*A Beginner's Guide to Introduce Artificial Intelligence in Teaching and Learning* Muralidhar Kurni, Mujeeb Shaik Mohammed, Srinivasa K G, 2023-06-28 This book reimagines education in today's Artificial Intelligence (AI) world and the Fourth Industrial Revolution. Artificial intelligence will drastically affect every industry and sector, and education is no exception. This book aims at how AI may impact the teaching and learning process in education. This book is designed to demystify AI for teachers and learners. This book will help improve education and support institutions in the phenomena of the emergence of AI in teaching and learning. This book presents a comprehensive study of how AI improves teaching and learning, from AI-based learning platforms to AI-assisted proctored examinations. This book provides educators, learners, and administrators on how AI makes sense in their everyday practice. Describing the application of AI in ten key aspects, this comprehensive volume prepares educational leaders, designers, researchers, and policymakers to effectively rethink the teaching and learning process and environments that students need to thrive. The readers of this book never fall behind the fast pace and promising innovations of today's most advanced learning technology.

**English Language Learning Materials** Brian Tomlinson, 2008-03-17 This research collection presents a critical review of the materials used for learning English around the world. The first section includes a discussion of materials for specific

learners and purposes, such as young learners, self-study, academic writing and general proficiency. The second section presents a detailed study of the materials used in Europe, Asia, North America, South America, Africa and Australia, and critically evaluates their effectiveness in the teaching of English to speakers of other languages. Taking both the teacher's and the learner's needs into consideration, the book makes a positive contribution to the future of research in materials development, and has practical applications. This comprehensive, critical analysis of materials in use around the world will be useful for academics researching materials development and applied linguistics and for students on post-graduate applied linguistics and ELT courses.

**Enhancing Beginner-Level Foreign Language Education for Adult Learners** Ekaterina Nemtchinova, 2022-12-30  
This book is an authoritative text that explores best classroom practices for engaging adult learners in beginner-level foreign language courses. Built around a diverse range of international research studies and conceptual articles, the book covers four key issues in teaching language to novice students: development of linguistic skills, communicative and intercultural competence, evaluation and assessment, and the use of technology. Each chapter includes teaching insights that are supported by critical research and can be practically applied across languages to enhance instructional strategies and curriculum designs. The text also aims to build intercultural competence, harness technology, and design assessment to stimulate effective learning in formal instructional settings, including colleges, universities, and specialist language schools. With its broad coverage of language pedagogy at the novice level, this book is a must read for graduate students, scholars, researchers, and practitioners in the fields of language education, second language acquisition, language teaching and learning, and applied linguistics.
