

Kids Remembering Past Lives

Bruce N. Waller

Children Who Remember Past Lives Ana del Río, 2016-04-28 In this introductory book about children who seem to remember past lives, the author takes readers on a tour through the most significant cases compiled in the scientific reincarnation literature. She also gives parents practical guidelines so that they can help their child, in case they suspect he has begun to talk about a past life. Finally, the possible explanations of this phenomenon are analyzed, based on the most recent investigations dealing with the survival of consciousness after death, always using a straightforward and readable language, comprehensible for all audiences. The conclusions won't leave you indifferent.

Children's Past Lives Carol Bowman, 2012-02-01 Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young son, Chase, described his own past-life death on a Civil War battlefield--an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In *Children's Past Lives*, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents on how to respond to a past life memory, and shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, *Children's Past Lives* will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death.

Children Who Have Lived Before Trutz Hardo, 2012-01-31 In this book, children from all around the world remember their past lives, and eminent scientists explain how many of these children's stories have been followed up to verify whether their statements have any foundation in fact. Incredibly, when subjected to scientific investigation, children's memories about their past lives can invariably be confirmed in every detail. Supported by overwhelming scientific evidence, the children's stories in this book suggest that reincarnation is a reality for us all. Whether they are from England, Europe, the USA, Lebanon, South Africa, Israel, India, Brazil, Sri Lanka or Turkey, children who have lived before offer us insights into our

global future, as well as profound messages from our collective past. This book is a must for anyone interested in the subject of reincarnation. '[Trutz Hardo presents] convincing evidence on reincarnation that will even give the toughest sceptic much to think about. I hope that finally many readers will learn the truth of reincarnation' Elizabeth Kübler-Ross, author of 'On Death and Dying'

Children's Past Lives Carol Bowman,1997 This text reveals how the author discovered the source of her own children's fears, and how that discovery led her to identify and research the evidence of past life experience in children. Using dramatic true-life cases, Bowman illustrates the effects of past lives, and the relief that remembering can bring. Bowman also offers guidelines to parents to show them how to receive their children's memories, and how to distinguish true memories from fantasies in order to promote their children's healing.

The Secret Life of Kids James W. Peterson,2000-10-29 It all began when James Peterson was a camp counselor and two children, watching him meditate, described the colors they saw around his form: "...we saw colors coming out of his stomach. And the outside was purple, then it was blue, then it was yellow, then reddish and light yellow in the middle." Studies indicate that almost seven percent of young children have such psychic experiences. For the most part, they don't tell anybody about them for fear of being ridiculed. But the author believes it would be psychologically healthy for them to relate such occurrences to adults if they feel the need. In this book Peterson has put together a charming collection of case-histories about such psychic episodes. He believes they should be accepted as factual: that frequently they emanate from the "wisdom of innocence" present in youngsters. The question of the secret life of kids is examined by Peterson from the point of view of philosophy, occultism, and child psychology. He suggests why and how such experiences manifest, and their potential value to the child's growth pattern.

Conversations With the Children of Now Meg Blackburn Losey,2008-02-15 Psychically gifted children share their perspectives on a variety of topics in this enlightening work by the author of *The Children of Now*. This stunning book introduces the world to some of the very special and gifted children who were described in Meg Blackburn Losey's *The Children of Now*. *The Children of Now* changed paradigms of how we raise, teach, and nurture our children, and created awareness that ADD, ADHD, and autism just might not be what we thought. The book touched parents, teachers, and caregivers all over the world. Now, in *Conversations with the Children of Now*, Dr. Meg goes even further to spotlight some of the Children of Now and others who have come forward since the first book was released. Intricately woven conversations with Indigo Children, Crystalline Children, Star Kids, and Transitional Kids reveal the hearts and souls of our future generation. These real children share their feelings and perceptions about themselves and our world. Hear, in their own words: Who they really are Where they come from Why they are here, and what they have come to share with humanity What they know about God, and about Living and Dying What they know about the healing of hearts and souls, and of bodies and

minds What will happen in the 2012 shift These children speak about past lives, other worlds, forgotten gifts, and unconditional love as a way of being. They show how we can change our world with grace. They also reveal how we can guide them, nurture them, and allow them to become the great human beings they were destined to become!

Finding Hope When a Child Dies Sukie Miller,2002-08-12 A renowned psychotherapist offers parents who have suffered the death of a child a new context for understanding and coping with their loss. Miller draws on years of research to present a wide-ranging look at the rituals parents practice around the world to understand both why their child has died and to find a comforting explanation for what happens to children after death.

Beyond Thought Yuvraj Sahu,2025-04-05 What exists beyond the barrier of thought? Beyond Thought is the exploration of mind, reality, and unseen forces that form one's existence. Is your soul craving to go further beyond thought?

Wise Child Amy Molloy,2025-04-01 What if the key to raising confident, happy, grounded children was tapping into their innate wisdom? Welcome to a new era of 'past life parenting.' Today's young people are not like any generations before them. They are sensitive, intuitive and shockingly eloquent. According to research, many can also recall past life memories. Meet 'Generation Reincarnation'-and they want us to listen to them. So, how can we 'see' them? Enter Amy Molloy, award-winning journalist and mother of three. After the birth of her son, she found herself in a past life session, partly out of curiosity and, partly, desperation. An hour later, she walked out with a blueprint of how to parent her children. Once she looked back, everything changed. Through extensive interviews with experts (including kids!), Wise Child offers a radical way to raise toddlers, children and teens that has the power to offer instant relief to caregivers and children. Learn how to: Listen to your children's chatter without frustration. Reframe issues around sleep, phobias and allergies. Appreciate your child's differences and stop comparing. Talk to your child about love, loss and separation. Stop fearing the passing of time. Celebrate neurodivergence as a spiritual gift. Remember our children are sent to inspire and expand us. Whether you have a big-feeling child, a boundary-tester or a teen that doesn't seem to fit in, this is your permission slip to trust them-and your own capabilities. When you'd usually run out of patience, compassion and energy, past life parenting can extend your inner resources. Plus, it makes life a lot more fun. There's a huge relief when you realise that a parent doesn't need all the answers-and that a child has more answers than we think they do.

The Secret Women Sheila Williams,2020-06-09 "This big-hearted, authentic portrayal of both friendship among middle-aged women and the mother-daughter bond will appeal to fans of Terry McMillan." —Booklist Elise Armstrong, Carmen Bradshaw, and DeeDee Davis meet in a yoga class. Though vastly different, these women discover they all have one thing in

common: their mothers have recently passed away. Becoming fast friends, the trio make a pact to help each other sort through the belongings their mothers' left behind. But when they find old letters and diaries, Elise, Carmen, and DeeDee are astonished to learn that each of their mothers hid secrets—secrets that will transform their own lives. Meeting each month over margaritas, the trio share laughter, advice, and support. As they help each other overcome challenges and celebrate successes, Elise, Carmen, and DeeDee gain not only a better understanding of the women their mothers were, but of themselves. They also come to realize they have what their mothers needed most but did not have during difficult times—other women they could trust. Filled with poignant life lessons, *The Secret Women* pays tribute to the power of friendship and family and the bonds that tie us together. Beautiful, full of spirit and heart, it is a thoughtful and ultimately uplifting story of unconditional love. “A moving examination of the complexities of motherhood and the strength of female friendship.” —Kirkus Reviews
