Encyclopedia of Television Shows, 1925 through 2010, 2d ed. Vincent Terrace, 2014-01-10 This fully updated and expanded edition covers over 10,200 programs, making it the most comprehensive documentation of television programs ever published. In addition to covering the standard network and cable entertainment genres, the book also covers programs generally not covered elsewhere in print (or even online), including Internet series, aired and unaired pilot films, erotic series, gay and lesbian series, risque cartoons and experimental programs from 1925 through 1945.

Criminal Juries in the 21st Century Cynthia Najdowski, Margaret Stevenson, 2018-08-20 The jury is often hailed as one of the most important symbols of American democracy. Yet much has changed since the Sixth Amendment in 1791 first guaranteed all citizens the right to a jury trial in criminal prosecutions. Experts now have a much more nuanced understanding of the psychological implications of being a juror, and advances in technology and neuroscience make the work of rendering a decision in a criminal trial more complicated than ever before. *Criminal Juries in the 21st Century* explores the increasingly wide gulf between criminal trial law, procedures, and policy, and what scientific findings have revealed about the human experience of serving as a juror. Readers will contemplate myriad legal issues that arise when jurors decide criminal cases as well as cutting-edge psychological research that can be used to not only understand the performance and experience of the contemporary criminal jury, but also to improve it. Chapter authors grapple with a number of key issues at the intersection of psychology and law, guiding readers to consider everything from the factors that influence the initial selection of the jury to how jurors cope with and reflect on their service after the trial ends. Together the chapters provide a unique view of criminal juries with the goal of increasing awareness of a broad range of current issues in great need of theoretical, empirical, and legal attention. *Criminal Juries in the 21st Century* will identify how social science research can inform law and policy relevant to improving justice within the jury system, and is an essential resource for those who directly study jury decision making as well as social scientists generally, attorneys, judges, students, and even future jurors.

Transnational European Television Drama Ib Bondebjerg, Eva Novrup Redvall, Rasmus Helles, Signe Sophus Lai, Henrik Søndergaard, Cecilie Astrupgaard, 2017-11-09 This book deals with the role of television drama in Europe as enabler of transnational, cultural encounters for audiences and the creative community. It demonstrates that the diversity of

national cultures is a challenge for European TV drama but also a potential richness and source of creative variation. Based on data on the production, distribution and reception of recent TV drama from several European countries, the book presents a new picture of the transnational European television culture. The authors analyse main tendencies in television policy and challenges for national broadcasters coming from new global streaming services. Comparing cases of historical, contemporary and crime drama from several countries, this study shows the importance of creative co-production and transnational mediated cultural encounters between national cultures of Europe.

Contemporary Chinese Studies Series Ruoyun Bai, 2014-01-01 In late 1995, the drama *Heaven Above* (Cangtian zaishang) debuted on Chinese TV. Featuring a villainous high-ranking government official, it was the first in a series of wildly popular corruption dramas that riveted the nation. In *Staging Corruption*, Ruoyun Bai looks at the rise, fall, and reincarnation of these dramas and the ways in which they express the collective dreams and nightmares of China in the market-reform era. She also considers how these dramas - as products of the interplay between television stations, production companies, media regulation, and political censorship - unveil complicated relationships between power, media, and society. Her book will be essential reading for those following China's ongoing struggles with the highly volatile issue of political and social nepotism.

Driving With Music: Cognitive-Behavioural Implications Dr Warren Brodsky, 2015-04-28 This book, the first full-length text on the subject, explores the everyday use of music listening while driving a car. It presents the relationship between cars and music in an effort to understand how music behaviour in the car can either enhance driver safety or place the driver at increased risk of accidents. A great deal of work has been done to investigate and reduce driver distraction and inattention, but this book is the first to focus on in-cabin aural backgrounds of music as a contributing factor to human error and traffic violations. *Driving With Music* begins by outlining the automobile, its relationship to society, and the juxtaposition of music with the automobile as a complete package. It then highlights concepts from the fields of music perception and cognition, and, within this framework, looks at the functional use of background music in our everyday lives. Driver music behaviours - both adaptive and maladaptive - are explored, with the focus on contradictions and ill-effects of in-car music listening. To conclude, implications, applications and countermeasures are suggested.

The Works of Shonda Rhimes Anna Weinstein, 2024-08-22 *The Works of Shonda Rhimes*, the first book in Bloomsbury's Screen Storytellers series, brings together a collection of essays that look critically at the works of this award-winning writer, producer, and CEO of the global media company, Shondaland. Shonda Rhimes's television series, and those created and produced through Shondaland, have left an important imprint on television history. Beginning with her groundbreaking series *Grey's Anatomy*, the series created under the umbrella of Rhimes's brand, including *Private Practice*, *Scandal*, *How to Get Away with Murder*, *For the People*, *Station 19*, *Bridgerton*, *Inventing Anna*, and *Queen Charlotte: A Bridgerton Story*, have delighted global audiences with their innovative storytelling, dynamic characters, and the inclusion of contemporary

social issues woven throughout the storylines. In this collection of essays, screenwriting and television studies scholars explore the ways in which Rhimes's series have been at the forefront of change in the television landscape in the past two decades, including discussions of the representation of women, BIPOC, and LGBTQ+ characters; inclusivity in casting; innovations in pilot and series development; variations on genre; and disruptive business and marketing practices. This collection of essays offers emerging screenwriters and informed consumers of television insights into the cultural impact of Rhimes's work as well as how one of the most powerful television creators and showrunners in the history of the medium has crafted and shaped screen stories that speak to viewers spanning all demographics across the globe.

Entertainment Industries Alan McKee,Christy Collis,Ben Hamley,2014-06-11 Entertainment Industries is the first book to map entertainment as a cultural system. Including work from world-renowned analysts such as Henry Jenkins and Jonathan Gray, this innovative collection explains what entertainment is and how it works. Entertainment is audience-centred culture. The Entertainment Industries are a uniquely interdisciplinary collection of evolving businesses that openly monitor evolving cultural trends and work within them. The producers of entertainment – central to that practice– are the new artists. They understand audiences and combine creative, business and legal skills in order to produce cultural products that cater to them. Entertainment Industries describes the characteristics of entertainment, the systems that produce it, and the role of producers and audiences in its development, as well as explaining the importance of this area of study, and how it might be better integrated into Universities. This book was originally published as a special issue of Continuum: Journal of Media & Cultural Studies.

Selective Exposure To Communication Dolf Zillmann,Jennings Bryant,2013-07-04 First published in 1985. Research into what is usually referred to as mass communication has concentrated on the societal impact of the media. The ways in which these media influence people and affect their behavior have been at issue. For the most part, undesirable effects were pondered and documented. Only a few desirable effects received similar attention and scrutiny. The research preoccupation with impact has been so pronounced that, comparatively speaking, next to no attention has been paid to questions such as why people enjoy whatever they elect to watch or hear, and more fundamentally, why they elect to watch or hear, in the first place, whatever it is that they elect to watch or hear. Without a symposium on research into selective exposure to informative and entertaining messages nor a publication that brought together the recent research in this area, this volume was put together in an effort to end this dilemma and to put selective-exposure research on the map as a significant research venture.

In fact media are concerned with various forms into which the message is placed, written and oral, as used for transmitting messages. All latest developments are categorically described in this book. Today, media-related programmers, departments, schools, and colleges go by such names as journalism, journalism and mass communication, mass media, media studies, communications, communication and mass media, and a variety of other names.
