*The Oxford Handbook of Tudor Literature* Mike Pincombe, Cathy Shrank, 2009-09-10 This is the first major collection of essays to look at the literature of the entire Tudor period, from the reign of Henry VII to death of Elizabeth I. It pays particularly attention to the years before 1580. Those decades saw, amongst other things, the establishment of print culture and growth of a reading public; the various phases of the English Reformation and process of political centralization that enabled and accompanied them; the increasing emulation of Continental and classical literatures under the influence of humanism; the self-conscious emergence of English as a literary language and determined creation of a native literary canon; the beginnings of English empire and the consolidation of a sense of nationhood. However, study of Tudor literature prior to 1580 is not only of worth as a context, or foundation, for an Elizabethan 'golden age'. As this much-needed volume will show, it is also of artistic, intellectual, and cultural merit in its own right. Written by experts from Europe, North America, and the United Kingdom, the forty-five chapters in *The Oxford Handbook to Tudor Literature* recover some of the distinctive voices of sixteenth-century writing, its energy, variety, and inventiveness. As well as essays on well-known writers, such as Philip Sidney or Thomas Wyatt, the volume contains the first extensive treatment in print of some of the Tudor era's most original voices.

**English Poetry Since 1940** Neil Corcoran, 2014-07-15 Neil Corcoran's book is a major survey and interpretation of modern British poetry since 1940, offering a wealth of insights into poets and their work and placing them in a broader context of poetic dialogue and cultural exchange. The book is organised into five main parts, beginning with a consideration of the late Modernism of T. S. Eliot and W. H. Auden and ranging, decade by decade, from the poetry of the Second World War and the 'New Romanticism' of Dylan Thomas to the Movement, the poetry of Northern Ireland, the variety of contemporary women's poetry and the diversity of the contemporary scene. The book will be especially useful for students as it includes detailed and lively readings of works by such poets as Ted Hughes, Seamus Heaney and Philip Larkin.

**Dot's diary; or, Banished from Fairyland** Paul Taylor, 1883

**Women's Writing from the Low Countries 1200-1875** Lia van Gemert, 2010 This book provides a welcome English translation of a marvelous anthology of women's religious and secular writing, stretching from the visions of the late

medieval mystics through the prison testaments of sixteenth-century Anabaptist martyrs to the pamphleteers and novelists of the growing urban bourgeoisie. The translations and introductions demonstrate the ways that women in the Low Countries shaped the intellectual and cultural developments of their eras.

**Michael Ondaatje** Douglas Barbour, 1993 Today, as his richly metaphorical texts enjoy international renown, Ondaatje's fame is especially fascinating, for he has neither followed trends nor played to any crowd, instead fulfilling his wish to start each new book with a new vocabulary. Unlike fellow writers Robert Kroetsch and George Bowering, Ondaatje dislikes discussing theory - it takes an appreciation as sharp and probing as Douglas Barbour's to enlighten us to the thoughts, intentions, and influences that have shaped Ondaatje's work, his consistent movement into new territory, and his masterful traversal through the modes of late modernism, postmodernism, and postcolonialism. Barbour offers luminous readings of each of Ondaatje's books up to *The English Patient* (1992), a novel of international scope that is as much about the power of narratives as the power of passion. Barbour illuminates Ondaatje's early alignment with Wallace Stevens and Robert Lowell, as well as his later development in the Pound tradition.
