Progress George William Foote, 1887

Translations from Red Flag, 1984

Managing the Cooperative Enterprise Bruno Jossa, 2020-10-30 This book revolves around the idea that capitalism is not a democratic system and that a system of producer cooperatives, or democratically managed enterprises, gives rise to a new mode of production which is authentically socialist in essence and fully consistent with the ultimate rationale underlying Marx's theoretical approach. The author argues that the cooperative firm system outlined in this book offers a rich array of non-economic benefits that justify its classification as a 'genuinely socialist' entity, with real potential for achieving true economic democracy.

Labour Managed Firms and Post-Capitalism Bruno Jossa, 2016-11-25 This book illustrates and discusses the major points of the economic theory of producer cooperatives, its evolution since the 1950s and links with Marxian theory. Most importantly, this book demonstrates that a system of producer cooperatives offers a wealth of advantages compared to capitalism. There is general agreement that the main benefit of this form of economic democracy is that people allowed to freely pursue their interests are happier than those acting on somebody else's instruction. The author argues that a system of democratic firms would eradicate classical (high-wage) unemployment and scale down both Keynesian and structural unemployment levels.

The Complete Works of Rosa Luxemburg, Volume II Rosa Luxemburg, 2015-05-19 Rosa Luxemburg's theoretical masterpiece The second volume in Rosa Luxemburg's Complete Works, entitled Economic Writings 2, contains a new English translation of Luxemburg's *The Accumulation of Capital: A Contribution to the Economic Theory of Imperialism*, one of the most important works ever composed on capitalism's incessant drive for self-expansion and the integral connection between capitalism and imperialism. This new translation is the first to present the full work as composed by the author. It also contains her book-length response to her critics, *The Accumulation of Capital, Or, What the Epigones Have Made Out of Marx's Theory—An Anti-Critique*. Taken together, these two works represent one of the most important Marxist studies of the

globalization of capital. Also included is an essay on the second and third volumes of Marx's Capital, which had originally appeared as an unattributed chapter in Franz Mehring's book Karl Marx. Thank you to David Gaharia for helping to support the translation of this book.
