Paper Towns John Green, 2013 From the bestselling author of *The Fault in our Stars* and *Looking for Alaska*, now a major TV series Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.

Community Data Rahul Bhargava, 2024-11-04 Community Data offers a new toolkit for data storytelling in community settings, one purpose-built for goals like inclusion, empowerment, and impact. Data science and visualization has spread into new domains it was designed for - community organizing, education, journalism, civic governance, and more. The dominant computational methods and processes, which have not changed in response, are causing significant discriminatory and harmful impacts, documented by leading scholars across a variety of populations. Informed by 15 years of collaborations in academic and professional settings with nonprofits and marginalized populations, the book articulates a new approach for aligning the processes and media of data work with social good outcomes, learning from the practices of newspapers, museums, community groups, artists, and libraries. This book introduces a community-driven framework as a response to the urgent need to realign data theories and methods around justice and empowerment to avoid further replicating harmful power dynamics and ensure everyone has a seat at the table in data-centered community processes. It offers a broader toolbox for working with data and presenting it, pushing beyond the limited vocabulary of surveys, spreadsheets, charts and graphs.

Beyond the Blockbusters Rebekah Fitzsimmons, Casey Alane Wilson, 2020-03-18 Contributions by Megan Brown, Jill Coste, Sara K. Day, Rachel Dean-Ruzicka, Rebekah Fitzsimmons, Amber Gray, Roxanne Harde, Tom Jesse, Heidi Jones, Kaylee Jangula Mootz, Leah Phillips, Rachel L. Rickard Rebellino, S. R. Toliver, Jason Vanfosson, Sarah E. Whitney, and Casey Alane Wilson While critical and popular attention afforded to twenty-first-century young adult literature has exponentially increased in recent years, classroom materials and scholarship have remained static in focus and slight in

scope. *Twilight*, *The Hunger Games*, *The Fault in Our Stars*, and *The Hate U Give* overwhelm conversations among scholars and critics—but these are far from the only texts in need of analysis. *Beyond the Blockbusters: Themes and Trends in Contemporary Young Adult Fiction* offers a necessary remedy to this limiting perspective, bringing together essays about the many subgenres, themes, and character types that have until now been overlooked. The collection tackles a diverse range of topics—modern updates to the marriage plot; fairy tale retellings in dystopian settings; stories of extrajudicial police killings and racial justice. The approaches are united, though, by a commitment to exploring the large-scale generic and theoretical structures at work in each set of texts. As a collection, *Beyond the Blockbusters* is an exciting entryway into a field that continues to grow and change even as its works captivate massive audiences. It will prove a crucial addition to the library of any scholar or instructor of young adult literature.

The State of Asian Cities 2010/11 ,2010 The report throws new light on current issues and challenges which national and local governments, the business sector and organised civil society are facing. On top of putting forward a number of recommendations, this report testifies to the wealth of good, innovative practice that countries of all sizes and development stages have accumulated across the region. It shows us that sustainable human settlements are within reach, and that cooperation between public authorities, the private and the voluntary sectors is the key to success. This report highlights a number of critical issues - demographic and economic trends, poverty and inequality, the environment, climate change and urban governance and management.

Urbanization and Industrialization for Africa's Transformation ,2017 The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization. Urbanization is one of Africa mega trends with profound implications for the social, economic, environmental dimensions of growth and transformation. Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes. It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa. So far, current policy narratives and frameworks on structural transformation and industrialization in Africa have largely failed to factor in the spatial and urban dimensions of industrialization, and in particular the advantages presented by productivity enhancement and agglomeration effects generated by cities. Yet, the nexus between urbanization and industrialization is of particular relevance for Agenda 2063 and the 2030 Agenda on Sustainable Development. Both agendas recognize urbanization as a critical factor for sustainable development. It is also important to consider urbanization and industrialization in light of Africa's engagement with the Third United Nations Conference on Housing and Sustainable Urban Development (Habitat III) to be held in Quito, Ecuador in October 2016. In this context, African policy makers have clearly recognized urbanization as an engine of structural transformation for inclusive and sustainable growth.
