Social Media in the Changing Mathematics Classroom Johann Engelbrecht, Greg Oates, Marcelo de Carvalho Borba, 2025-04-16 This edited volume gathers contributions from international scholars focusing on social media's role and impact on mathematics education. Social media's integration into pedagogical strategies (from social networking sites to video-sharing platforms) offers the opportunity to enhance learning by fostering connectivity and engagement among students, ultimately improving mathematical understanding in educational settings. This text aims to provide guidance on the facilitation of peer learning and collaboration, as well as highlighting the necessary shift in traditional methods to include cyber assistance in the learning process. The book discusses how social media aligns with social-constructivist theories of learning, its consistency with the process of developing students into independent learners and provides means to ensuring educators remain relevant and connected to students' preferred modes of learning. Challenges and benefits of the use of social media tools in teaching are also detailed. Examining the potential for effective integration of social media in the classroom, this book is a valuable resource for educators, practitioners and researchers interested in mathematics education.

Diálogos Educacionais Lourenço Resende Da Costa E José Junio Da Silva (org.), 2023-05-03 DIÁLOGOS EDUCACIONAIS: DESAFIOS PERENES chega ao público com o intuito de contribuir com o necessário diálogo em torno das múltiplas faces que a Educação apresenta. Dialogar parece simples, mas na prática é algo desafiador, sobretudo em tempos de intolerância. No entanto, não podemos abrir mão dessa premissa básica. Não se faz Educação sem ouvir, sem debater e sem considerar o outro. A Educação não deve ser pensada como um conceito abstrato. Ela está intrinsecamente ligada às condições materiais em que ocorre, ou seja, as realidades das escolas e universidades, bem como a realidade sociocultural das comunidades

atendidas por cada instituição, devem ser consideradas como ponto de partida para qualquer reflexão que se queira fazer. Além disso, Educação não é imutável. Seus pressupostos estão sempre sendo questionados e necessitando de argumentação, baseada em pesquisa, estudo e reflexão, para sua sustentação. Portanto, devemos pensá-la como algo em constante transformação e que por isso mesmo exige de nós, educadores/as, um esforço constante, pois os desafios são perenes. Sendo assim, cabe destacar que ser educador e principalmente refletir a respeito da prática é cada vez mais um sinal de resistência.

Remaking Communities and Adult Learning ,2022-05-09 What responses is adult education providing to the great global problems: climate change and the environment, populism and racism, gender inequality, social and economic inequality? The ESREA Research Network between Local and Global - Adult Learning and Communities and the authors collected here argue for socially engaged community-based research which promotes critical democracy and popular education and drives powerful research methodologies: participatory research, feminist research, ecological research activism, posthumanist research, and more. The first part of the book looks back and forwards to the contribution to adult learning and community development played by participatory research in the making and remaking of community and society. In the second part, the focus shifts to pedagogies of possibility and change, knowledge creation and the transformation of pedagogies of inclusion. The third part, on activism and change, turns its attention to the motivations for activism and their individual and collective forms of expression. The final part considers re-making and 'doing' society and community, in particular during the COVID-19 pandemic. For researchers interested in participatory and emancipatory social research, gender and biography research, or community-university research partnerships, Remaking Communities and Adult Learning presents adult learning as a site of resistance for sustainable and creative andragogic practice.
