir el camino a la salvación tal como lo expuso Edwards, incluyendo la narrativa, la experiencia y, un rasgo aún más distintivo de Edwards, los afectos.

The Global Community Yearbook Of International Law and Jurisprudence 2016 Giuliana Ziccardi

Capaldo,2017-08-28 The Global Community Yearbook is a one-stop resource for all researchers studying international law generally or international tribunals specifically. The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence. It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal order from several perspectives. The Global Community Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary. The general editor, Professor Giuliana Ziccardi Capaldo, employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay-guides, which illuminate those cases. Although the main focus is recent case law from the major international tribunals and regional courts, the first four parts of each year's edition features expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy, themes that appear throughout the case law of the many courts covered by the series as a whole. The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence: the series now also serves to prepare researchers for the issues facing emerging global law. The 2016 edition of The Global Community Yearbook both updates readers on the important work of long-standing international tribunals and introduces readers to more novel topics in international law. The Yearbook has established itself as an authoritative resource for research and guidance on the jurisprudence of U.N.-based tribunals and regional courts. The 2016 edition continues to provide expert coverage of the EU Court of Justice and diverse tribunals from the International Court of Justice (ICJ) to criminal tribunals such as the International Criminal Court (ICC) and the Tribunals for the Former Yugoslavia and Rwanda, to economically based tribunals such as ICSID and the WTO Dispute Resolution panel, to human rights courts

such as ECtHR and IACtHR. This edition contains original research articles on the development and analysis of the concept of global law and the views of the global law theorists, such as the Editorial focusing on a new remedy for the violation of the jus cogens principle concerning the imprescriptibility of torture. This edition also includes expert introductory essays by prominent scholars in the realm of international law, on topics as diverse and current as the role of the WTO's Appellate Body in interpreting the TRIPS Agreement and an examination of the EU Court of Justice data protection framework in light of the EU Charter of Fundamental Rights. Researchers will find detailed guidance on a rich diversity of legal topics, from an examination of the processes under which transnational criminal law norms have been adopted and the process under which these norms have been globally implemented, to the impact post-conviction DNA testing has had on the criminal justice system in the United States. This edition also provides students, scholars, and practitioners a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates. This publication can also be purchased on a standing order basis.

La ciencia del yoga William J. Broad,2014-06-03 El yoga se ha convertido en el oxígeno del alma moderna que vive a toda velocidad por el ritmo de la vida cotidiana. Sus bondades recorren todo el mundo y cada vez hay más maestros que enseñan la disciplina. Sin embargo, esta creciente popularidad puede conllevar la banalización de la técnica y la exageración de sus efectos. William J. Broad, periodista científico y practicante habitual de yoga desde hace más de treinta años, se respalda en la ciencia para separar lo que resulta realmente efectivo de lo que sólo es una falsa creencia, y revisa con riguroso espíritu científico las supuestas transformaciones del cuerpo y del alma que produce el yoga: la curación emocional, la tonificación muscular, la remisión de las depresiones o la exaltación del placer sexual. Así, con un enfoque eminentemente práctico, Broad compila todo el conocimiento actual sobre el yoga e ilustra las principales posturas y técnicas que previenen lesiones y malas prácticas, centrándose en lo que la ciencia nos dice del yoga. «Este libro pretende superar la confusión que rodea al yoga moderno y explicar qué nos dice la ciencia al respecto. Desentraña más de un siglo de numerosas investigaciones para distinguir entre lo que es verdad y lo que no, qué ayuda y qué perjudica y, lo que es casi tan importante, por qué.»
