**The Fifth Gospel** John F. A. Sawyer,1996-03-21 There is currently much interest in the history of interpretation, reader-response and the sociology of sacred texts - in what the text does as much as what it means. Isaiah, 'more evangelist than prophet' according to Jerome and others, provides an ideal case study, because of his profound influence on the language and imagery of Christianity. With illustrations from art, music, literature and the media as well as commentaries, sermons and official church pronouncements, Professor Sawyer shows how Isaiah has been used in all kinds of context, from the cult of the Virgin Mary, mediaeval passion iconography and antisemitic propaganda to Christian feminism and liberation theology. This first attempt at a comprehensive critical study of an essential part of biblical interpretation will provide a model for further research, and ensure that commentaries will never be the same again.

Mounting Queen Victoria Steven C. Dubin,2009 South African society has been refashioned since the first democratic elections were held in 1994; if democracy is the theory then transformation is the practice. This is apparent in the nation's museums, where collections and exhibition policies, staff and audiences have been changed in fundamental ways. Such changes have impacted the range of these institutions, including those focusing on art, natural history and science, cultural history, local events, and military matters. Steven C. Dubin examines in Mounting Queen Victoria the various strategies museums have adopted to shed their former ideological biases and become more inclusive. This book also notes that in this process, museums have developed into lively centres of debate - noisy democratic forums recovering the past and generating fresh information--Publisher's website.
