The Alchemy of Illness Kat Duff,1993 Illness is a universal experience. There is no privilege that can make us immune

to its touch. We are taught to assume health, illnesses being just temporary breakdowns in the well-oiled machinery of the body. But illness has its own geography, its own laws and commandments. At a time when the attention of the whole nation is focused on health care, Kat Duff inquires into the nature and function of illness itself. Duff, a counselor in private practice in Taos, New Mexico, wrote this book out of her experience with chronic fatigue syndrome, but what she has to say is applicable to every illness and every one of us. For those who are sick, this book offers solace and recognition. For those who care for them either physically or emotionally, it offers inspiration and compassion. Finally, this fresh perspective on healing reveals how every illness is a crucible that tries our mettle, tests our limits, and provides us with an unparalleled opportunity to integrate its lessons into our lives.

The Revolution Will Not Be Microwaved Sandor Ellix Katz, 2006-11-15 From James Beard Award winner and New York Times bestselling author of *The Art of Fermentation* An instant classic for a new generation of monkey-wrenching food activists. Food in America is cheap and abundant, yet the vast majority of it is diminished in terms of flavor and nutrition, anonymous and mysterious after being shipped thousands of miles and passing through inscrutable supply chains, and controlled by multinational corporations. In our system of globalized food commodities, convenience replaces quality and a connection to the source of our food. Most of us know almost nothing about how our food is grown or produced, where it comes from, and what health value it really has. It is food as pure corporate commodity. We all deserve much better than that. In *The Revolution Will Not Be Microwaved*, author Sandor Ellix Katz (Sandor Katz's *Fermentation Journeys*, *The Art of Fermentation*, and *Wild Fermentation*) profiles grassroots activists who are taking on Big Food, creating meaningful alternatives, and challenging the way many Americans think about food. From community-supported local farmers, community gardeners, and seed saving activists, to underground distribution networks of contraband foods and food resources rescued from the waste stream, this book shows how ordinary people can resist the dominant system, revive community-based food production, and take direct responsibility for their own health and nutrition.

When Technology Fails Matthew R. Stein, Matthew Stein, 2008-03-27 Matthew Stein's comprehensive guide to sustainable living skills gives you the tools you need to fend for yourself and your family in times of emergency or disaster. It also goes a step further, giving sound instructions on how to become self-reliant in seemingly stable times and for the long term by adopting a sustainable lifestyle--Cover, p. 4.

Down to Earth Rhonda Hetzel, 2021-03 'I was pulled into simple living before I knew what it was. It crept up on me using the smallest of steps and didn't reveal its true beauty and real power until I was totally hooked. I was searching for a way to live well while spending very little money. What I found was a way of life that also gave me independence, opportunity and freedom.' There is no simple solution when you ask, 'How can I change my life to create a resilient and secure future?' But there are steps you can take to create a haven for you and your loved ones. Rhonda Hetzel's book, *Down to Earth*, was

originally written for those who wanted to slow down and simplify life. Now, with the events of 2020 forcing change on all of us, it is also a valuable guide for creating a home that will provide safety and comfort during the uncertain years ahead. Rhonda gently encourages readers to find the pleasure and meaning in a simpler life, sharing all the practical information she has gathered on her own journey. 'This book has brought me such knowledge and comfort over the years.' - Clare Bowditch

Prepping 101 Kathy Harrison, 2018-06-26 The next severe storm, power outage, or financial meltdown could hit at any time. Having a household contingency plan and being part of a strong, resilient community could mean the difference between life and death. This friendly and highly accessible guide introduces the most important, practical steps your whole family can take in advance to ensure survival, safety, and comfort in short- or long-term emergencies. The critical information is presented in 40 achievable tasks, ranging from creating a preparedness notebook and repackaging store-bought food for storage to more involved preparations, such as learning to collect rainwater and building a solar oven. This publication conforms to the EPUB Accessibility specification at WCAG 2.0 Level AA.

Finding the Flavors We Lost Patric Kuh, 2024-05-21 The multiple-James Beard Award-winning restaurant critic for Los Angeles Magazine delivers an arresting exploration of our cultural demand for artisanal foods in a world dominated by corporate agribusiness. We hear the word artisanal all the time—attached to cheese, chocolate, coffee, even fast-food chain sandwiches—but what does it actually mean? We take farm to table and handcrafted food for granted now but how did we get here? In *Finding the Flavors We Lost*, acclaimed food writer Patric Kuh profiles major figures in the so-called artisanal food movement who brought exceptional taste back to food and inspired chefs and restaurateurs to redefine and rethink the way we eat. Kuh begins by narrating the entertaining stories of countercultural radicals who taught themselves the forgotten crafts of bread, cheese, and beer-making in reaction to the ever-present marketing of bland, mass-produced food, and how these people became the inspiration for today's crop of young chefs and artisans. *Finding the Flavors We Lost* also analyzes how population growth, speedier transportation, and the societal shifts and economic progress of the twentieth century led to the rise of supermarkets and giant food corporations, which encouraged the general desire to swap effort and quality for convenience and quantity. Kuh examines how a rediscovery of the value of craft and individual effort has fueled today's popularity and appreciation for artisanal food and the transformations this has effected on both the restaurant menu and the dinner table. Throughout the book, he raises a host of critical questions. How big of an operation is too big for a food company to still call themselves artisanal? Does the high cost of handcrafted goods unintentionally make them unaffordable for many Americans? Does technological progress have to quash flavor? Eye-opening, informative, and entertaining, *Finding the Flavors We Lost* is a fresh look into the culture of artisan food as we know it today—and what its future may be.

The Freedom Outlaw's Handbook Claire Wolfe,2007-07 Claire Wolfe is back and has expanded her original 101 Things to Do 'Til the Revolution to 179 thought-and-action items. Some will work for nearly everyone. Some are for those who are more radical. Some are serious. Some are fun. All of them will shore up the privacy barrier that's being eroded - if not downright blasted away - by the Patriot Act, by corporate Little Brotherism, and by other laws and regulations. Better yet, Claire will inspire you to free your own Inner Outlaw and kick tyrant butt so you can win back freedom. The choices you make are up to you. But if you've been sitting back waiting for the water to get a little hotter before you jump out of the big government, total control vat, Claire gives you 179 tools to help you plan and work.
