The Short-story William Patterson Atkinson,1922

The Art of Authorial Presence Gary Richard Thompson,1993 The critical literary world has spent a wealth of thought and words on the question of Hawthorne himself: Where does he stand in his works? In history? In literary tradition? In this major new study, G. R. Thompson recasts the Hawthorne question to show how authorial presence in the writer's works is as much a matter of art as the writing itself. The Hawthorne who emerges from this masterful analysis is not, as has been supposed, identical to the provincial narrator of his early tales; instead he is revealed to be the skillful manipulator of that narrative voice, an author at an ironic distance from the tales he tells. By focusing on the provincial tales as they were originally conceived--as a narrative cycle--Thompson is able to recover intertextual references that reveal Hawthorne's preoccupation with framing strategies and variations on authorial presence. The author shows how Hawthorne deliberately constructs sentimental narratives, only to deconstruct them. Thompson's analysis provides a new aesthetic context for understanding the whole shape of Hawthorne's career as well as the narrative, ethical, and historical issues within individual works. Revisionary in its view of one of America's greatest authors, *The Art of Authorial Presence* also offers invaluable insight into the problems of narratology and historiography, ethics and psychology, romanticism and idealism, and the cultural myths of America.

Work Psychology and Organizational Behaviour Wendy Hollway,1991-04-12 Tracing the development of work psychology and organizational behaviour from the early 20th century to the present, this book focuses on the relations between

knowledge, power and practice. The author charts the impact of such psychology upon the emergence of new management tools.

The Poetics of National and Racial Identity in Nineteenth-Century American Literature John D.

Kerkering, 2003-12-11 John D. Kerkering's study examines the literary history of racial and national identity in nineteenth-century America. Kerkering argues that writers such as DuBois, Lanier, Simms, and Scott used poetic effects to assert the distinctiveness of certain groups in a diffuse social landscape. Kerkering explores poetry's formal properties, its sound effects, as they intersect with the issues of race and nation. He shows how formal effects, ranging from meter and rhythm to alliteration and melody, provide these writers with evidence of a collective identity, whether national or racial. Through this shared reliance on formal literary effects, national and racial identities, Kerkering shows, are related elements of a single literary history. This is the story of how poetic effects helped to define national identities in Anglo-America as a step toward helping to define racial identities within the United States. This highly original study will command a wide audience of Americanists.

Country Life Illustrated ,1901

The Critical Response to Nathaniel Hawthorne's The Scarlet Letter Gary Scharnhorst, 1992-01-22 The Scarlet Letter is virtually unique among works of American fiction because it has not lapsed from print in over 140 years. The history of its reception, which is fully articulated in the volume introduction, may be read as a case study in canon formation. The collection of documents in the volume outline the highs and lows of Nathaniel Hawthorne's literary reputation and the elevation of his first and best-known romance to the rank of masterpiece and classic. Also included is a selective bibliography of modern scholarship. Among the early documents reprinted are contemporary news accounts of Hawthorne's dismissal from the Salem Custom House in June 1849, which provide the immediate background to The Custom House introduction in the story, the publisher James T. Fields's anecdotal version of the book's composition history, and a generous sheaf of notices

from both American and British newspapers upon its publication in March, 1850. Of special value are the various essays and other materials that trace the institutionalization of the romance within the genteel tradition of American letters in the late nineteenth century. More recently, *The Scarlet Letter* has become something of an academic shibboleth, inspiring dozens of New Critical, psychoanalytical, feminist, and other readings, which are also represented in this collection. Prominent among modern critics whose essays appear are Neal Frank Doubleday, Darrel Abel, and Nina Baym. A number of reviews of theatrical and cinematic adaptations of the story also underscore its stature as a cultural icon. This volume is essential for serious research on Nathaniel Hawthorne and provides a convenient body of valuable commentary accessible even to the student reading *The Scarlet Letter* for the first time.
